## Comments on Consolidated Results

On June 25, 2025, Best Center Empreendimentos e Participações S.A. (“Best Center”), a wholly-owned subsidiary of São Carlos, completed the sale of an asset portfolio to TG Renda Urbana Master Real Estate Investment Fund (“FII TGRU Master”). The payment was made through the receipt of 74% of the price in cash and 26% in subordinated units issued by FII TGRU Master. On that date, FII TGRU Master had 798,957 subordinated units and 2,396,872 senior shares outstanding. As a result, Best Center came to hold 100% of the subordinated units issued on that date, representing a 25% ownership interest in FII TGRU Master. Based on the characteristics of the subordinated units, which denote, among other aspects, significant exposure to variable returns, it was identified that the sale transaction should fall under CPC 36 (R3) – Consolidated Financial Statements, and therefore, FII TGRU Master was consolidated in the Company’s interim consolidated financial information.

As a result of the consolidation of FII TGRU Master, as of September 30, 2025, the effects of the sale of Best Center’s assets and their subsequent acquisition by FII TGRU Master were fully eliminated in the presentation of the interim consolidated financial information. The balance recorded in FII TGRU Master’s equity referring to the senior shares, which represented 75% of the total shares of FII TGRU Master as of September 30, 2025, was classified in the interim consolidated financial information as a financial instrument under the liability line item “Other liabilities,” even though, due to the characteristics of FII TGRU Master, it does not represent a payment obligation of São Carlos as the subordinated shareholder of FII TGRU Master, as detailed in note 13 to the 2Q25 Financial Statements.

Considering that the consolidation of the fund significantly changes the presentation of results, the Company has chosen, throughout this earnings release, to continue presenting recurring (managerial) results, to allow greater comparability with prior periods and better reflect the operational performance of its assets.

Accordingly, the release will highlight recurring results, while, mainly in the appendices, the income statement and balance sheet will be presented in accordance with CPC 36 (R3) – Consolidated Financial Statements, ensuring full transparency and compliance with current accounting standards. Further information is available in the Company’s interim financial information.

## Management Report

The highlight in the third quarter was the good leasing activity across both business segments of São Carlos, which resulted in higher occupancy levels across our portfolio. The office market continued its recovery trend, with consistent market vacancy rates<sup>1</sup> reduction both in São Paulo and in Rio de Janeiro, with a decrease of 0.2 p.p. and 0.8 p.p. compared to 2Q25, respectively.

In the Office segment, the Company signed 12 lease agreements totaling 12.0 thousand sqm of GLA, including 4 under the FlexOffice model. Of these new leases, 6 were in properties located in São Paulo and 6 in Rio de Janeiro. At Best Center, leasing activity also reached 16 contracts signed during the quarter, totaling 1.8 thousand sqm of GLA. The vacancy rate of the strip mall portfolio, on a same-property basis, decreased from 12.3% in 2Q25 to 11.0% in 3Q25. Total tenant sales grew 6.2% year over year, while same-store sales (SSS) increased 4.5%. Best Center's net delinquency rate for the quarter stood at 0.9%, reflecting efficient receivables management.

As a result of the Company's solid operational performance, all income statement lines showed growth. On a same-property basis, gross revenue grew 10.4%, and EBITDA increased 30.9%, driven by higher occupancy levels and efficient management of property and corporate expenses, which decreased 4.7% compared to the same quarter of the previous year. Recurring FFO in 3Q25 reached R\$0.9 million, marking the first positive quarter since 4Q22.

In terms of asset recycling, Best Center completed the sale of a street store located in São Vicente (SP) for R\$12.7 million, while São Carlos sold the Latitude building, located in downtown Rio de Janeiro and fully vacant, for R\$2.2 million.

Finally, we emphasize that the Company's priorities remain focused on improving the operational performance of its assets, executing property sales that generate value for shareholders, and implementing structures and business models in the real estate market that lead to a smaller discount of the share price relative to the portfolio's market value.

The Office segment was the quarter's highlight, with revenue growth of 8.1%, reaching R\$32.8 million, driven by contract revaluations and vacancy reduction.

In contrast, Best Center's revenue decreased 54.1% year over year, mainly due to the sale of properties completed in the last 12 months, particularly the portfolio sold to the TGRU REIT in 2Q25. Segment revenue totaled R\$7.3 million in the quarter.

## Net Operating Income (NOI)

Consolidated NOI reached R\$33.5 million in 3Q25, with a margin of 83.4%. The 13.9% decrease compared to 3Q24 reflects the disposal of Best Center properties, mainly the strategic sale of assets to the TGRU REIT.

## Reconciliation Between IFRS and Recurring Income Statement

To preserve comparability between the 3Q25 and 3Q24 financial information, the Company presents an analysis of adjusted information. That information was prepared based on the income statement produced in accordance with the accounting practices generally accepted in Brazil (IFRS) and adjusted to exclude the effects of non-recurring transactions (e.g sale of properties) in the reported periods.
