Considerações Finais

Mais um trimestre de destaque

A companhia segue apresentando resultados consistentes. Embora o primeiro trimestre seja, historicamente, um período de menor fluxo, mantivemos o crescimento de receitas e margens na comparação anual, além da redução contínua do prejuízo. Esses avanços reforçam nossa confiança na estratégia adotada e em seu potencial de geração de valor.

Novos Negócios

No 1T25, iniciamos 26 novas operações em diversos segmentos e regiões. Esse avanço reflete nossa crença de que parcerias comerciais consistentes são essenciais para conquistar e renovar contratos. Aliando nossa experiência à aplicação de tecnologia, seguimos ampliando o portfólio de forma consistente.

Nossa Visão de Futuro

O investimento da Companhia em novas avenidas de crescimento já mostra resultados. Nossa receita do Zul+ totalizou R\$ 11,5 milhões no 1T25, 27,7% acima do 1T24. Nossa divisão de Eletromobidade (Zletric) apresentou crescimento de receita 97,8% e acreditamos que há ainda muito valor a ser capturado.

One more outstanding quarter

The company continues to present consistent results. While the first quarter is historically a period of lower flow, we maintained year-on-year revenue and margin growth, as well as continued loss reduction. These advances reinforce our confidence in the strategy adopted and in its potential to create value.

New Businesses

In 1Q25, we started 26 new operations in various segments and regions. This expansion reflects our belief that consistent business partnerships are essential to winning and renewing contracts. Combining our experience with the application of technology, we consistently expand our portfolio.

Our Vision of the Future

The Company's investment in new growth avenues is already showing results. Our Zul+ revenue totaled R\$11.5 million in 1Q25, up 27.7% from 1Q24. Our Electromobility division (Zletric) registered a revenue growth of 97.8% and we believe there is still much value to be captured.
