### Performance in the third quarter of 2025

We submit to your consideration the individual and consolidated accounting information of Banco ABC Brasil S.A. for the third quarter of 2025.

#### Banco ABC Brasil S.A.

Banco ABC Brasil S.A. ("Bank") is a commercial bank specialized in lending and providing services for middle and large companies. Nonetheless, it is one of the few Brazilian banks featuring international control and local autonomy.

The Bank is managed by a highly qualified team of senior executives, who are also shareholders of the Bank, holding vast experience in financial markets and having broad autonomy for decision taking, in addition to the capability to foresee and explore sectorial and cyclical opportunities in the Brazilian economy.

The Bank is present in Brazil since 1989, and from this date on has been building a solid Corporate Clients portfolio by offering wide high value-added financial products. Nevertheless, the Bank is recognized by its robust expertise on credit risk assessment and concession.

Banco ABC Brasil S.A. is listed in the Level 2 of Corporate Governance of São Paulo Stock Exchange (B3 S.A. - Brasil, Bolsa, Balcão).

#### Shareholding Structure

As of September 30, 2025 the shareholding structure of Banco ABC Brasil S.A. was the following: Bank ABC (through Marsau Uruguay Holdings): 62.6%; Free float: 31.0%; Management and Board members: 5.0%; and Treasury Stock: 1.5%.

#### Business Profitability

Banco ABC Brasil S.A. reported net income of R\$256.8 million in the third quarter of 2025, reaching a return on average equity of 15.5% p.a. in the third quarter of 2025.

#### Credit Portfolio

The credit portfolio (including loans and guarantees issued) totaled R\$34.0 billion as of the end of September, 2025. Regarding the credit portfolio quality, 95.8% of the loan transactions and 99.7% of the guarantees issued transactions were classified in Stages 1 and 2 at the end of September, 2025, in accordance with Brazilian Central Bank Resolution No. 4966/21. Considering both portfolios, 97.2% were classified in Stages 1 and 2 at the end of September, 2025. The provision balance of expected losses related to credit risk (including loans and guarantees issued) totaled R\$932 million (includes R\$190 million of Prospective Provision) as of the end of September, 2025.

#### CVM Resolution 80/2022

In compliance with CVM Resolution No. 80 of March 29, 2022, which provides for the need to disclose, by audited entities, information on service performance by the independent auditor, Banco ABC Brasil S.A., informs that independent audit services of the financial statements of the Bank and its controlled companies are provided by Ernst & Young Auditores Independentes S.S.

We declare that services have been provided, with a term of less than one year, related to (i) Limited Assurance on ESG reporting and (ii) Previously agreed procedure on operations guaranteed by the FGI PEAC program. We paid a total amount of R\$180 thousand related to such services, which is equivalent to 7.1% of the external audit fees related to the financial statements for the year ended December 31, 2024 of the Bank and its subsidiaries.

The policy adopted meets the principles that preserve Auditor's independence, in accordance with criteria internationally accepted. These principles are as follows: 1) the auditor must not audit his/her own work; 2) the auditor must not perform managerial activities in his/her customer; 3) the auditor must not promote his/her customer's interests.

#### Arbitration Clause

Banco ABC Brasil S.A. is subject to arbitration in the Market Arbitration Chamber, in accordance with the Arbitration Clause contained in its Articles of Association.

#### Risk Management

##### **1- Corporate Risk**

To the Bank, risk management is a process aimed at creating and preserving the institution's value, providing reasonable assurance that events that may affect the institution are identified and continuously managed according to its risk appetite. Therefore, to meet Resolutions CMN Nos. 4,557/17, 4,745/19, and 4,945/21, the Bank maintains specific structures to deal with risk management, capital management, and environmental and social responsibility, respectively. To meet the aforementioned resolutions and Resolution BCB 54/20 of the Brazilian Central Bank, the information related to the risk management process of Banco ABC Brasil is available in its website on internet, available through the following URL: [www.abcbrasil.com.br/en/](http://www.abcbrasil.com.br/en/) > Investor Relations > Investor Information > Risk and Capital Management > Risk Management Structure - Pillar 3.

Corporate Risk Management is the responsibility of all areas and employees. They must perform their activities and timely identify risks, failures, and deficiencies and inform areas better positioned to deal with them. Despite being a responsibility of all areas and employees, it is managed in a centralized manner by the Risk Management area, acting as a second line of defense.

The Bank's governance structure considers that the institution must be managed with a main focus on value creation for shareholders, without injuring the rights of interested parties and complying with the laws that regulate the markets, according to accepted and recommended ethical standards. Such structure is based on the regulations of B3 S.A. – Brasil, Bolsa, Balcão, the Brazilian Securities and Exchange Commission (CVM), and the Brazilian Central Bank, counting on bodies defined by the current regulation, such as the Board of Directors and its advisory bodies, the Audit Committee, the Remuneration Committee, the Risk Committee and the ESG Committee, and supported by internal committees, the Executive Committee, as well as other operating committees, such as the Credit Committee, the Financial Committee, and the Non-Financial Risks Committee.

The Board of Directors is responsible for defining the risk appetite of the institution, the approval of business strategies, and the maintenance of high governance standards. It should ensure the effectiveness of the risk management framework, providing independence and resources for its proper functioning. Accordingly, it is supported by the advisory bodies.

The Executive Committee is responsible for executing the definitions set by the Board of Directors and for managing the activities of the institution.

## 2- Operational Risk

The Bank acknowledges that Operational Risk is a specific risk category and should be managed as such. It should cover the institution as a whole, involving all its employees, including third-party service providers and considering its processes, activities, systems, products and physical structure. Operating risk management also includes legal risks.

Operational risk management is organized in three defense lines: 1) managers of several areas; 2) Risk Management area and Operational Risk and Compliance Committee and 3) Internal Audit.

Management is based on ongoing identification, assessment, monitoring, control and mitigation of risks through specific tools. The effectiveness of actions is reinforced by timely communication to management, involvement of people, and the efforts to spread a risk management culture. The Non-Financial Risk Committee (CORINF) is the internal body that discusses operational risk, business continuity management, compliance, information security and internal control matters.

## 3- Market and Liquidity Risks

The market and liquidity risks are managed through internal information and tools operated by the Risk Management area, which centralizes the control activities, monitoring the portfolio exposures, as well as current and future acceptable liquidity levels.

Treasury executes the decisions taken by the Financial Committee and manages proprietary positions within the limits determined. It also manages the funding as well the inflow and outflow gap. The Financial Committee formally discusses such exposures in its fortnightly meetings and designs a strategy for the subsequent period.

The Risk Management area provides daily information to the Management, Treasury, and members of the Financial Committee. It also prepares periodic specific reports to the Board of Directors and the Audit Committee. Furthermore, it has to disclose the Bank's risk appetite to the areas involved in the liquidity and market risk management and in the design of new products or activities.

## 4- Credit Risk

Credit risk management and credit lending covers the bank's activities of granting, administering, monitoring and managing the Bank's portfolio in terms of risk appetite, as well as provisioning management. Risk appetite management also includes not only individual outlooks for economic groups, clients, and operations, but also the aggregate view by risk factors in the portfolio, such as concentration by a sector, product, or region.

The approval of client relationships and of the concession of credit lines is the responsibility of the Credit Committee, up to the limits under Administrative jurisdiction. Beyond that limit, the Board Risk Committee has exclusive rights of approval.

The process of management is dynamic and shared, notably in the areas of Credit Risk Analysis, Administration, and Management, which are parts of the structure of the Vice-Presidency of Credit and Risk Management. This seeks to assure that risks are within defined limits and that the coverage of required collaterals are at required levels, with the expected quality and accessible to the Bank in case of default.

The Credit Risk Management area is also responsible for monitoring the credit portfolio. This includes portfolios quality monitoring and execution of stress tests, as well as the development and performance of models for attributing counterparty risk classification. The area also monitors exposures, ensuring that the portfolio complies with the regulator's regulations.

## 5- Social, Environmental and Climate Responsibility

The Social, Environmental and Climate Responsibility Policy ("PRSAC") approved by the Council in 4Q24 outlines the principles and guidelines of a social, environmental and climate nature that the Bank considers when conducting its business, activities, processes and relations with stakeholders, in compliance with CMN Resolution 4,945/21.

The ABC Brasil has an internally developed methodology for analyzing Socio-Environmental and Climate Risk, using research tools, and governance structure that provide the management of social, environmental and climate risks in an integrated way with credit, market, legal and reputational risk management. The Bank also applies, in accordance with internal eligibility criteria, questionnaires, and socio-environmental and climate due diligence to clients.

## 6- Capital Management

The Executive Committee conducts the capital management jointly with the Board of Directors, based on activities coordinated by the Finance area, which is also responsible for structuring the annual strategic plan and monitoring the budget. The Risk Management area is fully integrated into the process. In compliance with CMN Resolution Nos. 4,557/17 and 4,745/19, the information relating to capital management is available on the institution's website, available through the following URL: [www.abcbrasil.com.br/en/](http://www.abcbrasil.com.br/en/) > Investor Relations > Investor Information > Risk and Capital Management > Capital Management Structure.

## 7- Compliance Risk

Banco ABC Brasil S.A., carries out risk management using the methodology of three lines of defense, where each of the lines plays distinct and complementary roles and responsibilities and maintains a set of procedures, aligned with the best market practices, which guarantees compliance with legal and regulatory determinations and its internal policies.

Compliance risk is considered, the possibility of companies that are members of group ABC Brasil and/or its subsidiaries to suffer legal or administrative sanctions, financial losses, reputational damages or other damages resulting from non-compliance or failures in compliance with the legal framework, regulation or corporate principles and values.

In this context, it is worth noting the importance of the areas of business and support (1st Line of Defense), Compliance Agents, who are present in all areas of the Bank and play a central role in the conglomerate's risk management and control process, with the support of the institutional area of Regulatory Compliance (2nd Line of Defense), seeks to ensure compliance with the regulatory requirements of regulatory agencies.

The Compliance area is the unit responsible for managing the compliance risk of the ABC Brasil Group, pursuant to CMN Resolution No. 4,595/17. The Compliance culture is the responsibility of all, the administrators and employees of the Institution, who must know their responsibilities, complying with the legislation and regulations, and internal regulations applicable to their business and their duties. The form of action of the Compliance area includes preventive, detectable and corrective actions.

São Paulo, November 05, 2025.

The Management

## **Independent auditor's review report on quarterly information**

To the shareholders and  
Board of directors of Banco ABC Brasil S.A.  
São Paulo - SP

### **Introduction**

We have reviewed the accompanying individual and consolidated interim financial information of Banco ABC Brasil S.A. ("Bank") contained in the Quarterly Information Form (ITR) for the quarter ended September 30, 2025, which comprises the balance sheets as of September 30, 2025 and the related statements of income and comprehensive income for the three and nine month period then ended and of changes in shareholders' equity and of cash flows for the nine month period then ended, as well the explanatory notes, including the summary of the main accounting policies.

The Board of Directors' is responsible for the preparation of the individual and consolidated interim financial information in accordance with the accounting practices adopted in Brazil, applicable to institutions authorized to operate by the Central Bank of Brazil, as well as for the fair presentation of this information in conformity with the rules issued by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of the Quarterly Information Form (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

### **Scope of review**

We conducted our review in accordance with Brazilian and international standards on review of interim information (NBC TR 2410 and ISRE 2410 Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of people responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than that of an audit conducted in accordance with auditing standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the individual and consolidated interim financial information included in the quarterly information referred to above is not prepared, in all material respects, in accordance with the accounting practices adopted in Brazil applicable to institutions authorized to operate by the Central Bank of Brazil and to the preparation of Quarterly Information Form (ITR), and presented consistently with the rules issued by the Brazilian Securities and Exchange Commission (CVM).

### **Emphasis – Comparative Information**

We draw attention to Note 2 to the individual and consolidated interim financial information, which describes that the referred interim financial information were prepared in accordance with the accounting practices adopted in Brazil, applicable to institutions authorized to operate by the Central Bank of Brazil, considering the exemption from presenting comparative values for the previous periods in the financial statements for the periods of 2025, according to Resolution No. 4,966 of the National Monetary Council (CMN). Our conclusion does not contain a qualification related to this matter.

### **Other matters**

#### Statements of value added

The above-mentioned quarterly information includes the individual and consolidated statement of value added (SVA) for the nine month period ended September 30, 2025, prepared under the responsibility of the Bank's board of directors, and presented as supplementary information for the purposes of the accounting practices adopted in Brazil applicable to financial institutions authorized to operate by the Central Bank of Brazil. These statements have been subject to review procedures performed together with the review of the quarterly information with the objective to conclude whether they are reconciled to the interim financial information and the accounting records, as applicable, and if their format and content are in accordance with the criteria set forth by NBC TG 09 - Statement of Value Added. Based on our review, nothing has come to our attention that causes us to believe that they were not prepared, in all material respects, in accordance with the criteria set forth by this Brazilian Accounting Standard and consistently with the overall individual and consolidated interim financial information.

The accompanying notes are integral part of these financial statements.

1. Operations

The Bank is a publicly traded corporation and a subsidiary of the Bank ABC, based in Bahrain. In Brazil, the Bank is engaged in asset and liability operations inherent to multiple bank activities, being authorized to operate with commercial, foreign exchange, investment, credit and financing and housing financing portfolios.

The Bank's operations are conducted through branches in Brazil and abroad through an overseas branch located in Georgetown, Cayman Islands (Note 20).

The interim financial statements were approved by the Board of Directors on November 5, 2025.

2. Interim financial statements presentation, consolidation criteria and significant accounting practices

i) Interim interim financial statements presentation and consolidation criteria

The interim financial statements (individual and consolidated) were prepared and are presented in accordance with accounting practices adopted in Brazil, in light of accounting guidelines contained in Law No. 6,404/76 with amendments introduced by Law No. 11,638/07 and 11,941/09, and the standards and instructions of the Central Bank of Brazil (BACEN) and the Brazilian Securities and Exchange Commission (CVM). Comparative values for previous periods were not presented in these interim financial statements, considering the exemption from presentation provided for in Resolution No. 4,966 of the National Monetary Council (CMN) and in BCB Resolution No. 352 of the Central Bank of Brazil (BACEN).

The consolidated interim financial statements include the individual interim financial statements of Banco ABC Brasil S.A. and its subsidiaries:

On May 15, 2025, the company ABC Brasil Benefícios Corretora de Seguros Ltda. was incorporated. The company's corporate purpose is the intermediation, acquisition, administration and brokerage of property and personal insurance, pension, health, dental and capitalization bond plans.

The accounting practices adopted in recording transactions and assessing the Bank's equity elements, including transactions carried out by the overseas branch and controlled companies included in the consolidation, were uniformly applied, and investments, rights, obligations and results between the consolidated companies were duly eliminated.

According to the faculty provided in Art. No. 77 of CMN Resolution No. 4,966/2021, the consolidated interim financial statements are presented in addition to the consolidated interim financial statements prepared in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB), which are required by Resolution CMN No. 4,818/2020 and will be published later.

ii) Functional currency and presentation currency

The consolidated interim financial statements are presented in Brazilian Reals (R\$), which is the functional and presentation currency of the Banco ABC Brasil S.A. and its subsidiaries, defined in accordance with Resolution No. 4,524/16 and No 4.817/20 of the National Monetary Council.

iii) Foreign currencies translation

The assets and liabilities of foreign subsidiaries are translated at the exchange rate on the balance sheet date. The result is translated at the average monthly exchange rate (note 20).

iv) Political accounting materials

The Accounting Pronouncements Committee (CPC) issues accounting pronouncements and interpretations in line with international accounting standards and approved by the CVM and by Bacen, in its turn, the Brazilian Central Bank adopted the following pronouncements: CPC 00 (R1) - Conceptual Framework for Preparation and Disclosure of Financial and Accounting Report; CPC 01 (R1) - Reduction in the Recoverable Value of Assets; CPC 03 (r3) - Statement of Cash Flows; CPC 05 (R1) - Disclosure about Parties; CPC 24 - Provisions, Contingent Liabilities and Contingent Liabilities; CPC 33 (R1) - CPC 10 (R1) - Share-Based Payment; CPC 23 - Accounting Policies, Change of Estimate and Error Correction, CPC 24 - Subsequent Event, Employee Benefits, CPC 41- Earnings per share, CPC 46 - Measuring the fair value and CPC 47 Revenue from contract with client.

Additionally, Bacen issued CMN Resolutions No. 4,966/21, 5,019/22 and BCB No. 352/23, which deal with accounting concepts and criteria applicable to financial instruments, as well as the designation and recognition of protection relationships (hedge accounting), seeking the convergence of the COSIF accounting criteria with the requirements of the international standard IFRS 9. These standards came into force on January 1, 2025, and the impacts arising from their implementation are described in note 26.

The preparation and presentation of the interim financial statements (individual and consolidated) in accordance with accounting practices adopted in Brazil, applicable to institutions authorized to operate by the Central Bank of Brazil, require that management use assumptions and professional judgment in determining amounts and in recording of accounting estimates, such as the allowance for loan losses, realization deferred income tax, provision for contingencies and valuation of derivative instruments receivable and payable. Settlement of these transactions involving these estimates may result in amounts different from those estimated, due to the uncertainties related to the determination process.

Political accounting materials are summarized as follows:

a) Asset valuation criteria

Financial assets are classified into the following categories:

Amortized Cost: the asset is managed within a business model whose objective is to maintain financial assets in order to receive the respective contractual cash flows, consisting only of principal and interest payments.

Fair Value through Other Comprehensive Income: the financial asset is managed within a business model whose objective is to generate returns both through the receipt of contractual cash flows and through the sale of the financial asset with substantial transfer of risks and benefits, consisting only of payments of principal and interest, as for the sale.

Fair Value in Profit or Loss: used for financial assets that do not meet the criteria described above.

Fair value is the amount for which an asset could be sold, or a liability settled, between known, willing parties under competitive, normal market conditions at the valuation date.

The classification of financial assets depends on:

- Business models for managing financial assets; and
- The characteristics of their cash flows (Only Payment of Principal and Interest – SPPI Test).

Business Models: Bank ABC Brasil's Business Models represent the way in which financial assets are managed, considering: i) the risks that affect the performance of the business model; ii) how business managers are remunerated; iii) and how the performance of the business model is assessed and reported to Management.

SPPI Test: For accounting classification to occur, it is necessary to apply the SPPI Test to assess whether the contractual cash flows constitute only payment of principal and interest. To comply with this concept, the cash flows must include consideration for the time value of money and credit risk. If this concept is not complied with, the financial asset is classified at Fair Value through Profit or Loss.

Derivative financial instruments are adjusted to market value against the result for the period, as follows:

- Forward transactions are recorded at the final contracted value minus the difference between this value and the spot price of the asset or right, with this difference being recognized as revenue or expense based on the term of the contracts.
- Transactions with options are recorded at the value of the premiums paid or received until the effective exercise of the option, when it is then written off as a reduction, adjusted to the market value or increase in the cost of the asset or right, upon effective exercise, or as revenue or expense, in the case of non-exercise.
- Future transactions are recorded at the value of daily adjustments, appropriated as revenue or expense.
- Swap transactions are recorded based on the difference receivable or payable, which difference is recognized as revenue or expense.
- Exchange contracts for the purchase and sale of foreign currency with immediate and future settlement are recorded at fair value and the results on market to market adjustments are recognized on profit and losses.
- Transactions with other derivative financial instruments are recorded in accordance with the characteristics of the contract.

Bank ABC establishes a provision for expected losses associated with credit risk using the Complete Methodology, in accordance with the criteria of CMN Resolution No. 4,966 and BCB Resolution No. 352 for: i) financial assets; ii) financial guarantees provided; iii) credit commitments and credits to be released.

The Bank reviews its financial assets at each balance sheet date to assess whether impairment losses should be recorded in the statement of income. Management's judgment is required in estimating the amount and timing of future cash flows in determining impairment losses. In estimating these cash flows, the Bank makes judgments regarding the financial condition of the customer and the net realizable value of the collateral.

The Bank applies a three-stage approach to measuring expected credit loss, in which financial assets move from one stage to another according to changes in credit risk.

Stage 1: Refers to financial instruments without a significant increase in credit risk compared to the date of credit origination. For these cases, the probability of default considered in the estimated loss model is calculated for the next 12 months only.

Stage 2: Refers to financial instruments with a significant increase in credit risk, but which have not yet entered credit recovery (no default). For these cases, the probability of default considered in the model is estimated for the entire contractual term of the financial instrument ("lifetime").

Stage 3: Refers to financial instruments in credit recovery (in default). For these cases, the credits are already in default.

Investments in controlled companies are measured using the equity method and other investments are stated at acquisition cost less, when applicable, a provision for permanent losses.

Assets and rights classified as fixed assets are stated at acquisition cost minus, when applicable, the balances of the respective depreciation account, calculated using the straight-line method, based on rates that take into account the useful economic life of the assets.

Intangible assets are recorded at cost, less amortization using the straight-line method over their estimated useful life, from the date they are available for use.

b) Cash and cash equivalents

Cash and cash equivalents, as established in Resolution CMN No. 4.818/20 e CPC 03 include cash, bank deposits, short-term highly liquid investments, with insignificant risks of changes in value, with maturity less or equal than 90 days.

c) Liability valuation criteria

Known or calculable obligations, charges and risks, including tax charges calculated on the basis of the results of the period, are shown at the updated value up to the balance sheet date.

Cash deposit transactions are not remunerated by the Bank. Transactions in interbank deposits, term deposits, open market borrowings and funds from acceptances and issuance of securities are traded at normal market rates.

Obligations for loans abroad include funds raised for investment in foreign exchange transactions related to export and import financing, in addition to investments in onlending and financing in foreign currency. Such obligations are subject to exchange rate fluctuations and international market interest rates and are adjusted for exchange rate fluctuations and charges, calculated up to the balance sheet date.

Derivative financial instruments are adjusted to market value against the result for the period.

The country's transfer obligations are represented by special funds and programs administered by official institutions, which are transferred to the final borrowers and are updated by official indexes and charges, calculated up to the balance sheet date.

Foreign transfers obligations are represented by funds obtained by the Bank from multilateral agencies (IDB - Inter-American Development Bank, PROPARCO – Societe de Promotion et de de Participation pour la Cooperation Economique SA and IFC – International Finance Corporation and) which are passed on to final borrowers and are updated by exchange variation and charges calculated up to the balance sheet date.

## d) Hedge Accounting

Considering the risk of foreign exchange exposure as well as market conditions of capture abroad through foreign transfers bonds, the Bank has selected some derivative financial instruments to total hedge (fair value hedge) the principal amounts of loans taken out and related interest due. In order to equalize the effects of mark to market of the derivative financial instruments selected for hedge purposes to market, the principal hedged amount, plus, interest due, is stated at fair value and also mark to market.

The variation in the fair value of hedge derivatives is recognized in the income statement. However, the variation in the fair value of the hedged item attributed to the hedged risk is accounted for as part of its book value, also recognized in the statement of income for the year. When a hedge instrument matures or is sold, cancelled or exercised, or when it does not meet hedge accounting requirements, the hedge strategy ends.

The objectives applicable of this operations and the hedging strategy for such risks during the entire operation are duly documented, together with the assessment, both at the beginning of the hedge transaction and on an ongoing basis, confirming that derivative financial instruments of the hedging operations are highly effective in the offset of variations in the fair value (mark to market) of the hedged item. A hedge instrument is considered highly effective when the variation in the fair value or cash flow of the coverage risk during the hedging period reduces 80% to 125% of the risk variation.

The fair value of the derivative financial instruments used as hedge, as well as the market value of the loan subject to hedge, are disclosed in Notes 5.b and 11.b respectively.

## e) Recognition of revenues and expenses

Revenues and expenses are recognized in the income statement on an accrual basis, using the effective interest method, including income, charges, monetary or exchange rate variations at official rates, incident on current and long-term assets and liabilities. It also includes the effects of adjustments of assets to market or realizable value.

Unreceived income from assets characterized as financial assets with credit recovery problems (problem assets) is recognized upon receipt.

## f) Credit operations assigned

Credit assignments with substantial retention of risks and benefits now have their results recognized for the remaining term of the transactions. The financial assets subject to the assignment remain recorded as credit transactions and the amount received as obligations for sales or transfer transactions of financial assets.

## g) Financial assets with credit recovery problems

The financial asset is characterized as a "Problematic Asset" when there is a delay of more than 90 (ninety) days in the payment of principal and charges; or if there is any indication that the respective obligation will not be fully honored under the agreed conditions, without the need to resort to guarantees or collateral.

A transaction is considered restructured whenever a renegotiation occurs that implies the granting of advantages to the counterparty, either as a result of the deterioration of its credit quality or the credit quality of the intervening party or the mitigating instrument.

## h) Income and Social Contribution Taxes

The recognition, measurement and disclosure of contingent assets and liabilities are carried out in accordance with the criteria described below:

- Active contingencies - are not recognized in the interim financial statements, except when there is evidence that provides a guarantee of their realization; for which no further appeals are possible; and

- Contingent liabilities - are recognized in the interim financial statements when, based on the opinion of legal advisors and management, the risk of loss in a legal or administrative action is considered probable, with a probable outflow of resources for the settlement of obligations and when the amounts involved are measurable with sufficient certainty. Contingent liabilities classified as possible losses by legal advisors are only disclosed in explanatory notes, while those classified as remote losses do not require provision or disclosure.

## i) Reduction to the recoverable value of non-financial assets - (Impairment)

An impairment loss is recognized if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognized in profit or loss for the period.

## j) Income Tax and Social Contribution

Provisions for income tax and social contribution, when due, are established based on accounting profit, adjusted for additions and exclusions provided for in tax legislation. Deferred income tax and social contribution are calculated on the value of temporary differences, whenever the realization of these amounts is deemed probable.

**3. Current and non-current segregation**

Classification of current and noncurrent / long-term assets and liabilities

The assets and liabilities realizable up to twelve months after the balance sheet, for the purposes of disclosure in this explanatory note, are classified in current and those whose maturity or actual settlement occurs in the twelve months after the balance sheet date are classified in non-current. The deferred tax credits and tax liabilities are classified in their entirety in non-current regardless of the realization period.

The segregation of the balance sheet between current and non-current is demonstrated in below, in accordance with Resolution CMN 4,818/20 and Bacen Resolutions No 2/20.

i) Estimates of future realization of deferred tax credits and obligations, presented in the balance sheet as non-current ,were determined in accordance with note 18 and are shown below:

|                      | Bank            |                |           | Consolidated    |                |           |
|----------------------|-----------------|----------------|-----------|-----------------|----------------|-----------|
|                      | 09/30/2025      |                |           | 09/30/2025      |                |           |
|                      | Up to<br>1 year | Over<br>1 year | Total     | Up to<br>1 year | Over<br>1 year | Total     |
| Deferred tax assets  | 1,880,931       | 365,637        | 2,246,568 | 1,903,039       | 365,637        | 2,268,676 |
| Deferred tax credits | 1,224,857       | -              | 1,224,857 | 1,380,102       | -              | 1,380,102 |

ii) Treasury financial bills LFT, classified as fair value in other comprehensive income, are shown in the balance sheet by the maturity date of the paper even though they have high liquidity and amount to R\$554,410 in the Bank and R\$607,082 in the Consolidated on September 30, 2025.

iii) Government securities classified as amortized cost, with maturity of more than one year, are subject to conversion into cash through repurchase agreements and amount to R\$2,486,525 classified in the long term, in the Bank and in the Consolidated on September 30, 2025.

The segregation between current and non-current, of Bank and Consolidated, for the period ended September 30, 2025, is shown below:

|                                                                          | Bank              |                   |                   |

The composition of the portfolio as of September 30, 2025, considering the hierarchical levels of fair value measurement, is shown as follows:

|                                                  | Bank      |           |         |           |
|--------------------------------------------------|-----------|-----------|---------|-----------|
|                                                  | Level 1   | Level 2   | Level 3 | Total     |
| <b>September 2025</b>                            | 956,510   | 164,688   | -       | 1,121,198 |
| At fair value through other comprehensive income | 4,469,312 | 2,859,187 | 964,398 | 8,292,897 |
| At fair value through profit or loss             | 5,425,822 | 3,023,875 | 964,398 | 9,414,095 |
| <b>Total</b>                                     |           |           |         |           |

|                                                  | Consolidated |           |         |           |
|--------------------------------------------------|--------------|-----------|---------|-----------|
|                                                  | Level 1      | Level 2   | Level 3 | Total     |
| <b>September 2025</b>                            | 1,009,181    | 164,689   | -       | 1,173,870 |
| At fair value through other comprehensive income | 4,486,728    | 2,728,818 | 964,398 | 8,179,944 |
| At fair value through profit or loss             | 5,495,909    | 2,893,507 | 964,398 | 9,353,814 |
| <b>Total</b>                                     |              |           |         |           |

Level 1 fair value measurements are obtained from quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2 fair value measurements are obtained using variables other than quoted prices included in Level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. based on prices).

Level 3 fair value measurements are obtained through valuation techniques that include inputs for the assets or liabilities that are not based on observable market variables (unobservable inputs).

## b) Derivative financial instruments

The Bank carries out operations with derivative financial instruments mainly aimed at hedging against market price variations and diluting currency and interest rate risks of its assets and liabilities and cash flows contracted for compatible terms, rates and amounts.

Derivatives are used as a risk transfer tool to hedge positions in the non-trading book (Banking Book) and trading book (Trading Book). Additionally, highly liquid exchange-traded derivatives are used, within narrow and periodically reviewed limits, to manage exposures in the trading book.

The determination of the market values of such derivative financial instruments is based on the quotations published by specialized exchanges, and in some cases, when there is no liquidity or even quotations, estimates of present values and other pricing techniques are used.

The bases adopted to determine market prices are as follows:

Futures: stock exchange quotations;

Options: determined based on the criteria set forth in the contracts, calculated according to known models used by the market, mainly Black&Scholes;

Swaps: cash flows for each contract are discounted to present value, in accordance with the respective interest rate curves, obtained based on B3 S.A. - Brasil, Bolsa, Balcão prices adjusted to the credit risk of the counterparties; and

Forward: the future value of the transaction discounted to present value as rates obtained at B3 S.A. - Brasil, Bolsa, Balcão grants or reference stock exchange market adjusted to the credit risk of the counterparties.

Exchange Contracts: the future value of the transaction discounted to present value, according to rates obtained from B3 S.A. - Brasil, Bolsa, Balcão or reference exchanges, adjusted for the credit risk of the counterparties.

The differential values and adjustments of the derivative financial instruments, assets and liabilities, are recorded in balance sheet accounts, with the corresponding income statement accounts as a counterpart. They are adjusted to their market value and their reference values are recorded in offsetting accounts, as shown below:

|                             | Bank           |                                     |                                  |                                    |             |

Risk sensitivity analysis in financial instrument operations

In accordance with CVM Rule No. 02/20, the Bank discloses a sensitivity analysis to all types of market risk stemming from financial instruments considered significant by management. The table below sets out the most probable scenario in management's assessment and two additional scenarios. The probable scenario considers contractual prices and, where applicable, indicators from various external sources or pricing models adopted to calculate the fair value of financial instruments at the balance sheet date. Scenario II considers a 25% deterioration in risk variables in view of the nature of financial instrument risk. Scenario III considers a 50% deterioration in the same variables.

|                                                                  | Exposure          |                |                |
|------------------------------------------------------------------|-------------------|----------------|----------------|
|                                                                  | Probable Scenario | Scenario II    | Scenario III   |
| <b>i) Interest rate</b>                                          |                   |                |                |
| Net exposure to fixed interest rates (RWA <sub>Jur1</sub> )      | 34,537            | 46,791         | 59,045         |

## i) Interest rates:

According to criteria established by the Central Bank of Brazil through Resolution CMN No. 4,745/19 and BCB Normative Instruction No. 247 financial instruments classified under trading books represent exposure that would have an impact on the organization's income by mark to market or when realized or settled. Financial instruments indexed to interest rates pose potential risk from market fluctuations. These risks are managed through a methodology set out by the Central Bank of Brazil and the result of this analysis is considered when determining the minimum regulatory capital required of financial institutions.

In order to comply with the provisions of CVM Resolution No. 02/20, regarding sensitivity analysis, the portion of the minimum capital required to cover the risk of exposure to interest rates on September 30, 2025 was taken as a basis and the scenario analysis determined in said instruction was carried out.

## ii) Foreign exchange rate:

The net exposure of exchange rates is regulated by the Central Bank of Brazil through CMN Resolution No. 4,958/21, CMN Resolution No. 4,956/21 and Circular No. 3,641/13. Such regulations determine 30% of the reference equity as the maximum limit for such exposures.

The exposure calculation criteria determined by the Central Bank of Brazil were considered and, in compliance with the requirements of CVM Resolution No. 02/20, a scenario analysis was carried out based on the net exposure existing on September 30, 2025.

## (iii) Non-Trading Portfolio (Banking Book):

These refer to operations that are not classified in the trading book, resulting from Bank business lines and their possible hedge instruments. Measurement and valuation of interest rate risk of banking book operations are regulated by the Central Bank of Brazil through BCB Resolution No. 48/20 that sets criteria and assumptions to gauge the degree of risk including stress tests whose results could indicate how much regulatory capital is required to cover such risks.

The results of the procedures, which are not related to the accounting practices for recording and valuing operations related to this portfolio, are reported to the Central Bank and on September 30, 2025, demonstrated an exposure of R\$153,508, which considers the interest rate risk of the aforementioned non-trading portfolio in alternative scenarios specific to the methodology determined by the regulatory body.

In order to carry out a risk sensitivity analysis, foreign exchange mismatch risk in the banking book is considered in the foreign exchange rate position as set out in item II.

**6. Financial Instruments associated with Credit Risk**

The balances of credit operations and financial guarantees provided are shown as follows:

|                                                                 | Bank              |                  |                  |                   | Consolidated      |                  |                  |                   |

In the period ended September 30, 2025, at the Bank and in the Consolidated, assignments were made with substantial transfer of risks and benefits, in the amount of R\$33,541. The effect of these operations on the result for the period, net of any provision results, was positive by R\$676. The operations transferred with the substantial transfer of risks and rewards are fully derecognized from the balance sheet on the date of the transfer.

The concentrations of credit risks are demonstrated as follows:

(d) Guarantee fee R\$98.

b) Fees of key members of management

In compliance with Resolution CMN No. 3,921/10 and Resolution CMN No. 4,656/18, Banco ABC Brasil has implemented a Management Remuneration Policy applicable to the members of the Board of Directors, to the Executive Committee and to the Officers with no specific title (employees).

In brief, the policy has as main objectives: (i) complying with the regulations of the National Monetary Council and the Central Bank of Brazil (BACEN), which establish special rules for financial institutions such as Banco ABC; (ii) fixing the remuneration of those considered Managers of Banco ABC in compliance with the regulations referred to in item (i) above and, in particular, of those assuming this position according to the Bank's governance; (iii) aligning the remuneration of the Managers of Banco ABC with the Bank's risk management policy; (iv) avoiding behaviors that would raise risk exposure above the levels considered prudent in the short, medium and long-term strategies adopted by Banco ABC; and (v) creating a tool for attracting and retaining talents in key positions at Banco ABC.

The remuneration defined in the policy takes into account: (i) current and potential risks faced by Banco ABC; (ii) the overall results of Banco ABC, in particular recurring income (net book profit for the period adjusted for unrealized income and ignoring the effects of non-recurring events which are within the control of Banco ABC); (iii) Banco ABC's capacity for generating cash flow; (iv) the economic environment in which Banco ABC operates, and its trends; (v) long-term sustainable financial bases and adjustments to future payments as a result of the risks assumed, changes in the cost of capital and liquidity forecasts; (vi) the individual performance of the Managers based on the target agreement celebrated by each Officer, as provided for in the profit sharing agreement filed at the headperiods of Banco ABC; (vii) the performance of the business unit; and (viii) the relationship between the individual performance of the Managers, the performance of the business unit, the performance of Banco ABC as a whole and the risks assumed.

The Variable Remuneration will be calculated:

**I - To the Directors without specific designation:**

a) up to 50% of the amount determined as a result of profit-sharing participation, calculated in accordance with the negotiation established under the terms of Law No. 10,101/2000, paid in cash immediately upon payment of the profit sharing.

b) at least 50% of the amount determined as a result of the profit sharing participation of Banco ABC, calculated according to the negotiation established under the terms of Law No. 10,101/2000, may be paid in preferred shares of Banco ABC, instruments based on shares or other assets. The payment is deferred in proportion to the three-year deferral period.

**II - To the members of the Executive Committee:**

100% of the amount determined for the variable compensation will be paid in shares, share-based instruments or other assets. The payment takes place in two ways:

(i) 60% of the variable compensation paid in shares, share-based instruments or other assets, will be paid on a deferred basis for a period of six months, being settled after the referred period; and

(ii) 40% of the variable compensation paid in shares, share-based instruments or other assets will be paid on a deferred basis, in proportion to the three-year deferral period.

The delivery of shares relating to deferred variable remuneration allocated to managers shall only take place if, in the applicable period of deferment there is no (i) significant reduction in recurring profit realized, or (ii) losses posted by the institution or business unit, or (iii) evidence of errors in accounting and / or management practices that affect the income calculated in the variable remuneration rights acquisition period.

The total remuneration of key management personnel for the quarter and accumulated ended on September 30, 2025 is as follows:

|                                  | <b>3 Quarter<br/>2025</b> | <b>Accumulated<br/>2025</b> |
|----------------------------------|---------------------------|-----------------------------|
| Fixed remuneration               | 11,182                    | 34,653                      |
| Variable remuneration            | 3,914                     | 11,715                      |
| <b>Total short-term benefits</b> | <b>15,096</b>             | <b>46,368</b>               |
| Share-based compensation         | 27,677                    | 70,090                      |
| <b>Total long-term benefits</b>  | <b>27,677</b>             | <b>70,090</b>               |
| <b>Total</b>                     | <b>42,773</b>             | <b>116,458</b>              |

c) Summary of changes in the compensation plan:

To meet the resolution of compensation plan of the Bank was authorized by CVM to privately transfer shares of its own shares held in treasury for its executives.

In the accumulated period ended September 30, 2025, shares were granted to eligible executives, for settlement at the end of the grace period, as follows, shown in number of shares:

|                                              | <b>09/30/2025</b> |
|----------------------------------------------|-------------------|
| <b>Quantily at the beginning the quarter</b> | <b>3,379,244</b>  |
| Shares granted                               | 1,898,655         |
| Shares delivered                             | (1,812,554)       |
| <b>Quantily at end of the quarter</b>        | <b>3,465,345</b>  |

**20. Overseas branch**

The transactions with third parties carried out by the overseas branch as of September 30, 2025 are shown as follows:

|                                                 | <b>09/30/2025</b> |
|-------------------------------------------------|-------------------|
| <b>Assets</b>                                   |                   |
| Cash                                            | 600,576           |
| Securities and derivative financial instruments | 555,109           |
| Credit operations - Net                         | 3,065,919         |
| Other assets                                    | 377,023           |
| <b>Total</b>                                    | <b>4,598,627</b>  |
| <b>Liabilities</b>                              |                   |
| Term deposits                                   | 914,107           |

| Derivative financial instruments                | 300,065           |
| Other liabilities                               | 3,686             |
| <b>Total</b>                                    | <b>5,238,697</b>  |

The balances of assets, liabilities and results are converted according to Note 2) iii,

The period ended on September 30, 2025, the effects of exchange rate variations resulting from the conversion of foreign currency transactions of assets and liabilities were recognized in the income statement for the year in the amount of R\$71,660 positive, in accordance with Resolution No. 4.817/20 of the National Monetary Council.

**21. Profit sharing**

An provision for profit sharing was established based on the Variable Compensation Program set up by Banco ABC Brasil S.A. and its employees, which takes into consideration activities developed by the Bank in various areas, the degree of responsibility, the degree of influence on earnings, as well as qualitative and quantitative targets set with individual Bank employees.

In the quarter ended September 30, 2025, the amount of profit sharing is R\$ 70,817 in Bank and R\$ 74,978 in Consolidated. In the accumulated period ended on September 30, 2025 R\$173,140 in Bank and R\$186,834 in Consolidated.

**22. Contingent assets and liabilities**

The Bank is a party to legal actions and administrative proceedings of a tax, labor and civil nature. Note 2.IV.h explains the criteria for recognizing and measuring such actions and proceedings.

a) Fiscal contingents

The bank is responsible for actions and processes (potential contingent liabilities) whose losses are being considered with possible prognoses by our external lawyers in the amount of R\$ 764,230 in Bank and R\$ 765,142 in Consolidated and have not been provisioned, see below the main lawsuits whose probability of unfavorable outcome was assessed as possible.

Social security charges ("INSS")

The Bank is currently a defendant in a lawsuit related to payment of pension charges, mainly on profit sharing related to 2006 to 2014, 2016 to 2019 exercises, amounting to R\$ 452,148 on September 30, 2025.

IRPJ/CSLL – Thin capitalization – Completing the ECF

This is a notice of violation issued to collect amounts related to IRPJ, CSLL and fines for the years 2019 and 2020. The Brazilian Federal Revenue Service did not agree with the way in which the amounts of expenses related to interest paid to an agency located abroad were declared in the Fiscal Accounting Records - ECF, as it understood that they should be included in a separate field/record of the ECF. For this reason, the Tax Authorities disregarded the deduction of these expenses from the tax and contribution calculation basis. We filed a defense and await a decision. The amount of the demand amounts to R\$ 176,064 on September 30, 2025.

IRPJ - Deductibility of PLR management

This is an IRPJ charge resulting from the deductibility of PLR paid to directors in the fiscal years 2013, 2014, 2016, 2017 and 2019. The amount of the requirement amounts to R\$99,673 on September 30, 2025.

IPTU – Fiduciary alienation

The Municipality of São Paulo is collecting IPTU (four tax executions were filed, three of which related to transactions carried out during periods in which the Bank acted as a fiduciary creditor). The Bank presented its defenses, after which favorable decisions were issued to extinguish two tax executions. As for the others, a decision is awaited. The estimated value of the contingency is R\$12,978.

IRPJ/CSLL - Deduction of the result of the 2010 period of losses in credit operations

This is a collection of IRPJ and CSLL related to the deduction of losses in credit operations from the 2010 result. The Bank considered the losses as effective, however, the understanding of the Federal Revenue is that there was an advance of the deduction deadlines provided for in Law No. 9,430/96. The appeal is awaiting judgment. The amount of the demand amounts to R\$ 7,395.

Unapproved compensation - CSLL

Offset related to the negative CSLL balance for the 2018 calendar year. The decision recognized part of the credit and demanded part of the debts that were intended to be offset plus fines and interest. A defense was filed in the administrative process. The amount of the demand amounts to R\$5,146 on September 30, 2025.

Exclusion of ISS from the PIS/COFINS Calculation Base

Legal action filed to exclude ISS from the PIS/COFINS calculation basis, as well as to refund the amount unduly collected under this heading over the last 5 years. Bank obtained favorable decisions in the first and second instances, which is why, based on these decisions, Bank has been excluding the ISS amount from the PIS/COFINS calculation basis. Although this case is classified as an active contingency, if the decision authorizing the exclusion of ISS from the PIS/COFINS calculation basis is reversed, it will be necessary to collect the excluded amount plus interest. The estimated value of the contingency is R\$ 5,007.

ITR – on declared value

This is an ITR charge on excess area of rural property. The Federal Revenue Service is questioning formal aspects of the ITR Declaration, Bank has filed an objection and is awaiting judgment. The estimated value of the contingency is R\$2,414.

IOF – IOF Credit in credit assignment operations

This is a charge of IOF Credit on credit assignment transactions with co-obligation carried out in 2015, due to the lack of collection of IOF in these transactions, which are characterized by the tax authorities as "discount of securities" and subject to IOF/Credit. The appeal is awaiting judgment in the administrative sphere. The amount of the demand amounts to R\$ 1,516.

b) Labor contingencies

On September 30, 2025, ongoing labor lawsuits classified by our legal advisors as probable losses totaled R\$9,035- Note 22.d. Labor lawsuits classified as possible losses totaled R\$64,042 and were not provisioned.

c) Civil contingencies

As of September 30, 2025, ongoing civil lawsuits classified by our legal advisors as probable losses totaled R\$3,678 - Note 22.d. Civil lawsuits classified as possible losses totaled R\$12,748 and were not provisioned.

d) Movement of provisions constituted:

|                                  | Bank and Consolidated |              |              |               |
|----------------------------------|-----------------------|--------------|--------------|---------------|
|                                  | Tax                   | Labor (b)    | Civil (a)    | Total         |
| At the beginning of the quarter  | 1,497                 | 10,766       | 4,151        | 16,414        |
| Constitution / (Reversal)        | (165)                 | (1,731)      | (473)        | (2,369)       |
| <b>At the end of the quarter</b> | <b>1,332</b>          | <b>9,035</b> | <b>3,678</b> | <b>14,045</b> |

(a) See note 22.c.

(b) See note 22.b

**23. Equity****a) Capital social**

As of September 30, 2025, the share capital is represented by 244,656,857 registered book-entry shares with no par value, of which 122,961,704 are common shares and 121,695,153 are preferred shares.

**b) Dividends and interest on equity**

As provided for in the Bank's articles of association, shareholders are entitled to a minimum dividend of 25% of annual net profit adjusted in accordance with the law. Such dividend may alternatively be distributed in the form of interest on equity.

During the period ended September 30, 2025, the amounts shown in the table below were paid/provisioned as interest on equity, calculated in accordance with the provisions of Law No. 9,249/95.

|                    | Interest on equity | Reduction in expenses with income and social contributions taxes |
|--------------------|--------------------|------------------------------------------------------------------|
| <b>Period 2025</b> |                    |                                                                  |
| 03/31/2025         | 125,338            | 56,402                                                           |
| 06/30/2025         | 136,023            | 61,210                                                           |
| 09/30/2025         | 140,981            | 63,442                                                           |
| <b>Total</b>       | <b>402,342</b>     | <b>181,054</b>                                                   |

Interest on equity is calculated on equity accounts and limited to the variation in the long-term interest rate - TJLP, subject to the existence of profits computed before their deduction or accumulated profits and profit reserves, in an amount equal to or greater than twice their value, respecting the limits imposed by CMN Resolution No. 4,885/20.

In accordance with the market announcement released on March 28, 2023, the distribution of interest on equity will now be carried out on a half-yearly basis, subject to resolutions by the Board of Directors in June and December. The current policy for the distribution of dividends, with annual volumes based on the maximum limits of interest on equity, in accordance with current legislation, and including the minimum dividend for the calendar year, remains unchanged.

On June 24, 2025, the Board of Directors of Banco ABC Brasil approved the management's proposal for the distribution of interest on equity in the total gross amount of R\$ 261,361, representing a gross amount of R\$1,0860 per common share and preferred share. The amount distributed was paid on July 10, 2025.

**c) Destination of earnings****i) Income reserve - Dividend equalization**

At the Annual and Special Shareholders' Meetings held on April 30, 2008, the shareholders approved the creation of the account Income Reserve for Dividend Equalization, to which the retained earnings account balance is allocated, limited to 80% of capital, the latter of which is set up to maintain the shareholder payment flow.

**ii) Income reserve - Repurchase of shares**

The reserve for repurchase of shares is set up to support the possible opening, after approval by the Board of Directors, of the program for repurchase of the Institution's shares, should market conditions indicate such possibility.

**iii) Income reserve - Legal reserve**

The creation of the mandatory legal reserve of 5% on the net profit recorded on September 30, 2025, amounts to R\$23,484.

**d) Treasury shares**

During the year ended September 30, 2025, based on authorization from the Board of Directors for the acquisition of shares issued by the Company to be held in treasury, 1,140,000 preferred shares were repurchased.

On September 30, 2025, the total value of shares repurchased in treasury is R\$67,480, equivalent to 3,688,406 preferred shares. The average cost per share repurchased in treasury on September 30, 2025 is R\$18,30.

Movements of treasury shares:

|                                  | 09/30/2025       |
|----------------------------------|------------------|
| At the beginning of the quarter  | 4,360,960        |
| Shares acquired                  | 1,140,000        |
| Shares delivered                 | (1,812,554)      |
| <b>At the end of the quarter</b> | <b>3,688,406</b> |

On March 26, 2024, the Board of Directors unanimously decided to approve a new Repurchase Program for Shares issued by the Company, for the purposes of remaining in treasury and subsequent disposal or cancellation, without reduction of the share capital.

The maximum period for conducting authorized operations will be 18 months from this date, having as final end on September 26, 2025, up to the limit of 7,200,000 preferred shares.

**e) Earnings per share**

The basic and diluted earnings per share are calculated in accordance with CPC 41 – Earnings per share, and are shown as follows:

**i) Basic earnings per share:**

The quarter and accumulated ended on September 30, 2025, basic earnings per share are calculated by dividing the profit attributable to the company's shareholders by the weighted average number of shares outstanding during, excluding shares purchased by the company and held as treasury shares.

|                                            | 3 Quarter<br>2025 | Accumulated<br>2025 |
|--------------------------------------------|-------------------|---------------------|
| Net profit attributable to the Parent      | 256,811           | 726,477             |
| Weighted average daily shares outstanding  | 232,754,696       | 232,754,696         |
| Basic earnings per share (Brazilian reais) | 1.10              | 3.12                |

ii) Diluted earnings per share

The diluted earnings per share is computed similar to basic earnings per share, but with the adjustment made by assuming the conversion of potentially dilutive shares in the denominator.

|                                            | 3 Quarter<br>2025 | Accumulated<br>2025 |
|--------------------------------------------|-------------------|---------------------|
| Net profit attributable to the Parent      | 256,811           | 726,477             |
| Weighted average daily shares outstanding  | 236,957,965       | 236,957,965         |
| Basic earnings per share (Brazilian reais) | 1.08              | 3.07                |

f) Adjustments resulting from the implementation of CMN Resolution 4,966/21 and BCB Resolution 352/23.

The adjustments resulting from the implementation of these regulations are described in detail in note 26.

## 24. Operational limits - The Basel Accord

The Central Bank of Brazil, through CMN Resolution No. 4,955/21, instituted the calculation of reference equity on a consolidated basis for the financial conglomerate and, through CMN Resolution No. 4,958/21, instituted the calculation of the minimum reference equity required for risk-weighted assets (RWA), both with effect from January 2022. The Basel index for September 30, 2025 calculated based on the prudential conglomerate is 16,71%. The table below shows the calculation of the minimum reference equity required for risk-weighted assets (RWA).

|                                                                                                                                   | 09/30/2025       |
|-----------------------------------------------------------------------------------------------------------------------------------|------------------|
| Credit risk                                                                                                                       | 3,753,309        |
| Interest Rate                                                                                                                     | 179,465          |
| Commodities                                                                                                                       | 49,575           |

## 25. Other information

a) Clearing and settlement agreement for obligations

The Bank has an agreement for the settlement and settlement of obligations within the scope of the National Financial System, in accordance with CMN Resolution No. 3,263/05, resulting in greater guarantee of settlement of its assets for institutions with financial institutions with which they had this type of agreement. The Bank mitigated the amount of R\$1,656,621 by the clearing agreement in the period ended September 30, 2025

b) Exchange rate variations

Related to the result of exchange rate variation from credit and loan operations, assignment and transfer operations.

## 26. Implementation of resolution 4966/21, BCB 352

On November 25, 2021, the National Monetary Council published Resolution No. 4,966/21, effective January 1, 2025, with the aim of bringing Brazilian accounting closer to international standards (IFRS 9), providing greater transparency and comparability between financial projections.

The adoption of Resolution 4,966 was applied prospectively and any adjustments to the accounting balances of financial assets and liabilities were recognized, on January 1, 2025, against Equity (under the heading "Retained Earnings/Profit Reserve" or "Comprehensive Income", as applicable).

As a result of the initial adoption of the aforementioned Resolution, total Net Equity was negatively impacted by approximately R\$9.389 million, an amount net of tax effects. Below is a summary of the main impacts resulting from said adoption:

a) Reclassification of securities from the "available for sale" category to the "amortized cost" category: An increase in the value of assets was recorded, against Equity ("Comprehensive Income"), in the amount of approximately R\$180 million, net of tax effects, resulting from the reversal of the mark-to-market balance of the aforementioned portfolio.

b) Adoption of expected loss criteria for calculating provisions associated with credit risk: Increases in provisions were recorded, in exchange for a reduction in Equity ("Retained Earnings – Profit Reserve"), in the amount of approximately R\$ 188 million, net of tax effects.

Additionally, reclassifications were made between categories of financial instruments, in accordance with the Business Models defined by the Institution. These reclassifications generated impacts only between Equity lines (Items "Retained Earnings - Profit Reserve" and "Comprehensive Income"), without changing the total Equity of the institution. Below is a summary of the main impacts resulting from these reclassifications:

a) Reclassification of securities from the "available for sale" category to "fair value through profit or loss": the negative mark-to-market balance, in the amount of approximately R\$60 million, net of tax effects, was reclassified from "Comprehensive Income" to "Retained Earnings – Profit Reserve".

**27. Non-recurring income**

As set forth in BCB Resolution No. 02/20, non-recurring results should be considered results that are not related or incidentally related to the Bank's typical activities and are not expected to occur frequently in future fiscal years. In the quarter ended September 30, 2025, there were no results classified as non-recurring.
