Decisão CARF:

Continuamos confiantes da nossa tese

Comunicamos a atualização referente ao julgamento de processos administrativos fiscais que discutem multas aduaneiras junto ao Conselho Administrativo de Recursos Fiscais (CARF), ocorrido em 15 de outubro de 2025. Na ocasião, **o julgamento resultou em empate**, sendo o desempate decidido por voto de qualidade desfavorável à Companhia. Conforme previsto na Lei nº 14.689/2023, nos casos em que a decisão é favorável à Fazenda Pública por meio de voto de qualidade, **há previsão de exclusão das multas**. Existem decisões recentes que reconhecem esse entendimento, o que nos mantém confiantes nas próximas instâncias de defesa. Diante desse cenário, o **diagnóstico jurídico permanece inalterado**, não havendo necessidade de provisionamento contábil.

CARF Decision:

We remain confident of our thesis

We are communicating an update regarding the judgment of administrative tax proceedings concerning customs fines before the Administrative Council of Tax Appeals (CARF), which took place on October 15, 2025. On that occasion, **the judgment resulted in a tie**, with the tiebreaker decided by a casting vote unfavorable to the Company. As provided for in Law No. 14,689/2023, in cases where the decision is favorable to the Public Treasury through a casting vote, **there is a provision for the exclusion of fines**. There are recent decisions that recognize this understanding, which keeps us confident in the next instances of defense. Given this scenario, **the legal diagnosis remains unchanged**, and there is no need for accounting provisioning.
