II.1.2.4 Ativos de Geração **Solar** e Energia Gerada – Empreendimentos sob Responsabilidade Integral

Empresa Eletrobras	Empreendimento	Localização (Estado)	Fonte	Início da Concessão	Início da Operação	Fim da Operação	Capacidade Instalada (MW)	Garantia Física (MW Médio)	Energia Gerada (MWh) 1T25	2T25	3T25	4T25
CGT Eletrosul	Megawatt Solar	SC	Solar	Jun-14	Sep-14	-	0.93	NA	306	203		

(1) A concessão para exploração da PCH Coremas foi inicialmente outorgada ao Departamento Nacional de Obras Contra Secas - DNOCS por meio do Decreto no 53.417, de 20/1/1964 e posteriormente transferida a Companhia Hidro Elétrica do São Francisco - CHESF por intermédi

(2) Decreto Nº 85.983, de 6 de Maio de 1981. Outorga a FURNAS - Centrais Elétricas S.A. concessão para um conjunto de aproveitamento da energia hidráulica do trecho do curso principal do Rio Tocantins e seus afluentes das margens direita e esquerda, no Estado de Goiás. 12.1

(3) UHEs compartilhadas, porém FURNAS adquire a fração do parceiro atráves de contratos de compra de energia - considerados GF e geração total de cada UHE.

(4) Tranferência das participações para COPEL em maio/2025.

(5) Portaria MME 331 de 14.08.2018 - DOU 15.08.2018, Autorizar a descontratação, em sua totalidade, da Central Geradora Termelétrica denominada UTE Araguaia. A Eletronorte, por meio da CE-CRR-0118, de 20.06.2018, solicitou à ANEEL a revogação da outorga de autorização da UTE Araguaia. No entanto, a Associação dos Municípios do Araguaia - AMA ajuizou a Ação Civil Pública nº 2803-97.2018.811.008 em face da Eletronorte no Tribunal e Justiça de Mato Grosso, tendo sido concedida a tutela de urgência. A Eletronorte, por meio da CE-CRR-0144, de 07.08.2018, solicitou à ANEEL o sobrestamento do processo. No dia 11.10.2018 a Eletronorte ajuizou ação judicial perante a Justiça Federal (Processo nº 1021506-05.2018.4.01.3400) para discutir o assunto mas ainda pendente de julgamento.
Por determinação da RD-0249/2019 de 08.08.2019, a Eletronorte por meio da CE-CRR-0157/2019 de 30.08.2019 solicitou a SCG/ANEEL a retomada do processo objetivando a revogação da outorga de autorização da UTE Araguaia, nos termos da Portaria MME nº 331 de 14.08.2018. Em 06.11.2019 a SCG/ANEEL solicitou à Eletronorte que demonstrasse que a referida Ação Civil Pública não possui mais efeitos. Por meio da correspondência s/n de 11.11.2019, a Consultoria Jurídica da Eletronorte apresentou os esclarecimentos solicitados. A SCG/ANEEL encaminhou o Memorando nº 281/2019-SCG/ANEEL à Procuradoria Federal Junto à ANEEL. Tendo em vista que não houve manifestação, a Eletronorte reiterou o pleito da CE-CRR-0157/2019, por meio da CE-CRR-0079/2020, de 26.05.2020. **A Eletronorte, por meio da carta CE-PR-0077/2021, de 17/06/2021, informou que realizou o encerramento administrativo do Contrato e concluiu a desmobilização da usina em Junho/2020.**
(6) A UTE Senador Arnon Afonso Farias de Mello encontra-se cedida para a Roraima Energia S.A, sucessora da Boa Vista Energia S.A, por meio de contrato de comodato. Este empreendimento não está sendo considerado na capacidade instalada da Eletronorte.

(7) Processo de transferência em trâmite perante MME e ANEEL.

(8) Decreto nº 52.394 de 22/08/1963 - autoriza a Companhia Hidreletrica do Vale do Paraiba a montar usina termeletrica. Decreto nº 60.350 de 10/03/1967 - outorga a Central eletrica de Furnas s.a. concessão para o aproveitamento de energia hidraulica, autorização para o estabelecimento de usina termeletrica e da outras providencias.

(9) As UTE Cristiano Rocha, Manauara, Ponta Negra, Tambaqui e Jaraqui não fazem parte dos ativos próprios de geração da Amazonas GT, elas pertencem aos Produtores Independentes de Energia – PIE, dos quais a Amazonas GT compra sua energia e as revende para a Amazonas D por meio de Contratos de Compra e Venda de Energia – CCVE. Estes contratos de compra de energia dos PIE pela Amazonas GT quando do seu término em Maio/2025, por força contratual, as usinas dos PIE serão revertidas para o patrimônio da Amazonas GT (05/05/2025 reversão dos ativos das UTEs Tambaqui e Jaraqui e 21/05/2025 reversão dos ativos das UTEs Manauara, Ponta Negra e Cristiano Rocha), cabendo à mesma operá-las até 30 de novembro de 2030.

(10) A Resolução Autorizativa 7.907, de 18/06/2019, faz referência à potência instalada da usina de Casa Nova A, mas não faz qualquer referência à garantia física de tal usina. Isso se dá em virtude da Usina de Casa Nova A não possuir Garantia Física definida pelo MME. O montante apresentado de 6,8 MW é proveniente do estudo de certificação da usina, sendo, apenas, um referencial.

(11) CONTRATO DE CONCESSÃO Nº 002/2022 – ANEEL - ELETRONORTE - Novo contrato de concessão das UHEs Tucuruí, Curuá-una e Coaracy Nunes, passando para 30 anos.
(12) As usinas Masc. de Moraes, Corumbá I, Estreito, Funil, Furnas, Marimbondo e P. Colômbia tiveram a outorga da concessão determinada pela Cláusula Segunda do Contrato de Concessão nº 003/2022 firmado entre Furnas e ANEEL em 17/06/2022 como sendo a data da assinatura do contrato: 17/06/2022; o termo final da concessão em 17/06/2052 foi determinado no Anexo II do Contrato de Concessão nº 003/2022 firmado entre Furnas e ANEEL em 17/06/2022.
(13) Por meio do Despacho Nº 481, de 23 de fevereiro de 2023, a ANEEL liberou a unidade geradora e UG31, de 150.000,00 kW da UTE Santa Cruz para início da operação comercial a partir de 24 de fevereiro de 2023. Por meio do Despacho Nº 1991, de 23 de junho de 2023, a ANEEL prorrogou, por prazo indeterminado, a operação comercial da unidade geradora e UG31, de 150.000,00 kW da UTE Santa Cruz.

(14) Alteração de Garantia física por meio da Portaria No 709/GM/MME, de 30 de novembro de 2022.
(15) Conforme Portaria nº 409, de 13 de novembro de 2020, do Ministério de Minas e Energia (MME), a partir de 1º de janeiro de 2021 Furnas foi designada como responsável pela Prestação do Serviço de Geração de Energia Elétrica por meio da Usina Hidrelétrica Jaguari , até a assunção do concessionário vencedor da licitação da Usina.
(16) Conforme concessão e REH 2.932/2021. Destaca-se que a Resolução Autorizativa nº 14.435/2023 adicionou 469 dias ao prazo de concessão. Por conseguinte, o tempo adicional concedido pela REH 2.932/2021, de 1.789 dias, que resultaria em vencimento em 07/09/2048, precisará ser recalculado e homologado pela Aneel. Novo prazo conforme a Resolução Homologatória nº 3.242/2023.
(17) 23 unidades geradoras liberadas para operação comercial totalizando 96,6 MW.
(18) 25 unidades geradoras liberadas para operação comercial totalizando 105 MW.
(19) 15 unidades geradoras liberadas para operação comercial totalizando 63 MW.
(20) Usinas com titularidade transferida pelo despacho Aneel nº 151/2025. A medição de geração de energia foi considerada até o mês de abril/2025.

(1) As usinas hidráulicas tiveram seu antigo contrato de concessão 006/2004 substituídos pelo novo contrato de concessão 001/2022. As novas concessões foram outorgadas por meio da desestatização da Eletrobras, nos termos da Lei 12 de julho de 2021.

(2) CONTRATO DE CONCESSÃO Nº 002/2022 – ANEEL - ELETRONORTE - Novo contrato de concessão das UHEs Tucuruí, Curuá-Una e Coaracy Nunes, passando para 30 anos.

(3) As usinas de Corumbá I, Estreito, Funil, Furnas, Marimbondo, P. Colômbia e Itumbiara tiveram a outorga da concessão determinada pela Cláusula Segunda do Contrato de Concessão nº 003/2022 firmado entre Furnas e ANEEL em 1 data da assinatura do contrato: 17/06/2022; o termo final da concessão em 17/06/2052 foi determinado no Anexo II do Contrato de Concessão nº 003/2022 firmado entre Furnas e ANEEL em 17/06/2022.

(4) Para atendimento à Lei 13.182/2015, a usina de Sobradinho disponibiliza 90% de sua Garantia física e as demais usinas cotistas da Chesf disponibilizam 2,21% de suas garantias físicas para atendimento aos consumidores industriais

(5) Para atendimento à Lei 13.182/2015, a usina de Itumbiara disponibiliza 80% de sua Garantia física para atendimento aos consumidores industriais localizados no submercado Sudeste/Centro-Oeste.

PIEs decorrentes do processo de desverticalização da Amazonas Distribuidora

Os Contratos de Compra e Venda de energia proveniente dos PIEs(contratos por quantidade) são decorrentes do processo de desverticalização da Amazonas Distribuidora -> Processo: 48500.004245/2012-43 -ANEEL.

A Eletronorte compra a energia dos PIEs, cujo preço não inclui o custo do combustível (gás). A Eletronorte vende, o mesmo montante comprado dos PIEs, à distribuidora Amazonas Energia, incluindo na tarifa o custo do combustível, de modo que as operações de compra e venda de energia não refletem impacto econômico para a Eletronorte ("pass-through"). O contato de fornecimento do gás que atende as usinas térmicas do Amazonas foi realizado entre a Eletronorte e a Petrobras.

Os contratos de compra de energia dos PIEs pela Eletronorte se encerram em maio de 2025, assim como os atuais contratos de venda para a Amazonas Energia. A partir dessa data, os ativos serão convertidos para a Eletronorte.
Como desdobramento da MP 855/2018, serão celebrados novos contratos de venda de energia com a Amazonas Energia para suprimento após essa data, do tipo CCEAR, com prazo até novembro de 2030 (data atrelada ao contrato de fornecimento do Gás).

Contratos celebrados até 31/03/2025.

Cabe ressaltar que no balanço estão sendo consideradas as SPEs consolidadas pela Eletrobras: UHE Santo Antônio (a partir do 3T22), UHEs Baguari

1. Não estão incluídos no balanço, seja nos recursos, requisitos (vendas) ou preços médios, os contratos dos Produtores Independentes de Energia (PIEs) advindos do processo de desverticalização da Amazonas Distribuidora, os contratos das usinas térmicas por disponibilidade e as Cotas de
2. Nos Recursos Próprios estão incluídas as usinas da descotização (novos PIEs) e as Novas Outorgas (Sobradinho, Itumbiara, Tucuruí, Curuá-Una e Mascarenhas de Moraes). Para os empreendimentos hidrelétricos, foi considerada uma estimativa de GFIS2, ou seja, a Garantia Física conside
3. Estão considerados os valores revistos de Garantia Física conforme definido na Portaria Nº 709/GM/MME, de 30 de novembro de 2022
4. Com a descotização, as usinas atualmente em regime de cotas passam a ter uma nova concessão sob o regime de Produtor Independente de Energia (PIE), ocorrendo de forma gradual em um período de 5 anos a partir de 2023. Os valores de Garantia Física foram definidos na Portaria GM/
5. Consideradas as novas outorgas de concessão a partir de 2023 para as usinas de Sobradinho, Itumbiara, Tucuruí, Curuá-Una e Mascarenhas de Moraes, cujos valores de Garantia Física foram definidos na Portaria GM/MME Nº 544/21.
6. Os saldos incluem transações intercompany, com efeitos nas linhas de compra de energia e vendas no ACL, nas seguintes quantidades: aproximadamente 800 MWmed em 2025, aproximadamente 200 MWmed em 2026 e 2027 e aproximadamente 150 MWmed em 2028.

Cotas de Garantia Física de Usinas Hidrelétricas (MWmed)	2025	2026	2027
Cotas de Garantia Física (7) (8)	2,626	1,313	0

(7) This excludes the Assured Capacity of Jaguari HPP (12.7 aMW), whose concession remains under Eletrobras' provisional management.
(8) Decotization occurs gradually over a five-year period beginning in 2023. The Assured Capacity values applied from 2023 onward are those established in Ordinance GM/MME No. 544/21.
(9) The figures represent an estimate of uncontracted energy. The projected value for 2025 is 83.5%, while for subsequent years, the average historical GSF from 2019 to 2023 of 82.7% was considered. Observações

1. Os valores da RAP ciclo 2024/2025 estabelecidos por meio da Resolução Homologatória 3.348/2024 estão a preços de junho/2024.

2. **PRT MME 579/12** - definiu as RAP iniciais, de que trata o art. 13 da Medida Provisória no 579, de 2012 (convertida na Lei 12.783/2013), das instalações integrantes das concessões de transmissão de energia elétrica enquadradas no art. 6º da referida Medida Provisória, observada a decisão prevista no seu art. 12.

(I) A abertura do valor total da RAP PRT MM 579/12 (O&M) é apresentada na coluna "RAP do ciclo 2024/2025" da aba "Lista de Módulos" da planilha, ao filtrar "PRT 579/2012" na coluna "Ato da RAP".

3. **PRT MME 120/16** - determinou que os valores homologados pela ANEEL relativos aos ativos previstos no art. 15, § 2º da Lei 12.783/2013 passem a compor a Base de Remuneração Regulatória (BRR) das transmissoras e que o custo de capital seja adicionado às respectivas Receitas Anuais Permitidas (RAP). O pagamento da referida indenização da RBSE considera dois componentes: (i) Componente financeira: refere-se ao custo de capital dos ativos RBSE, que não foi pago às transmissoras entre 01.01.2013 e 30.06.2017, cujo pagamento se dará até o ciclo tarifário 2027-2028, conforme reperfilamento definido pela ANEEL na Revisão Tarifária Periódica de 2018; e (ii) Componente econômica: refere-se ao custo de capital dos ativos classificados como RBSE e ainda não depreciados na data-base da revisão tarifária. Essa parcela de receita é devida às transmissoras prorrogadas enquanto tais ativos não estiverem totalmente depreciados.

(II) A abertura do valor total da RAP Componente Financeiro - PRT MM 120/16 é apresentada na coluna "RAP do ciclo 2024/2025" da aba "Lista de Módulos" da planilha, ao filtrar "PRT 120/2016" na coluna "Ato da RAP" e "Componente Financeiro apurado referente ao período de Janeiro/2013 a Junho/2017, com prazo de pagamento de 8 anos, conforme consta no § 3º a § 4º, do Art. 1º, da PRT 120/2016. * Receita revisada no ciclo 2020-2021. * Receita revisada em 05-07-2024" na coluna "Descrição da Receita".

(III) A abertura do valor total da RAP Componente Econômico - PRT MM 120/16 é apresentada na coluna "RAP do ciclo 2024/2025" da aba "Lista de Módulos" da planilha, ao filtrar "PRT 120/2016" na coluna "Ato da RAP" e "Parcela de RAP calculada de acordo com a PRT 120/2016 e incluída a partir do ciclo 2017-2018. * Receita revisada em 05-07-2024" na coluna "Descrição da Receita".

4. **RAP Reforços e Melhorias** - Receitas atualmente recebidas em função de reforços e melhorias que entraram em operação comercial até o último reajuste anual da RAP em julho de 2024.

(IV) A abertura do valor total da RAP Reforços e Melhorias é apresentada na coluna "RAP do ciclo 2024/2025" da aba "Lista de Módulos" da planilha, ao filtrar "RBNI, RCDM e RMEL" no "tipo de receita" na coluna "Ato da RAP".

5. **(V) RAP total homologada para o ciclo 2024/2025** por meio da ReH 3.348/2024 associada aos contratos renovados associada aos empreendimentos em operação comercial no Reajuste Anual da RAP ciclo 2024/2025.

6. (VI) Adicional RAP associado às obras de reforços e melhorias autorizados que entraram em operação comercial do último reajuste até o 1T25. A relação dessas obras é apresentada ao filtrar a coluna "Trimestre" da aba "Lista de Módulos" da planilha.

7. **(VII) RAP Total associada aos contratos renovados** considera a incorporação das obras de reforços e melhorias autorizados de grande porte, com receita definida previamente pela ANEEL, que entraram em operação comercial até o 1T25.

(*) Inclui LTs de contratos sem RAP homologada

Observações

1. Os valores da RAP ciclo 2024/2025 estabelecidos por meio da Resolução Homologatória 3.348/2024 estão a preços de junho/2024.
2. RAP Leilão - valores associados aos empreendimentos objeto de leilão.

(I) A abertura do valor total da RAP Leilão é apresentada na coluna "RAP do ciclo 2024/2025" da aba "Dados RAP ReH 3.348/2024" da planilha, ao filtrar "RBL, RICG e RPEC" na coluna "Ato da RAP" e filtrar "situação ativa" na coluna "Situação da RAP".

3. **RAP Reforços e Melhorias** - Receitas atualmente recebidas em função de reforços e melhorias que entraram em operação comercial até o último reajuste anual da RAP em julho de 2024.

(II) A abertura do valor total da RAP Reforços e Melhorias é apresentada na coluna "RAP do ciclo 2024/2025" da aba "Dados RAP ReH 3.348/2024" da planilha, ao filtrar os contratos de concessão licitados e filtrar "RBNI, RCDM e RMEL" no "tipo de receita" na coluna "Ato da RAP" e a coluna de situação da RAP como "Ativa".

4. **(III) RAP total homologada para o ciclo 2024/2025** por meio da ReH 3.348/2024 associada aos contratos licitados associada aos empreendimentos em operação comercial no Reajuste Anual da RAP ciclo 2024/2025.
5. **(IV) Adicional RAP associado às obras de reforços e melhorias** autorizados que entraram em operação comercial do último reajuste até o 3T24. A relação dessas obras é apresentada ao filtrar a coluna "Trimestre" da aba "Dados RAP ReH 3.348/2024" da planilha.
7. **(V) RAP Total associada aos contratos licitados** considera a incorporação das obras de reforços e melhorias autorizados de grande porte, com receita definida previamente pela ANEEL, que entraram em operação comercial até o 4T24.
8. Estão consideradas as informações associadas aos contratos de concessão de SPE 100% Eletrobras cujos empreendimentos se encontram em operação comercial.

(1) O pedido de conexão como Geração Distribuída foi efetivado em 29/12/22 junto a Energisa e em abril ela aprovou o último protocolo. A execução da rede e instalação do religador foram realizados em março/23. A assinatura da CUSD pela Eletrobras e Energisa foi realizada em 26/03/2025. Após assinatura, a distribuidora tem até 120 dias para realizar a obra de conexão à sua rede (não permitem que seja executado pelo
(2) Considerado P90.
(3) Outorga emitida em 23/08/2022.
(4) Resolução Autorizativa N° 13.606 de 07/02/2023.
(5) Este percentual representa a evolução a partir do estágio remanescente (40% do projeto).
(6) Data de entrada em operação poderá ser ajustada em razão do Parecer de Acesso ONS e do andamento dos serviços de substituição dos insertos e posterior montagem dos aerogeradores.
(7) Concessão vinculada à concessão da UHE São Domingos (Contrato de Concessão Nº 092/2002 - ANEEL - AHE SÃO DOMINGOS). O Relatório Final do projeto de Engenharia de Ampliação da Motorização da UHE São Domingos foi protocolado em 18/02/2025. A confirmação da data prevista para entrada em operação comercial depende da anuência da ANEEL à ampliação; da retomada das atividades de comissionamento e,
(8) Orçamento previsto atualizado pelo IPCA de R$ 2.199,32 em dezembro/2021 para R$ 2.398,49 em Julho/2024

Obs: Chapada do Piauí I Holding S.A e Chapada do Piauí II Holding S.A. foram retiradas do reporte por terem sido alienadas em 30.06.2024

(1) Vamcruz I Participações S.A.

(2) A participação acionária de Holding em Serra do Facão Energia S.A. refere-se ao total de ações (54,01%), que concedem as ações ordinárias (41,0262%) também as ações preferenciais (100%).

(3) A Tijoá opera a UHE Três Irmãos em regime de Administração Especial (ver nº 12.783/2013).

(4) Complexo Eólico Fortim.

(5) A participação de Holding nas SPE se dá por meio da holding Brasil Ventos Energia S.A. (BVE), na qual a participação acionária de Holding é de 100%.

(6) Considerado Câmbio de 30/06/2025 de R$ 5,4571/ US$ (Bacen Ptax Venda)

(7) Participação societária em que as Empresas Eletrobras aumentaram a participação no 4T23.

(8) SAAG Investimentos S.A. foi extinta em 30/06/25, passando a Andrade Gutierrez a deter participação direta de 0,0162% e a Eletrobras a elevar sua participação direta de 99,67% para 99,736% em Madeira Energia.

(9) Consórcio UHE Baguari é composto pelas SPEs Baguari I Geração de Energia Elétrica S.A. (51%) e Baguari Energia S.A. (49%).

(1) Para empreendimentos de corrente contínua, foi alterada a premissa de contabilização da extensão de rede de forma a alinhar com as premissas adotadas pelo Ministério de Minas e Energia - MME. A contabilização do quilômetro de rede considera a extensão por polo e não mais por trecho como relatado nos trimestres anteriores.

(2) Não há RAP por se tratarem de instalações de interesse restrito das centrais geradoras

(3) A ANEEL, por meio do DESPACHO Nº 2.714, DE 27.09.2023, concedeu provimento parcial ao pleito da TER, para reconhecimento da entrada em operação comercial da LT 230 kV Palmeiras-Edéia e das suas funções de transmissão, com respectivo direito ao recebimento da receita, a partir de 17.02.2012.

Obs: As Sociedades de Chapada do Piauí I Holding S.A e Chapada do Piauí II Holding S.A. foram retiradas do reporte por terem sido alienadas em 30.06.2024

(1) Não há RAP porque instalações são de interesse restrito da central geradora.

(2) A subestação acessada não pertence à SPE.

(3) O empreendimento de Caldas Novas Transmissão é responsável pela operação e manutenção da SECorumbá.

(4) Foram consideradas RAP SE total pois as ampliações já foram concluídas.

(5) O empreendimento de TSP é responsável pela operação e manutenção da SE Itatiba não tem LT por isso, consideramos a RAP Total em SE.

(6) SAAG Investimentos S.A. foi extinta em 30/06/25, passando a Andrade Gutierrez a deter participação direta de 0,011623% e a Eletrobras a elevar sua particpação direta de 99,67% para 99,736% em Madeira Energia.

(7) Conforme ReA nº 9.997/2021, refere-se à instalação do 1º reator de barra 500 kV - (3+1) x 50 Mvar.

(8) SPE alienada em 30/05/2025 para Copel

Classificação: Confidencial

(1) O orçamento de custo direto aprovado pela Diretoria Executiva, conforme RDE 1687.005/23, de 03/01/2023, é de R$ 29.243,7 milhões, sendo R$ 10.654,1 milhões já realizados. Os custos indiretos adicionados ao empreendimento são aqueles legalmente permitidos, tais como: engenharia interna, administração, encargos financeiros capitalizados etc. A Lei 14.120, de 1º de março de 2021 - D.O.U. de 02.03.2021, estabeleceu que o preço de venda da energia a ser gerada pela Usina de Angra 3 será resultante do estudo realizado pelo BNDES, que deverá ser aprovado pelo CNPE, e deverá considerar, cumulativamente, a viabilidade econômico-financeira do empreendimento e seu financiamento em condições de mercado, observados os princípios da razoabilidade e da modicidade tarifária.

(2) Ainda não há licença de operação para Angra 3. Considera-se 40 anos a partir de ago/31 por analogia com Angra 1 e 2.

(3) A Portaria nº 1.118/SPE/MME, de 30 de dezembro de 2021, da Secretaria de Planejamento e Descomissionamento Energético do Ministério de Minas e Energia definiu a garantia física de energia da Usina de Angra 3 em 1.282,7 MW médios.

(4) Estimativa com base nos estudos mais atuais sobre o projeto Angra 3 elaborado pelo BNDES

(5) As Usinas da CNAAA não operam sob o regime de concessão. Elas estão operando sob o regime de autorização. Angra 3 tem licença para exploração inicial dada pelo Decreto nº 75.870 de 13/06/1975 e atual pela Portaria DNAEE nº 315 de 31/07/1997.

Obs: Os valores referem-se ao fechamento do mês de junho de 2025, ou seja, já antecipam valores de investimento realizado e execução física que estarão disponíveis no próximo relatório mensal de acompanhamento do Projeto de Angra 3.
