## **Independent auditor's report on review the individual and consolidated interim financial information.**

To the Shareholders, Directors and Managers of  
**CSN Mineração S.A.**  
São Paulo - SP

### **Introduction**

We have reviewed the individual and consolidated interim financial information of CSN Mineração S.A. ("Company"), identified as parent company and consolidated, contained in the Quarterly Information Form - ITR for the quarter ended June 30, 2026, which comprise the balance sheet as of June 30, 2026 and the related statements of income, comprehensive income, for three and six-month period then ended and changes in shareholder's equity and cash flows for the six-month period then ended, including the explanatory notes.

The Company's management is responsible for preparing and presenting the individual and consolidated interim financial information, in accordance with technical pronouncement CPC 21 (R1) - Interim Financial Statements and with the international accounting standard IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), as well as the presentation of this information in accordance with the standards issued by the Brazilian Securities Commission, applicable to the preparation of the Quarterly Information - ITR. Our responsibility is to express a conclusion on this interim financial information based on our review.

### **Scope of review**

We conducted our review in accordance with Brazilian and international standards for reviewing interim financial information (NBC TR 2410 - Review of Interim Financial Information Performed by the Entity Auditor and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. The scope of a review is significantly less than that of an audit conducted in accordance with auditing standards and, as a result, did not enable us to obtain assurance that we have taken knowledge of all significant matters that could be identified in an audit. Therefore, we do not express an audit opinion.

### **Conclusion on the individual and consolidated interim financial information**

Based on our review, we are not aware of any fact which leads us to believe that the individual and consolidated interim financial information included in the aforementioned quarterly information was not prepared, in all material respects, in accordance with technical pronouncement CPC 21 (R1) and IAS 34, applicable to the preparation of the Quarterly Information - ITR, and presented in accordance with the rules issued by the Brazilian Securities and Exchange Commission (CVM).

## Other matters

### Statement of Value Added

The previously mentioned quarterly information includes the individual and consolidated interim financial information of Value Added (DVA), referring to the six-month period ended June 30, 2026, prepared under the responsibility of the Company's management and presented as supplementary information for international standard IAS 34 purposes. These statements were submitted to review procedures performed in conjunction with the review of the Company's quarterly information - ITR, in order to conclude whether they are reconciled with the interim financial information and accounting records, as applicable, and if their form and content are in accordance with the criteria defined in technical pronouncement CPC 09 (R1) - "Demonstration of Added Value". Based on our review, we are not aware of any facts that lead us to believe that these statements of value added were not prepared, in all material respects, in accordance with the criteria defined in this standard and in a manner consistent with the interim financial information, individual and consolidated, taken as a whole.

## 1. OPERATING CONTEXT

CSN Mineração S.A., hereinafter referred to as “CMIN,” or “the Company” or “the Parent Company”, was incorporated in 2007 and is headquartered in Congonhas, in the Brazilian state of Minas Gerais. CSN Mineração, together with its subsidiaries and controlled companies, is also referred to in this Individual and Consolidated Financial Information as “the Group”. The Group was formed by combining the mining and port assets maintained by its parent company Companhia Siderúrgica Nacional (“CSN” or “CSN Parent Company”) with the incorporated mining assets held by Nacional Minérios S.A. (“Namisa”), a joint venture formed between CSN and an Asian consortium.

In 2021, the Company completed its initial public offering (“IPO”), thus becoming a publicly traded corporation. The entirety of its common shares is traded on B3 – Brasil, Bolsa, Balcão under the ticker symbol CMIN3.

CMIN’s iron ore mining operations are located in the Iron Quadrangle in the state of Minas Gerais, where the Company extracts, processes and commercializes iron ore sourced from both its company and third-party production. As one of Brazil’s largest iron ore exporters, CMIN uses an efficient logistics network to transport its products to the Port of Itaguaí, which is located in Rio de Janeiro.

With commercial offices located in Brazil, Switzerland and Hong Kong, the Group serves customers worldwide, with a specific emphasis on European and Asian markets.

As an integrated company, CMIN holds a stake in MRS’s railway network and operates the Port of Itaguaí’s (“TECAR”) Solid Bulk Terminal, one of the four terminals that make up Rio de Janeiro’s Port of Itaguaí. Additionally, the Company benefits from self-generated energy due to its ownership interest in the Passo Real Consortium and grant for use of the Quebra-queixo Hydroelectric Power Plant.

CMIN is a pioneer in the use of sustainable technologies to form tailing piles during iron ore production. Since 2020, the Company has operated a complete tailings filtration system that allows materials to be dry stacked. This process allows tailings to be disposed in piles using geotechnical controls in areas exclusively intended for this purpose, thereby eliminating the need for dams. As a result of these measures, the decommissioning of dams has become a natural part of processing filtered tailings. Company dams used in mining strictly comply with environmental legislation.

### Going concern:

Management understands that the Company has adequate resources to continue as a going concern. As a result, financial information for the period ended June 30, 2026 was prepared based on its presumed capacity to continue as a going concern.

## 2. BASIS OF PREPARATION AND DECLARATION OF CONFORMITY

### 2.a) Declaration of conformity

The interim and consolidated Individual Financial Information (“interim financial information”) has been prepared and is presented in accordance with the accounting policies adopted in Brazil and issued by the Accounting Pronouncements Committee (“CPC”) and approved by the Brazilian Securities and Exchange Commission (“CVM”) and the Federal Accounting Council (“CFC”). Furthermore, it meets requirements under the International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”), which are currently referred to as IFRS Accounting Standards, and evidence of all relevant information specific to the financial information is provided. This information exclusively corresponds to that used by the

**(In thousands of Reais, unless stated otherwise)**

Company's management in its administration The consolidated interim financial information is identified as "Consolidated", and the Parent Company's individual financial information is identified as "Parent Company".

## **2.b) Basis of accounting**

The individual and consolidated interim financial information was prepared on a historical cost basis and adjusted to reflect: (i) the fair value measurement of certain financial assets and liabilities (including derivative instruments), as well as pension plan assets; and (ii) impairment losses.

Whenever IFRS and CPCs allowed for a choice to be made between the acquisition cost or another measurement criterion, the acquisition cost criterion was used.

The preparation of these interim individual and consolidated financial statements requires that management use certain accounting estimates, judgments, and assumptions that affect the application of accounting policies; as a result, the amounts reported as of the balance sheet date for assets, liabilities, revenues, and expenses may differ from actual future results. The assumptions used are based on historical data and other factors considered relevant and are reviewed by the Company's management.

This interim financial information has been prepared and is presented in accordance with CPC 21 (R1) and IAS 34 - "Interim Financial Reporting" in accordance with the standards established by the CVM.

This interim financial information does not include all requirements for annual or complete financial statements. It must therefore be read together with the Company's annual financial statements for the year ended December 31, 2025. Given the above context, this interim financial information was not repeated either due to redundancy or relevance in relation to information previously presented in annual financial statements, accounting practices, and the following explanatory notes:

Note 2.d) - Material accounting policies;

Note 2.f) - Adoption of new requirements, standards, amendments, guidelines and interpretations;

Note 9.b) - Description and main information on direct, indirect and joint venture subsidiaries;

Note 12 - Reduction in the impairment of assets;

Note 20 - Taxes paid in installments;

Note 24.a) - Transactions with Parent Companies;

Note 24.c) - Other non-consolidated related parties;

Note 32 - Employee benefits;

Note 33 - Commitments;

Note 34 - Insurance.

The interim financial information was approved by management on August 12, 2026.

## **2.c) Functional and presentation currency**

The accounting records included in the interim financial information of each of the Company's subsidiaries are measured using the currency within the main economic environment in which each subsidiary operates ("functional currency"). The parent company's and consolidated interim financial information is presented in R\$ (Brazilian reais), which is the Company's functional currency and the Group's presentation currency.

Transactions in foreign currencies are translated into the functional currency using the exchange rates prevailing on the respective transaction or valuation dates through which items are remeasured. The balances of asset and liability accounts are translated at the exchange rate on the balance sheet date. As of June 30, 2026, US\$1.00 is equivalent to R\$5.1766 (R\$5.5024 as of December 31, 2025) according to rates obtained from the Central Bank of Brazil's website.

## 2.d) Value-added statement

According to Federal Law 11.638/07, all publicly-held companies are required to present a value-added statement. These statements were prepared in accordance with CPC 09 (R1) – Value-Added Statements. IFRS does not require that this statement be presented; as a result, it is presented as additional information.

(1) The Brazilian federal tax balance mainly refers to PIS and COFINS, IRPJ and CPLL and IPI.

Accumulated tax credits are due to the entity's predominantly export profile and stem from ICMS and PIS and COFINS contributions levied on the acquisition of inputs and property, plant and equipment used in production. Tax credits are offset against taxes owed in sales transactions taxed in the domestic market, as well as other federal taxes. Additionally, the increase in tax credits during the period correlates with asset (CAPEX) acquired as part of the Mining Expansion Project in Congonhas, in addition to the acquisition of third-party ore.

The Company recognized a PIS and COFINS tax credit in the amount of R\$94,173 resulting from a favorable court ruling for the exclusion of PIS and COFINS from its tax bases. This credit was recognized after a final and

(1) Refers to the fair value allocated to investment in Companhia Energética Chapecó - CEC resulting from the acquisition of control. Amounts are amortized according to the term of the concession contract for the Quebra-Queixo hydroelectric plant, which is owned by CEC.

(2) Refers to the fair value allocated to the investment in MRS resulting from the acquisition of control of Namisa. Amounts are amortized according to the corresponding term of the railway concession agreement entered into with MRS.

(3) On December 18, 2025 and on December 31, 2025, CMIN acquired a 11.17% equity interest in MRS held by its parent company CSN as part of a capital transaction executed between entities belonging to the same economic group and holding 29.91% of MRS's total capital. This transaction was made for the total price of R\$3,350,000, which was previously paid by CMIN, and the investment was recorded using the book value previously recognized at the Parent Company CSN in the total amount of R\$998,922. The amount paid in excess at a total of R\$2,351,078 does not represent a realized gain or loss for the Group and was therefore recognized as an equity transaction under shareholders' equity, see Note 23.e.

(1) Refer to iron ore prepayment bonds that were initially recognized as contract liabilities, as they refer to the future obligation to deliver the product. However, given the impossibility of delivering the product during the period and the need for a cash settlement, this obligation came to be characterized as a monetary item and was reclassified as a financial liability. Amounts were settled in full in 2025.

The Company raised and amortized debts during the period as shown below:

- **Covenants**

The Company's debt contracts provide for compliance with certain non-financial obligations, as well as maintenance of specific performance parameters and indicators, such as the disclosure of audited financial information according to regulatory deadlines or commission payments for assumption of risk if the net debt to EBITDA indicator reaches the levels specified in these contracts.

As of the present date, the Company complies with financial and non-financial obligations (covenants) under existing contracts.

### 13. FINANCIAL INSTRUMENTS

#### 13.a) Identification and valuation of financial instruments

The Company may operate with several financial instruments, with an emphasis on cash and cash equivalents, including investments, bonds and securities, accounts receivables from customers, accounts payable to suppliers and borrowings and financing. Additionally, the Company may also carry out transactions with financial derivatives, such as interest rate swaps and commodities and exchange derivatives.

Given the nature of these instruments, their fair values are essentially determined using quotations for the capital markets in Brazil and the Mercantile and Futures Exchange. The amounts recorded under current assets and liabilities are subject to immediate liquidity or maturity, particularly over the short term. Considering the term and characteristics of these instruments, their book values approximate fair value.

**Level 1** – these data are quoted prices for items identical to the assets and liabilities being measured in an active market.

**Level 2** – considers observable inputs on the market, such as interest rates, foreign exchange, etc., that are not, however, prices traded on active markets.

**Level 3** - there are no assets or liabilities classified at this level.

### 13.b) Financial risk management

The Company follows the risk management policy of its controlling shareholder CSN. Under the terms of this policy, the nature and general position of financial risks are regularly monitored and managed to assess results and financial impacts on cash flow. Counterparties' credit limits are also periodically reviewed.

Market risks are hedged whenever considered necessary to support the corporate strategy or maintain the level of financial flexibility.

The Company is exposed to exchange rate, interest rate risk, market price, and credit and liquidity risk.

The Company may manage certain risks using derivative instruments not associated with any speculative trading or short selling.

- Exchange rate risk**

The exposure arises from the existence of assets and liabilities generated in dollar since the Company's functional currency is substantially the Brazilian real and is referred to as natural currency exposure. As of June 30, 2026 and December 31, 2025, the Company's net exposure is the result of offsetting the natural foreign exchange exposure using the hedging instruments adopted by the Company.

Consolidated exposure is shown below:

(1) Total notional value of positions designated under hedge accounting for management of foreign exchange risk. Transactions do not represent derivative financial instruments, but rather formal hedge relationships that are accounted for.

The Company uses Hedge Accounting, as well as derivative financial instruments, as a strategy to protect future cash flows.

### Sensitivity analysis of derivative financial instruments and consolidated foreign exchange exposure

The Company evaluated two different scenarios for the analysis of the exchange rate impact: Scenario 1 projects a horizon of increased currency volatility, and Scenario 2 predicts a horizon of appreciation of the real against the dollar. Calculations were based on the closing exchange rate on June 30, 2026 and made use of assumptions based on a dispersion calculation that considers both historical changes in exchange rates and projections developed by management.

The currencies used in the sensitivity analysis and their respective scenarios are shown below:

|          | 06/30/2026    |                                |            |            | 12/31/2025    |                                |            |            |

### Cash Flow Hedge Accounting – Foreign Exchange

The Company formally designates cash flow hedge relationships to protect highly probable future flows exposed to the dollar related to sales made in dollars.

In order to better reflect the accounting effects of the foreign exchange hedging strategy in the result, CMIN designated part of their dollar liabilities as a hedge instrument for their future exports. As a result, changes in exchange rate for designated liabilities will be temporarily recorded in shareholders' equity and will be transferred to the income statement when the respective exports occur. This allows fluctuations in the dollar on the liability and exports to be recorded at the same time. It is important to emphasize that the adoption of this hedge accounting does not imply the contracting of any financial instrument.

The following table presents a summary of hedging relationships maintained as of June 30, 2026:

| 06/30/2026       |                                             |                                                             |                                           |                           |                              |                               |                          |                          |                                          |

The net balance of the amounts designated and previously amortized in US dollar totals US\$751,845 (US\$815,611 as of December 31, 2025).

As part of the hedge relationships described above, the values of debt instruments were designated in full for equivalent portions of iron ore exports.

As of June 30, 2026, the hedging relationships established by the Company remained effective according to prospective and retrospective tests that were performed. As a result, there were no reversals due to ineffectiveness of cash flow hedge accounting recorded.

- **Interest rate risk**

(In thousands of Reais, unless stated otherwise)

This risk stem from short-term and long-term investments, loans and financing linked to pre- and post-fixed CDI, TJLP and SOFR interest rates. These financial assets and liabilities are exposed to fluctuations in interest rate as shown in the sensitivity analysis table.

### IPCA x CDI interest rate swap

The Company contracted swap transactions with the objective of replacing the interest exposure of its debentures, which were originally updated under IPCA, more a pre-fixed rate, with CDI, more a pre-fixed rate. The following table presents swap results up to June 30, 2026 recognized under profit or loss.

### Sensitivity analysis for changes in interest rate

A sensitivity analysis for risks related to interest rates is shown below. The Company considered two different scenarios to assess the impact of variations in these rates: Scenario 1 and Scenario 2, which project a horizon of rising interest rates and a reduction horizon, respectively. To perform the calculation, the closing rates as of June 30, 2026 and December 31, 2025 were used as a reference, based on a dispersion model that considers not only historical variations in interest rates but also management's detailed projections. This approach allows for a comprehensive and precise assessment of potential economic impacts arising from interest rate fluctuations.

To better reflect the accounting effects of the "Platts" hedging strategy in the Company's results, CMIN designates its iron ore derivative as a hedge accounting instrument for its future iron ore sales. As a result, the mark-to-market mark-to-market effect arising from Platts price volatility is temporarily recognized in equity and will be recognized in profit or loss as the related sales occur, in accordance with the contracted pricing period, thereby allowing the impact of Platts price volatility on iron ore sales to be recognized in the same period.

The Company has periodically reviewed market scenarios to assess its exposure to iron ore price risks to ensure adequate coverage of market price fluctuations. This process involves monitoring fluctuations and trends in global prices, in addition to considering economic and geopolitical factors that may impact the value of this commodity.

- Credit risks**

The exposure to financial institution credit risks of observes the parameters established in the financial policy.

With regard to financial investments, the Company only invests in institutions assessed by credit rating agencies as having a low credit risk. Since part of these resources is invested in repurchase agreements that are backed by Brazilian government securities, there is also exposure to the credit risk of the Brazilian State.

The Company is not exposed to credit risk in accounts receivable and other receivables since its transactions are subject to financial guarantees.

(In thousands of Reais, unless stated otherwise)

- Liquidity risk**

There is a risk that the Company may not have sufficient net funds to honor its financial commitments as a result of the mismatch of terms or volume between expected receipts and payments.

Future receipt and payment premises are established to manage cash liquidity in domestic and foreign currencies, which are monitored on a day-to-day basis by the Treasury department at the Parent Company CSN. The payment schedules for long-term installments of loans, financing and bonds are presented in note 12 - Loans and financing and bonds.

| Gross Debit/Shareholder's equity               | 1.22       | 1.38       |

### 13.d) Fair value of assets and liabilities in relation to book value

Financial assets and liabilities measured at fair value through profit or loss are recorded in current and non-current assets and liabilities, and any gains and losses are recorded as income, other revenue (expense) and finance costs.

Assets and liabilities measured at fair value through profit or loss are recorded under financial results. However, whenever they are designated for hedge accounting operations, fair value adjustments are recorded under other comprehensive income up until the moment they are realized, when they are then recorded under other operating income (expenses), according to the nature of the transaction.

(In thousands of Reais, unless stated otherwise)

The Company holds a TECAR lease agreement, which is used for to ship and unload solid bulk, such as iron ore and coal. The agreement has a remaining term of 21 years.

The present value of future obligations was measured using the implicit rate observed in contracts. If contracts did not provide a rate, the Company applied the incremental loan rate – IBR. These rates were applied in nominal terms. The incremental rate used to measure lease liabilities and right-to-use assets under contracts entered into in the period ended June 30, 2026 totaled 14.79% p.a.

Activity related to lease liabilities during the period ended June 30, 2026 is shown below:

- Lease payments not recognized as liabilities:**

(In thousands of Reais, unless stated otherwise)

The Company chose not to recognize lease liabilities in contracts with a term of less than 12 months, as well as low value assets. Payments made under these contracts are recognized as expenses when incurred.

The Company maintains a TECAR lease agreement for which it is not possible to determine cash flow, even if minimum performance is established, since these payments are completely variable and are recognized as they occur. Payments made under these contracts are recognized as expenses when incurred.

Expenses related to payments not included in the measurements of lease liabilities during the period are as follows:

The Company discloses and classifies forfaiting transactions with suppliers where the nature of the securities continue to be part of the Company's operating cycle in a specific group. These transactions are negotiated with financial institutions to enable the Company's suppliers to move receivables arising from sales of goods forward and, consequently, to extend payment terms for the Company's own obligations.

The following table provides a comparison of invoice payment terms both with and without a supplier finance agreement, in cases in which goods were exclusively acquired for the base date of June 30, 2026:

During the 1st quarter of 2021, the Company was notified of the filing of arbitration proceedings based on an alleged breach of iron ore supply contracts. The opposing party's claim at that time totaled approximately US\$1 billion, and the Company understands the allegations presented to be unfounded by the complete absence of damages, based on the assessment of its legal advisors. The Company wishes to inform that it has prepared a response to the arbitration request together with its legal advisors and is currently preparing its defense. It also wishes to clarify that these matters involve ongoing arbitration disputes initiated by both parties. It is also estimated that arbitrations will be completed in approximately 6 months. The relevance of these proceedings for the Company involves the value attributed to the case and the possible financial impacts.

## 21. PROVISIONS FOR ENVIRONMENTAL LIABILITIES AND DECOMMISSIONING

The balance of provisions for environmental liabilities and asset decommissioning is as follows:

### Environmental liabilities

(In thousands of Reais, unless stated otherwise)

As of June 30, 2026, a provision has been maintained for investment in expenses related to the investigation and environmental recovery of potential contaminated and degraded areas and areas subject to exploration under the responsibility of the Company in the states of Rio de Janeiro and Minas Gerais. Estimated expenses are reviewed periodically, and amounts previously accounted for are adjusted, whenever necessary. These above table present management's best estimates for environmental recovery studies and projects. These provisions are recorded in the other operating expenses account.

Certain contingent environmental liabilities are monitored by the environmental department and a provision has not been provided since they do not meet the recognition criteria established in IAS 37/CPC 25.

## Consolidated and parent company data:

**Cash and cash equivalents and investments:** refer to investments subject to immediate liquidity maintained by the Company with Banco Fibra and investments in government securities (LFT - Treasury Financial Bills) managed by CSN's exclusive funds

**Accounts receivable:** the Company sells iron ore to CSN and to companies that make up the Asian Consortium under long-term contracts in the domestic and foreign market, respectively. Furthermore, in December 2023 CSN Mineração began selling iron ore to the Switzerland-based offshore company CSN Mining International GmbH. These contracts provide for pricing based on the indices commonly practiced on the iron ore market.

**Advances of shared and other expenses:** refers to the advance payment made to the Parent Company CSN by sharing administrative departments' expenses. In August 2024, the Company entered into a new pre-payment contract for administrative expenses in the amount of R\$546 million, which is expected to be amortized over the next 5 years. The Company has also executed advance payment agreements with other Related Parties in order to improve its plants' operational performance.

**Dividends receivable:** refers to mandatory minimum dividends receivable for ownership interest in Companhia Energética Chapecó - CEC, in the amount of R\$2,390, as well as R\$110,542 from the investee MRS.

**Suppliers:** the Company entered into a contract for the provision of long-term rail transport services for the transport of products. The prices charged to MRS follow a tariff model based on market assumptions.

**Customer advances – Ore:** refers to contracts for the supply of iron ore signed by the Parent Company CMIN with the Subsidiary CSN Mining International GmbH.

**Costs and expenses:** the Company maintains contracts for the acquisition of iron ore in the domestic market and the provision of maintenance services from CSN group companies. Contracts provide for pricing based on indices

(In thousands of Reais, unless stated otherwise)

commonly practiced in the iron ore market. The Company has also executed a marketing consulting contract with members of the Asian Consortium to obtain strategic information on the international iron ore market.

Each common share entitles the respective holder to a single vote in resolutions made at Annual General Meetings.

### **23.b) Authorized share capital**

Article 6 of the Company's bylaws in force as of June 30, 2026 defines that its share capital may be increased, regardless of any statutory reform, in the amount of up to R\$1,800,000 (one billion eight hundred million reais) through the issuance of common and/or preferred shares through means of decision from the Board of Directors.

### **23.c) Capital reserve**

The Company's capital reserve totals R\$127,042 as of June 30, 2026 and December 31, 2025. The capital reserve comprises:

- (i) R\$141,723 in goodwill recognized in the issuance of shares held in the mining business combination in December 2015; and
- (ii) Reduction of R\$14,681 due to the transaction cost, net of taxes, incurred during the public offer of primary shares held on February 17, 2021.

### **23.d) Legal reserve**

The company's legal reserve is constituted at the rate of 5% of the net income calculated in each fiscal year pursuant to art. 193 of Federal Law no. 6,404/76, up to a limit of 20% of its share capital.

### **23.e) Capital transaction**

The Parent Company, Companhia Siderúrgica Nacional, sold part of its investment in MRS Logística S.A. to the Company, as part of a capital transaction made between entities belonging to the same economic group. This

(In thousands of Reais, unless stated otherwise)

transaction did not result in a change in corporate control, in accordance with Technical Interpretation ICPC 09 – Individual, Separate, Consolidated Financial Statements and Equity-Accounted Investees.

This transaction was made for the total price of R\$3,350,000, which was previously paid by CMIN, and the investment was recorded using the book value previously recognized at the Parent Company CSN in the total amount of R\$998,922. The amount paid in excess of this amount at a total of R\$2,351,078 does not represent a realized gain or loss for the Group and was therefore neither recognized in the income statement nor classified as a profit reserve.

Management therefore recorded this amount directly in Shareholders' Equity under the heading "Capital Transaction", since it is not available for dividend distribution. This investment will remain under this classification until it is effectively realized outside the Company's economic group.

## 23.f) Shareholding structure

### Cancellation of treasury shares

On March 27, 2026, the Company approved the cancellation of 53,294,297 shares. The statutory reserve was used to absorb the amount resulting from the cancellation (see explanatory note 23.h).

As a result, the Company's shareholding structure is as follows:

(i) 4th share buyback program

The Share Buyback Program developed pursuant to CVM Guidance 77/2022 and approved on June 28, 2024 by the Board of Directors, comprises the following characteristics:

- the buyback of up to 100,000,000 shares;
- program effective from June 28, 2024 to December 19, 2025;
- the acquisition price must not exceed the quotation available on the São Paulo Stock Exchange;
- buyback operations are intermediated by certified financial institutions.

On October 17, 2024, the Company approved the cancellation of three company shares held in treasury at a meeting of the Board of Directors. There was no change in the subsidiary's share capital as a result of the cancellation of shares, and, as a result, the Company's capital stock was divided into 5,485,338,835 shares.

On November 21, 2025, the Company approved a program for the sale of shares held in treasury, which presents the following characteristics:

- sale of up to 53,294,297 shares;
- program effective from November 24, 2025 to May 21, 2027;
- sale price: shares will be sold at market price at B3 S.A. - Brasil, Bolsa, Balcão;
- sales transactions will be intermediated by certified financial institutions.

On March 27, 2026, the Company approved the cancellation of 53,294,297 common, registered, uncertificated shares with no par value issued by the Company and held in treasury up to that date without reducing the share capital. Additionally, they discontinued the Company's Share Sale Program, given that its original purpose had been met. The canceled treasury shares were acquired by the Company under the Share Repurchase Program ending on December 19, 2025. The cancellation approved herein will not reduce the Company's share capital, which will remain unchanged at R\$7,473,979,884.36. As a result of the above resolution, the total number of common shares issued by the Company will increase from 5,485,338,835 to 5,432,044,538.

(ii) 5th share buyback program

On May 19, 2026, the Board of Directors approved the 5th share buyback program pursuant to CVM Guidance 77/2022, which comprises the following characteristics:

- the buyback of up to 50,000,000 shares;
- program effective from May 19, 2026 to November 19, 2026;
- acquisition price: Shares will be acquired at market price at B3 S.A. - Brasil, Bolsa, Balcão;
- buyback operations are intermediated by certified financial institutions.

The conditions set forth above remain in effect as of June 30, 2026. An amendment to the share buyback program was executed on July 27, 2026, as described in Note 31 – Subsequent events.

#### SHARE BUYBACK AMENDMENT

CSN Mineração S.A. ("Company") (B3: CMIN3) in compliance with the provisions of CVM Resolution No. 44/2021, as amended, wishes to inform its shareholders and to the market in general of the approval of the amendment to the Share Buyback Program at the Board of Directors' Meeting ("RCA") held on July 27, 2026. The program was originally approved at the Board meeting held on May 19, 2026 ("Share Buyback Program") to include up to 50,000,000 (fifty million) additional common shares in relation to the amount originally approved for a total of up to 100,000,000 (one hundred million) common shares, as described in Annex I to the minutes for the meeting of the Board.

The term of the Share Buyback Program remains unchanged, and acquisitions scheduled for November 19, 2027 will be finalized, given that the program is effective for an 18-month period starting May 19, 2026.

The Share Buyback Program aims to acquire common, registered, uncertificated shares with no par value issued by the Company while respecting legally established limits and based on available resources. Such shares shall be held in treasury and subsequently sold or canceled pursuant to the provisions of article 3 of CVM Resolution No. 77/2022.
