## INDEPENDENT AUDITOR'S REVIEW REPORT ON THE INDIVIDUAL AND CONSOLIDATED INTERIM FINANCIAL INFORMATION

To the  
Shareholders, Board Members and Management of  
Trisul S.A.  
São Paulo – SP

### Introduction

We have reviewed the individual and consolidated interim financial information of Trisul S.A. ("Company"), included in the Quarterly Information, for the quarter ended September 30, 2025, which comprise the statement of financial position as at September 30, 2025, and the respective statements of profit or loss and comprehensive income for the three- and nine-month periods then ended, and of changes in equity and cash flows for the nine-month period then ended, as well as the corresponding notes, including material accounting policies and other explanatory information.

The Company's Management is responsible for the preparation of the individual interim financial information in accordance with NBC TG 21 (R4) – Interim Financial Reporting and of the consolidated interim financial information in accordance with NBC TG 21 (R4) and International Accounting Standard (IAS) 34 - Interim Financial Reporting, applicable to entities of real estate development in Brazil registered with the Brazilian Securities and Exchange Commission (CVM), as well as for the presentation of this information in accordance with the standards issued by CVM, applicable to the preparation of Quarterly Information. Our responsibility is to express a conclusion on this interim financial information based on our review.

### Scope of the review

We conducted our review in accordance with Brazilian and international standards for reviewing interim financial information (NBC TR 2410 and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity). A review of interim financial information consists principally of applying analytical and other review procedures and making enquiries of and having discussions with persons responsible for financial and accounting matters. An interim review is substantially less in scope than an audit conducted in accordance with auditing standards and does not provide assurance that we would become aware of any or all significant matters that might be identified in an audit. Accordingly, we do not express such an audit opinion.

### Conclusion on the individual and consolidated interim financial information

Based on our review, we are not aware of any fact that would lead us to believe that the individual and consolidated interim financial information included in the Quarterly Information referred to above has not been prepared, in all material respects, in accordance with NBC TG 21 (R4), and with IAS 34, applicable to entities of real estate development in Brazil registered with the Brazilian Securities and Exchange Commission (CVM), or has not been presented in accordance with the standards issued by CVM, applicable to the preparation of the Quarterly Information.

## Emphasis

### Revenue recognition

As described in Note 2.1, the individual interim financial information included in the Quarterly Information has been prepared in accordance with NBC TG 21 (R4) and the consolidated interim financial information included in the Quarterly Information has been prepared in accordance with NBC TG 21 (R4) and IAS 34, applicable to entities of real estate development in Brazil registered with CVM. Accordingly, the determination of the accounting policy adopted by the Company for recognition of revenue in contracts for sale and purchase of unfinished real estate units related to aspects of transfer of control follows the understanding expressed by CVM in CVM/SNC/SEP Circular Letter No. 02/2018 on the adoption of NBC TG 47 (IFRS 15). Our conclusion is not qualified in respect of this matter.

## Other matters

### Statements of value added

The quarterly information referred to above includes the individual and consolidated statements of value added for the nine-month period ended September 30, 2025, prepared under the responsibility of the Company's Management and presented as supplementary information pursuant to IAS 34, applicable to entities of real estate development in Brazil registered with CVM. These statements were submitted to review procedures carried out alongside the review of the quarterly information, aiming to conclude if they are in accordance with the interim financial information and accounting records, as applicable, and if their form and contents are in accordance with the criteria established in Technical Pronouncement CPC 09 – Statement of Value Added. Based on our review, we are not aware of any fact that would lead us to believe that these statements were not prepared, in all material respects, in accordance with the criteria established in this Technical Pronouncement and consistently with the individual and consolidated interim financial information taken as whole.

The accompanying financial information has been translated into English for the convenience of readers outside Brazil

The accompanying notes are an integral part of the interim financial information.

**Trisul S.A.**

Notes to the individual and consolidated quarterly information as at September 30, 2025  
(In thousands of Reais, unless otherwise stated)

---

**1. Operations**

Trisul S.A. ("Company") is headquartered in the city of São Paulo, Brazil, and is listed with B3 under the acronym TRIS3. It is the result of the consolidation, in 2007, of the companies Incosul Incorporação e Construção Ltda. and Tricury Construções e Participações Ltda., companies with more than 35 years of work in the real estate market.

The Company is engaged in real estate development, construction of properties for sale, subdivision of plots of land and purchase and sale of properties, in addition to holding ownership interest in other companies as a shareholder.

The real estate development, including the participation of third parties, is made through limited liability companies, Specific Purpose Entities (SPEs) and also under Silent Partnership Agreements (SCPs), so that the controlled companies can share structure, corporate, managerial and operating costs of the Company.

**2. Basis of preparation and presentation of the quarterly information****2.1. Basis for preparation and Statement of compliance**

The Company's individual and consolidated quarterly information for the periods ended September 30, 2025 and 2024 has been prepared according to the Brazilian Accounting Practices ("BRGAAP"), as well as with the International Financial Reporting Standards ("IFRS") applicable to the real estate development enterprises registered with CVM.

The individual and consolidated quarterly financial information has been prepared according to Brazilian accounting practices, including the technical pronouncements issued by the Committee of Accounting Pronouncements (CPC), and presented in compliance with the standards and guidelines of CVM, through Circular Letter No. 003/2011, which comprises the transfer of control in the sale of real estate units and involves the understanding of the Company's Management, aligned with that of CVM in CVM/SNC/SEP Circular Letter No. 02/18 on the application of the Technical Pronouncement NBC TG 47 (IFRS 15), addressing the entities of the real estate sector.

CVM/SNC/SEP Circular Letter No. 02/2018, among other topics, explains in which situations real estate entities should maintain the revenue recognition over time, namely Percentage of Completion (POC).

The Brazilian accounting practices include those established by the Brazilian corporate legislation and the Pronouncements, Guidelines and Interpretations issued by CPC and approved by the CVM and by the Brazilian Federal Council of Accounting (CFC).

Additionally, the Company considered the Guidance OCPC 07 - Evidencing upon Disclosure of General Purpose Financial-Accounting Reports in the preparation of the quarterly information and declares that all relevant information specific to the quarterly information, and only such information, is evidenced in the notes and corresponds to the ones used by Management in its administration.

The individual and consolidated quarterly information have been prepared according to the accounting practices described in Note 3.

**Trisul S.A.**

Notes to the individual and consolidated quarterly information as at September 30, 2025  
(In thousands of Reais, unless otherwise stated)

---

The preparation of quarterly information requires the use of certain accounting estimates and assumptions by the Company's Management in the implementation of its accounting policies. The accounting estimates and assumptions are continuously evaluated and are based on historical experience and on other factors, including expectations of future events considered reasonable for the circumstances. Such estimates and assumptions may differ from actual results.

The Company's Management states that all relevant information on the quarterly information, and only such information, is being evidenced and corresponds to that used by it in its administration.

**2.2. Basis of presentation and consolidation**

This individual and consolidated quarterly information is presented in Reais. The Real is the functional currency of the Company and of its controlled companies and the amounts are rounded to the next unit, unless otherwise stated.

The consolidated quarterly information of the Company includes the quarterly information of Trisul S.A. and its directly and indirectly controlled companies, as mentioned in Note 10. The Company controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through power over an entity. The existence and effects of potential voting rights that are currently exercisable or convertible are taken into account when assessing whether the Company controls another entity.

The controlled companies are fully consolidated as of the date on which control is transferred, and they are no longer consolidated as of the date on which control ceases to exist.

The accounting practices are consistently applied to all consolidated companies, which took as reference the date of September 30, 2025. Where necessary, the quarterly information of those controlled companies is adjusted to the practices established by the Company.

In the consolidated quarterly information, current accounts, revenue and expenses between the consolidated companies were eliminated, as well as unrealized income and investment. In compliance with CPC 36 (R3) - IFRS 10, the interest held by non-controlling shareholders is stated separately.

**2.3. Going concern**

The accounting standards require that in preparing quarterly information, Management assess the Company's ability to continue as a going concern in the foreseeable future. Considering the current level of its net working capital, the compliance with the covenants included in its loans and financing contracts, besides expectation of cash generation sufficient to settle its liabilities in the following 12 months, Management concluded that there is no material uncertainty that may cast doubt on the Company's ability to continue as a going concern. Therefore, it has concluded that it is appropriate to use the going concern basis of accounting for the preparation of its quarterly information.

**2.4. Approval of individual and consolidated quarterly information**

The Board of Directors approved the individual and consolidated quarterly information on November 13, 2025.

### **3. Accounting practices and explanatory information**

#### **3.1. Significant judgments, estimates and assumptions**

The preparation of quarterly information requires Management to make judgments, estimates and assumptions that affect the reported revenues, expenses, assets and liabilities, as well as the disclosure of contingent liabilities at the reporting date.

However, the uncertainty related to these assumptions and estimates may lead to results requiring significant adjustments to the book value of assets or liabilities affected in future periods.

The main assumptions related to uncertainties as to future estimates and other significant sources of uncertainty as at the reporting date involving a material risk of resulting in significant adjustments to the book value of assets and liabilities are described below:

##### **Budgeted cost of real estate**

Total budgeted costs, comprising incurred and projected costs for the conclusion of the construction work, are periodically reviewed according to the development of the work. Adjustments arising from such review are reflected in the Company's statement of profit or loss, in the periods when the review is made, according to the accounting method used, as described in note 3.2.

##### **Contingencies**

In the normal course of business, the Company and its controlled companies are subject to inspections, audits, lawsuits and administrative proceedings referring to civil, tax, labor, environmental, corporate and consumers' rights matters, among others. Depending on the subject matter of the inspections, lawsuits or administrative proceedings that may be filed against the Company and its controlled companies, they might be adversely affected, regardless of the respective final result.

The Company and its controlled companies are periodically inspected by different authorities, mainly tax, labor and social security authorities. It is not possible to guarantee that those authorities will not assess the Company and its controlled companies, that this information will not lead to administrative proceedings and, later, to lawsuits, or the final result of the possible administrative and legal procedures.

##### **Fair value of financial instruments**

When the fair value of assets and liabilities presented in the statement of financial position cannot be obtained from active markets, valuation techniques are used, including the discounted cash flow method. Data used in this method is based on those applied in the market if possible. Otherwise, a certain level of judgment is required to determine fair value. Judgment includes considerations on the data used, e.g., liquidity risk, credit risk, and volatility. Changes in assumptions about these factors may affect the fair value of financial instruments.

**3.2. Result of development operations, sale of real estate and others**

**(i) Real estate development and sale**

In recognizing profit or loss of real estate development and sale of properties, the Company and its controlled companies adopt the procedures established in standard CPC 47 - IFRS 15 - "Revenue from Contracts with Customers", in addition to the guidelines included in Circular Letter CVM/SNC/SEP No. 02/2018 of December 12, 2018. The latter addresses accounting procedures for the recognition, measurement and disclosure of certain transactions arising from purchase and sale contracts of unfinished real estate units, as well as other provisions issued by CPC.

According to CPC 47 - IFRS 15, the revenue recognition from contracts with customers has new regulatory procedures, based on the transfer of control of the asset or service promised, whether at a point in time or over time, as per the compliance, or not, with contractual performance obligations.

Revenue must be measured by the amount that reflects the consideration to which one is expected to be entitled and is based on a five-step model detailed below: 1) identification of the contract; 2) identification of performance obligations; 3) determination of transaction price; 4) allocation of the transaction price to performance obligations; 5) revenue recognition.

When unfinished real estate units are sold, the following assumptions are adopted, in compliance with what is mentioned above:

- From the moment in which the venture launched is no longer under the effects of the corresponding suspensive clause in its development brief, the percentage of costs of units sold is calculated (including land) in relation to total budgeted cost. This percentage is applied to revenues from units sold and adjusted according to the terms of the sales contracts, including the monetary adjustment, and therefore determining the amount of revenues to be recognized;
- The amounts of sales revenues calculated, including monetary restatement, net of installments already received, are accounted for as accounts receivable or advances from customers, if applicable;
- Costs incurred (including the cost of land) corresponding to units sold are fully recognized in profit or loss;
- Finance charges directly related to real estate ventures, corresponding to accounts payable for acquisition of plots of land and operations of real estate credit incurred during the construction period, are recorded as costs of real estate development in profit or loss upon sale of the real estate units. Finance charges arising from financing operations with no investment in real estate ventures are recognized as financial income when incurred, as well as those levied on accounts payable from plots of land and from real estate credit operations, incurred after construction of the ventures is concluded;
- Budgeted costs of real estate developments to be incurred are subject to periodical reviews, which may result in changes to those initial estimates. The effects of those reviews affect income prospectively, according to technical pronouncement CPC 23 - IAS 8 - Accounting policies, Changes in Accounting Estimates and Correction of Errors.

Income from the sale of finished units of real estate ventures is recognized when the sale is made, regardless of the contractually established term for receiving the payment, as mentioned above.

When the amounts received from the sale of real estate units are higher than the amounts of revenues recognized, they are accounted for as advances from customers under current or noncurrent liabilities.

**Trisul S.A.**

Notes to the individual and consolidated quarterly information as at September 30, 2025  
(In thousands of Reais, unless otherwise stated)

---

Fixed interest and monetary variation levied on the balance of accounts receivable, as from the date the keys are delivered, are recognized as financial income, when incurred, in conformity with the accrual basis for the period.

A provision for contract cancellation is set up when uncertainties are identified as for the receipt of future cash flows. These adjustments are linked to the fact that the revenue recognition is conditioned to the degree of reliability of the inflow, for an entity, of the cash flows generated from the recognized revenue.

The amounts to be returned arising from the cancellations of sales of ventures not yet delivered are directly deducted from revenues from real estate development. For delivered properties, revenues and costs are reversed; the properties return to the inventory at cost and become available for sale at market value.

**(ii) Selling expenses**

Expenses on advertising, marketing, promotion and other related activities are recognized in the statement of profit or loss under the account "Selling expenses" when actually incurred, according to the accrual basis of accounting and to the period of disclosure.

Expenses on construction of sales stands and show apartments, as well as those related to the acquisition of furniture and decoration of the sales stands and model apartments of real estate projects, are recorded under the account Property, plant and equipment (PPE), as long as the expected term for its use and generation of benefits is over 12 months and are depreciated according to the respective estimated useful life of those items. Expenses on depreciation of these assets are recognized in the account "Selling expenses" and do not affect the determination of the percentage of the real estate ventures' financial development.

Usually, the acquirer of the properties is considered to be responsible for commissions on sales of units, rather than the real estate development company. However, when such charges are paid by the real estate development company, expenses incurred are recorded as advance payments, which are recognized in profit or loss under the caption "Selling expenses", according to the same criteria for recognition of income from and losses on development and sale of real estate, described in Note 3.2. (i).

**(iii) Service rendering, rents and other activities**

The revenues, costs and expenses are recorded according to the accrual basis.

**3.3. Cash and cash equivalents**

These include cash, positive checking account balances, financial investments of immediate liquidity and with an insignificant risk of change in market value, kept to meet the Company's short-term cash commitments and not for investments with other purposes. Financial investments included in cash equivalents are classified as "Financial assets measured at fair value through profit or loss". Restricted financial investments or those maturing in over 90 days are classified as marketable securities. For the periods ended September 30, 2025 and December 31, 2024, the Company had restricted financial investments with maturities over 90 days, and classified as marketable securities in the long term.

**Trisul S.A.**

Notes to the individual and consolidated quarterly information as at September 30, 2025  
(In thousands of Reais, unless otherwise stated)

---

**3.4. Accounts receivable**

They are stated at present and realizable values, recognized according to the criteria described in Note 3.2.

Provisions are recognized for expected credit losses and for contract cancellations at amounts Management considers sufficient when objective evidence exists that the Company will not be able to collect all amounts due according to original terms agreed upon or when evidence exists that the sale may be cancelled.

The classification between current and noncurrent assets is made based on the expected financial flow for the receivables.

**3.5. Properties for sale**

These include plots of land for sale, properties under construction and finished properties. The cost of real estate is composed of expenses on acquisition of land (cash or physical exchange at fair value), materials and applied labor (own or contracted from third parties), expenses on real estate development and finance charges arising from loans and financing related to the ventures incurred during the development and construction period.

The properties for sale are stated at construction cost, which does not exceed their realizable net value. As for real estate under construction, the portion kept in the inventory corresponds to the cost of units not yet sold.

The Company capitalizes finance charges on real estate ventures during the construction phase, paid by means of the housing financing system and other credit lines used to finance construction (limited to the amount of the respective financial expense), and recognized in profit or loss proportionally to units sold, the same criteria applied to other costs.

The classification between current and noncurrent assets is made based on the expectation of the period for launching of the future real estate developments, which is periodically reviewed by means of Management's estimates.

**3.6. Investments**

According to the Technical Pronouncement CPC 18 (R2) - IAS 28 – Investments in Associates and Joint Ventures, the investments in controlled, jointly controlled and associated companies are recorded under the equity method. Under the equity method, the Company's interest in the controlled companies' increase or decrease in equity, after the acquisition, resulting from net profit or loss reported in the period or from earnings/losses on capital reserves, is recognized as operating revenues (or expenses). The effects of these changes after acquisition are adjusted in relation to the investment's cost.

**3.7. Property, plant and equipment (PPE)**

PPE are recorded at acquisition, formation or construction cost, including sales stands and decorated model apartments of the real estate ventures. Depreciation is calculated on a straight-line basis at the average rates mentioned in Note 11. The depreciation of the stands is recorded under the account Selling Expenses.

**3.8. Intangible assets**

Expenses related to the acquisition and implementation of IT systems and software use licenses are recorded at purchase cost, amortized according to the estimated useful lives.

**3.9. Leases**

Management evaluates if a contract is or contains a lease, and whether it assigns a right of controlling the use of identified assets for a period of time in exchange for consideration. Such evaluation is made at initial recognition.

At the beginning of a lease agreement, corporate lessees recognize leasing liabilities for the consideration to be transferred, as well as right-of-use assets representing the right of using the underlying assets during the lease period.

Assets and liabilities are not recognized for contracts with maturity of less than 12 months or for leases of low-value assets. Short-term lease payments and lease payments for low-value assets are recognized as expenses on a straight-line basis over the lease term. The Company also has lease of the head office property and of certain office equipment considered low value. The total rent amount the Company will disburse during the five year term is recorded in PPE, under "Right of use of PPE". Rent future value was calculated at the present value by the average National Treasury Notes (NTN-B) rate.

**3.10. Impairment of nonfinancial assets**

Management reviews the net book value of its main assets, particularly accounts receivable, properties to be sold, PPE, investments and intangible assets, at least annually, for the purpose of evaluating events or changes in economic, operational or technological circumstances that may indicate impairment.

When this evidence is identified and net book value exceeds recoverable value, an impairment charge is recognized, writing the former down to the latter.

The assumptions normally used to calculate the recoverable value of assets are based on expected cash flows and studies into the economic feasibility of the real estate developments, which show the recoverability or market value of the assets, all discounted to present value.

No impairment loss on assets was recorded for the periods ended September 30, 2025 and December 31, 2024.

**3.11. Loans, financing and debentures**

After initial recognition, loans, financing and debentures bearing charges and interest are subsequently measured at amortized cost using the effective interest rate method. Gains and losses are recognized in the statement of profit or loss upon write-off of liabilities, as well as during the amortization process using the effective interest rate method.

**3.12. Provision for warranties**

Limited guarantees for a period of up to five years are offered to cover structural defects in real estate ventures sold.

Certain warranties for the execution of services (responsibilities and costs) are normally performed by subcontractors, therefore reducing the exposure of the Company's cash flow. The estimated amounts to be disbursed are not material. The Company records the best estimate to cover future events of such nature considering the evolution of the real estate projects' financial cost.

**3.13. Creditors from acquired properties and advances from customers**

Obligations for the acquisition of real estate assumed for payment in cash (creditors from acquired properties) are initially recognized at the amounts corresponding to the contractual obligations plus finance charges incurred and the respective write-offs due to the settlement of these obligations.

Obligations for the acquisition of real estate by means of barter of plots of land for real estate units to be built are recorded at fair value and presented as advances from customers. The fair value measurement of barterers is defined in connection with the assumed contractual commitments, whose value determination may vary until the time of defining the project to be developed, which is usually confirmed with the registry of the development. Obligations are written off according to the financial execution of the construction work (recognition of revenue and costs).

Revenue from the sale of properties exceeding the amount recognized, according to the accounting principle described in note 3.2, is recorded in liabilities in the account "Advances from customers".

**3.14. Contingent assets and liabilities and provision for legal claims and administrative proceedings**

The accounting practices for recording and disclosing contingent assets and liabilities and legal obligations are as follows:

- **Contingent assets:** these are recognized only when there are secured guarantees or favorable legal decisions that are already final and unappealable. Contingent assets whose favorable outcome is probable are only disclosed in notes, when applicable;
- **Contingent liabilities:** a provision is recorded for contingent liabilities when the likelihood of loss is probable and the amounts involved can be measured with sufficient certainty. Estimated amounts of possible agreements intended to settle the legal claims before their conclusion in all jurisdictions are also added to the provision. Estimates of losses assessed as possible are disclosed in the quarterly information.

The provision for legal claims and administrative proceedings specifically related to labor, tax and civil matters is set up according to the risk assessment (probable losses) made by legal counselors and management of the Company, including their classification as noncurrent liabilities.

**3.15. Other assets and liabilities (current and noncurrent)**

An asset is recognized in the statement of financial position when it is probable that future economic benefits will be generated in favor of the Company and its cost or value can be determined with certainty. A liability is recognized in the statement of financial position when the Company has a legal or constructive obligation as a result of past events and funds are likely to be necessary to settle it. The related finance charges are added when applicable. Provisions are recorded according to the best estimates of risks involved.

Assets and liabilities are classified as current when their realization or settlement is expected to occur in the following 12 months. Otherwise, they are classified as noncurrent.

**3.16. Discount to present value**

Assets and liabilities resulting from short-term (if material) or long-term transactions, without the expected remuneration or subject to: (i) fixed interest; (ii) interest significantly below market rates for similar transactions; and (iii) transactions adjusted only by inflation, with no interest, are discounted to present value based on the average rate adopted by the Company to offer discounts on the highest between sales prices and its average funding rate.

The discount to present value and the respective reversal of accounts receivable arising from the sale of properties are recorded under "Revenues from real estate sales".

The rate of discount to present value is calculated taking into account the NTN-B and the Company's average funding rate, whichever is higher.

**3.17. Financial instruments**

**Financial assets**

**a) Initial recognition and measurement:**

These instruments are classified at the time of their initial recognition, when the Company becomes a party to contractual provisions of the instruments, which are initially recognized at fair value, plus transaction costs that are directly attributable to the acquisition of the financial asset, in relation to those not designated at fair value through profit or loss. They include cash and cash equivalents (at fair value through profit or loss), accounts receivable, sundry credits and related-party receivables (at amortized cost).

**b) Subsequent measurement:**

Financial assets measured at fair value through profit or loss:

These include financial assets held for trading and financial assets designated upon initial recognition at fair value through profit or loss and are classified as held for trading if acquired with the purpose of short-term sale, presented in the statement of financial position at fair value, with the corresponding gains or losses recognized in the statement of profit or loss.

Cash and cash equivalents and marketable securities:

These include cash amounts, bank checking account balances and financial investment with financial institutions. Financial investments readily convertible into a known amount of cash and subject to an insignificant risk of change in value are considered cash equivalent. If the financial investments do not fulfill those criteria, they are classified as marketable securities, not applicable for the Company.

Loans and receivables:

These are nonderivative financial instruments with fixed or calculable payments that are not quoted on an active market. After initial measurement, these financial assets are accounted for at amortized cost, using the effective interest rate method (effective interest rate), less impairment. The amortization according to the effective interest rate method and impairment are recognized as financial income for the period.

Accounts receivable and expected credit losses:

These consist mostly of amounts receivable from the sale of units, earned along the normal course of activity of the Company, discounted at present values according to the criteria mentioned in Note 3.2.

**c) Derecognition (write-off):**

A financial asset is written off when a) the rights to receive cash flows from the asset expire and b) when the Company has transferred these rights or assumed an obligation to fully pay cash flows received to a third party by means of a transfer agreement, with no significant delay; and (i) the Company has substantially transferred all risks and benefits related to the asset; or (ii) the Company has not substantially transferred or retained all risks and benefits, but has transferred control over the asset. When the Company transfers its rights to receive cash flows from an asset or executes a transfer agreement without having substantially transferred or retained all risks and benefits related to the asset, it will be recognized to the extent there is continuous involvement with this asset. In this case, the Company also recognizes a related liability. The continued involvement in the form of a guarantee on the transferred asset is measured at the original book value of the asset or through the maximum consideration that may be required from the Company, whichever is lower.

**d) Recoverability analysis:**

A financial asset is considered not recoverable if, and only if, there is objective evidence of impairment as a result of one or more events that happened after the initial recognition of the asset, with such event impacting estimated future cash flow that can be reasonably estimated. Evidence of impairment may include indication that borrowers are experiencing significant financial difficulty. The probability that they will file for bankruptcy or undergo any other form of financial reorganization, default or delinquency in the payment of interest or principal may be indicated by a measurable decrease in estimated future cash flows.

**Nonderivative financial liabilities**

The classification of its financial liabilities is determined at their initial recognition. Financial liabilities are initially recognized at fair value plus, in the case of loans, financing and debentures, less the directly related transaction costs. Transaction costs are recognized in the statement of profit or loss of the period according to the contract term. They include trade accounts payable, loans, financing, debentures, creditors from acquired properties and related-party payables. After the initial recognition, loans, financing and debentures are subsequently measured at the amortized cost using the effective interest rate method. Interest expenses on those loans and debentures are recognized in the statement of profit or loss, as financial expenses. When used for the purchase or construction of properties for sale, they are allocated as cost of the mentioned assets.

**Financial instruments – Net presentation**

Financial assets and liabilities are presented net in the statement of financial position only if there is a current and applicable legal right to offset the recognized amounts and intention to simultaneously offset or realize the asset and settle the liability.

**Fair value of financial instruments**

The fair value of financial instruments actively negotiated at organized financial markets is determined based on purchase prices quoted in the market at the reporting date, with no deduction of transaction costs.

**3.18. Taxation**

**Current taxes and contributions**

Brazilian tax legislation allows for revenues from sale of real estate units to be taxed on a cash basis.

Income Tax (IRPJ) and Social Contribution Tax (CSLL) are calculated pursuant to the criteria established by the tax legislation in effect, at the rates of 15%, plus a surtax of 10%, for Income Tax and 9% for Social Contribution Tax. Contributions for the Social Integration Program (PIS) and for Social Security Funding (COFINS) are calculated at the rates of 1.65% and 7.60%, respectively, having right to specific credit calculated at the same rates.

The Company's controlled and associated companies have opted for the taxation regime of deemed profit. For these companies, Income Tax calculation basis is calculated at 8% (real estate development, including monetary adjustment) and 32% (rendering of services and lease), and Social Contribution tax basis at 12% (real estate development), 32% (rendering of services and lease), and 100% on financial revenues, on which the regular Income and Social Contribution tax rates are applied. Regular PIS and COFINS rates are 0.65% and 3.00%, respectively.

Those controlled and associated companies, despite being submitted to the deemed income taxation method, opted for the earmarked assets system. Accordingly, taxation is made in conformity with the Special Tax Regime (RET), through which operating revenues from sale of real estate are taxed at the rate of 4%, 1.92% corresponding to Income and Social Contribution taxes and 2.08% to PIS and COFINS, as defined in Law No. 12.844/13.

**Deferred taxes and contributions**

For companies and activities in which the accounting practice differs from the tax practice, a liability or asset for deferred federal taxes and contributions is calculated to reflect any temporary differences (Note 15). Deferred income tax, social contribution tax, PIS and COFINS liabilities are recognized in current and noncurrent liabilities, according to the classification and projection of the realization of revenues, which arise from the difference between the recognition by the corporate criterion, described in Note 3.2, and the tax criterion under which revenue is taxed upon receipt.

**3.19. Benefits to employees and managers**

The Company does not offer any private pension plans, retirement plans or after employment benefits. The Company offers a profit sharing program linked to the current plan, which is recognized as expense during the effective period against liabilities, when established targets are reached.

**3.20. Basic and diluted earnings per share**

Basic and diluted earnings per share are calculated on the profit or loss for the period attributable to the Company's shareholders and weighted average of outstanding ordinary shares in the respective period (except for treasury shares).

For the periods ended September 30, 2025 and 2024, basic earnings are the same as diluted ones, as mentioned in note 31.

**3.21. Statements of cash flows**

These were prepared using the indirect method and are presented in accordance with Technical Pronouncement CPC 03 (R2) - IAS 7 – Statement of Cash Flows.

**3.22. Statements of value added**

The Statements of value added were prepared according to Technical Pronouncement CPC 09 – Statement of Value Added. Such statements have the purpose of making evident the wealth created by the Company, as well as its distribution during a certain period of time. It is presented as required by the Brazilian corporate law, as part of the quarterly information of the Parent company and as supplementary information to the consolidated quarterly information. The IFRS do not require presentation of these statements.

**4. New or revised pronouncements applied for the first time in 2025**

**1.1. New and revised standards and interpretations already issued and not yet in effect as at September 30, 2025**

For the following standards or amendments, Management has not yet determined whether there will be significant impacts on the Company's financial statements, namely:

- a) Amendments to IAS 21/CPC 02 (R2) - they require the disclosure of information that enables the users of the financial statements to understand the impact of a currency not being exchangeable – effective for periods beginning on or after 01/01/2025;
- b) Amendments to IFRS 7/CPC 40 (R1) and IFRS 9/CPC 48 - Classification and measurement of financial instruments and agreements related to nature-dependent electricity - effective for periods beginning on or after 01/01/2026;
- c) Amendments to IFRS 7/CPC 40 (R1) and IFRS 9/CPC 48 - these may significantly affect how entities account for derecognition of financial liabilities and how financial assets are classified when using electronic transfer systems for settlement - effective for periods beginning on or after 01/01/2026;
- d) IFRS 18 Presentation and Disclosure in Quarterly Information.

The new standard issued by IASB in April 2024 replaces IAS 1/CPC 26 R1 and it will result in major amendments to IFRS, including IAS 8 Basis of preparation for the quarterly information (renamed Accounting Policies, Changes in Accounting Estimates and Errors). Despite IFRS 18 having no effect on recognition and measurement of items for the consolidated quarterly information, it is expected to have significant effect on the presentation and disclosure of some items. These changes include categorization and subtotal in the statement of profit or loss, inclusion/exclusion and labeling of information and disclosure of performance measures defined by Management. A correlated standard was still not issued in Brazil - effective for periods beginning on or after 01/01/2027;

- e) Amendments to IFRS 19 - Subsidiaries without Public Accountability: Disclosures - They allow eligible subsidiaries to apply the Accounting Standards in IFRS with reduced disclosure requirements of IFRS 19 - effective for periods beginning on or after 01/01/2027;

The Company is currently evaluating the impact of these new accounting standards and amendments. As for the amendments to IFRS 19, the Company does not expect to be eligible to apply reduced disclosure requirements.

**Trisul S.A.**

Notes to the individual and consolidated quarterly information as at September 30, 2025  
(In thousands of Reais, unless otherwise stated)

**5. Cash and cash equivalents**

These are as follows:

| Description            | Parent company |                | Consolidated   |                |
|------------------------|----------------|----------------|----------------|----------------|
|                        | 09/2025        | 12/2024        | 09/2025        | 12/2024        |
| Cash                   | 24             | 24             | 27             | 32             |
| Bank checking accounts | 170            | 367            | 18,627         | 34,254         |
| Financial investments  | 234,915        | 122,426        | 559,904        | 415,483        |
|                        | <b>235,109</b> | <b>122,817</b> | <b>578,558</b> | <b>449,769</b> |

Financial investments classified as cash and cash equivalents have immediate liquidity and are mainly represented by Bank Certificates of Deposit (CDB) and investment fund shares, bearing interest at the approximate rate of Interbank Deposits (CDI).

**5.1. Marketable securities**

These are as follows:

| Description                              | Parent company |               | Consolidated  |               |
|------------------------------------------|----------------|---------------|---------------|---------------|
|                                          | 09/2025        | 12/2024       | 09/2025       | 12/2024       |
| Real Estate Receivables Certificates (a) | 27,250         | 21,681        | 27,250        | 21,681        |
| Restricted accounts (b)                  | -              | -             | 13,493        | 20,382        |
|                                          | <b>27,250</b>  | <b>21,681</b> | <b>40,743</b> | <b>42,063</b> |
| Current                                  | -              | -             | 13,493        | 20,382        |
| Noncurrent                               | 27,250         | 21,681        | 27,250        | 21,681        |

(a) Balance of shares of Real Estate Receivables Certificates (CRI) classified as noncurrent assets, its returns are adjusted by variation of the Amplified Consumer Price Index (IPCA) plus 16.00% p.a.

(b) These correspond to amount withheld by Caixa Econômica Federal until all contractual requirements of the clients' financing are fulfilled. After the fulfillment, which usually takes 45 days, these amounts become available in the Company's bank checking accounts.

**6. Accounts receivable**

These comprise:

| Description                                                     | Parent company |               | Consolidated     |                |
|-----------------------------------------------------------------|----------------|---------------|------------------|----------------|
|                                                                 | 09/2025        | 12/2024       | 09/2025          | 12/2024        |
| Committed purchasers of real estate (a)                         | -              | -             | 1,150,927        | 985,305        |
| Receivables from services                                       | 148            | 307           | 148              | 307            |
| Receivables from home equity (b)                                | 86,489         | 49,315        | 86,551           | 49,315         |
| (-) Discount to present value (c)                               | -              | -             | (28,127)         | (29,485)       |
| (-) Provision for credit risk and cancellation of contracts (d) | -              | -             | (55,503)         | (66,156)       |
| <b>Total</b>                                                    | <b>86,637</b>  | <b>49,622</b> | <b>1,153,996</b> | <b>939,286</b> |
| Current                                                         | 18,603         | 10,466        | 961,741          | 786,439        |
| Noncurrent                                                      | 68,034         | 39,156        | 192,255          | 152,847        |

(a) The Company and its controlled companies adopt the procedures described in Note 3.2 for the accounting recognition of the income earned from operations with real estate development and sale of properties. As a result of the provisions, the balance of accounts receivable from real estate units sold and not yet completed (Note 17) is not fully reflected in the Company's interim information, since its recording is limited to the portion of revenue recognized in the accounting books, net of installments already received;

(b) Type of loan in which the client offers their property or that of third parties as collateral;

(c) Present value calculation is usually applied to accounts receivable due before delivery of the keys, arising from the sale of units of unfinished real estate developments. The average rate used to calculate the discount to present value for the year ended September 30, 2025, was 7.90% p.a. (6.92% p.a. as at December 31, 2024). For the debt balance arising from installment sales of units of completed real estate developments and for the debt balance due after delivery of the keys, arising from the sale of units of unfinished real estate developments, the interest rates provided for in the contracts are compatible with market rates applicable to similar trades.

(d) The provision for credit risks arises from the adoption of CPC 48/IFRS 9, which included the provision for expected loss, the provision for cancellation of contracts, in accordance with CVM Letter No. 02/2018, which considers predictive adjustments to revenue recognition.

**Trisul S.A.**

Notes to the individual and consolidated quarterly information as at September 30, 2025  
(In thousands of Reais, unless otherwise stated)

Trade accounts receivable during the construction phase of the real estate ventures are adjusted based on the Brazilian Construction Cost Index (INCC). After the delivery of the keys (finished real estate developments), the outstanding installments of sales price are usually adjusted at the General Market Price Index (IGP-M) plus market interest.

Trade accounts receivable bearing interest below market rates for similar transactions and/or transactions adjusted only by inflation, with no interest, are discounted to present value based on the average rate adopted by the Company to offer discounts on the highest between sales prices and its average funding rate.

As at September 30, 2025 and December 31, 2024, the consolidated balance of accounts receivable, of the current and noncurrent portion, was distributed as follows:

|                                                         | 09/2025          | 12/2024          |
|---------------------------------------------------------|------------------|------------------|
| <b>Overdue:</b>                                         |                  |                  |
| Up to 90 days (a)                                       | 44,655           | 72,708           |
| From 91 to 180 days                                     | 11,021           | 8,833            |
| From 181 to 360 days                                    | 7,002            | 19,045           |
| More than 360 days                                      | 15,663           | 28,413           |
|                                                         | <b>78,341</b>    | <b>128,999</b>   |
| <b>Falling due:</b>                                     |                  |                  |
| Up to 90 days                                           | 497,196          | 201,082          |
| From 91 to 180 days                                     | 358,252          | 130,117          |
| From 181 to 360 days                                    | 97,072           | 412,695          |
| More than 360 days                                      | 206,765          | 162,034          |
|                                                         | <b>1,159,285</b> | <b>905,928</b>   |
|                                                         | <b>1,237,626</b> | <b>1,034,927</b> |
| Provision for credit risk and cancellation of contracts | (55,503)         | (66,156)         |
| Discount to present value                               | (28,127)         | (29,485)         |
|                                                         | <b>(83,630)</b>  | <b>(95,641)</b>  |
|                                                         | <b>1,153,996</b> | <b>939,286</b>   |

- (a) As at September 30, 2025, of total securities overdue, representing 6.33% of total portfolio, approximately 3.26% refer to clients that are in the analysis phase for obtaining bank financing for subsequent transfer.

As supplementary information, the balance of financial accounts receivable from committed purchasers of real estate properties, considering the ones not yet realized and not reflected in the interim information (Note 17), added to the book balance as at September 30, 2025 and December 31, 2024, already deducted from the installments received, is as follows:

| Description                          | 09/2025          | 12/2024          |

(a) This refers to a contingent asset arising from a final and unappealable proceeding, awaiting legal procedures for effective receipt.

**8. Properties for sale**

These are represented by the costs of acquiring land for future real estate developments (through exchanges or payment in cash), costs incurred with real estate units under construction and cost of finished real estate units, as follows:

| <b>Description</b>                      | <b>Parent company</b> |                | <b>Consolidated</b> |                  |

| <b>Total</b>                            | <b>12,300</b>         | <b>8,082</b>   | <b>1,459,063</b>    | <b>1,351,094</b> |
| Current                                 | 12,300                | 8,082          | 1,443,431           | 996,887          |
| Noncurrent                              | -                     | -              | 15,632              | 354,207          |

The Company conducts a feasibility study on the plots of land acquired. There is no plot of land with negative margin and there is also no history of selling units in inventory below cost, the reasons why no provision for losses was set up.

**9. Related-party transactions****9.1. Balances of related-party transactions**

During the quarter, there was a sale of properties to natural persons managers/shareholders that generated R\$ 18,470 of revenues and R\$ 12,918 of costs.

**Trisul S.A.**

Notes to the individual and consolidated quarterly information as at September 30, 2025  
(In thousands of Reais, unless otherwise stated)

The Company participates in the development of real estate ventures along with other partners by means of direct interest or through related parties, in which it holds ownership interest, and of separate corporate structures. The management structure of these ventures and the management of cash are centralized in the leader company of the venture, which inspects the development of the construction works and budgets. Therefore, the company leading the project ensures the investment of the necessary funds, as well as their allocation in accordance with the plans. The origin and investment of the venture's funds are reflected in these balances, according to the respective percentage of ownership interest, which are not subject to adjustments or finance charges and have no previously established maturity. The average term for the progress and conclusion of the developments where the funds are applied is three years, always based on the project and on physical and financial schedules of each development. This method to allocate the funds allows business conditions agreed upon with each partner and for each development to concentrate on specific structures, more adequate to their characteristics.

The balances of related-party transactions arising from real-estate ventures with partners and separate corporate structures are stated as follows:

**Noncurrent assets**

| Current            | 72,410                             | 34,735         |
| Noncurrent         | 416,448                            | 394,552        |

The breakdown of the noncurrent portion, as at September 30, 2025, per year of maturity is as follows:

| <b>Year of maturity</b> | <b>Parent company/Consolidated</b> |
|-------------------------|------------------------------------|
| 2026 (as from October)  | 35,283                             |
| 2027                    | 132,336                            |
| 2028                    | 101,565                            |
| 2029                    | 101,708                            |
| 2030                    | 45,556                             |
| <b>Total</b>            | <b>416,448</b>                     |

In October 2022, the Company conducted the 9th issue of private simple debentures, through the issue of one hundred eighty thousand (180,000) simple debentures for public distribution with restrict efforts, not convertible into shares, secured, book-entry, and registered with no issue of certificates, in 2 series and with unit value of one thousand Reais (R\$ 1).

The nominal value of the debentures shall be paid in five biannual, equal and consecutive installments, with the first payment to be made in December 2025 and the last expected to be settled in December 2027.

The interest rate of the 1st series debentures is 1.70% p.a. plus the CDI variation, and the interest rate of the 2nd series debentures is 7.8381% p.a. plus IPCA variation. Interest is paid monthly.

In August 2024, the Company conducted the 10th issue of private simple debentures, through the issue of two hundred fifty thousand (250,000) simple debentures for public distribution with restrict efforts, not convertible into shares, secured, book-entry, and registered with no issue of certificates, in 2 series and with unit value of one thousand Reais (R\$ 1).

The nominal value of the debentures shall be paid in six biannual, equal and consecutive installments, with the first payment to be made in August 2027 and the last expected to be settled in February 2030.

**Trisul S.A.**

Notes to the individual and consolidated quarterly information as at September 30, 2025  
(In thousands of Reais, unless otherwise stated)

The interest rate of the 1st series debentures is 1.35% p.a. plus the CDI variation, and the interest rate of the 2nd series debentures is 7.494% p.a. plus IPCA variation. Interest is paid monthly.

In July 2025, the Company conducted the 11th issue of private simple debentures, through the issue of fifty thousand (50,000) simple debentures for public distribution with restrict efforts, not convertible into shares, secured, book-entry, and registered with no issue of certificates, in a single series and with unit value of one thousand Reais (R\$ 1).

The nominal value of the debentures shall be paid in five biannual, equal and consecutive installments, with the first payment to be made in July 2027 and the last expected to be settled in July 2029.

The return rate of the debentures is 1.35% p.a. plus CDI variation. Interest is paid every six months.

The debentures from the 9th, 10th and 11h issues have restrictive clauses related to financial and economic indexes. As at September 30, 2025, the Company is compliant with all clauses on early maturity.

**14. Labor and tax liabilities**

These represent current labor and tax liabilities, as follows:

| Description                   | Parent company |               | Consolidated  |               |
|-------------------------------|----------------|---------------|---------------|---------------|

| Social charges                | 794            | 705           | 1,622         | 2,059         |
| Labor provisions              | 4,411          | 2,506         | 4,446         | 4,638         |
| <b>Total</b>                  | <b>13,261</b>  | <b>13,068</b> | <b>21,511</b> | <b>22,895</b> |

**15. Current and deferred Income and Social Contribution Taxes**

Deferred income tax, social contribution tax, PIS and COFINS are recorded to reflect the tax effects resulting from temporary differences between the tax basis, which determines the taxation according to the receipts from sales of properties (Regulatory Instruction No. 84/79 of the Brazilian Revenue Service - SRFB), and the effective recognition of real estate income as described in Note 3.2.

**Trisul S.A.**

Notes to the individual and consolidated quarterly information as at September 30, 2025  
(In thousands of Reais, unless otherwise stated)

**15.1. Reconciliation of income and social contribution taxes**

The reconciliation of Income and Social Contribution tax amounts can be stated as follows:

|                                                                                             | Parent company  |                 | Consolidated    |                 |

| Net effect of controlled companies taxed at deemed profit and Special Taxation Regime (RET) | -               | -               | 29,590          | 13,066          |
| Effective rate                                                                              | -               | -               | <b>16.89%</b>   | <b>22.02%</b>   |
| Income and Social Contribution Taxes in profit or loss                                      | -               | <b>(59)</b>     | <b>(29,217)</b> | <b>(24,006)</b> |
| Current                                                                                     | -               | -               | (23,870)        | (21,704)        |
| Deferred                                                                                    | -               | (59)            | (5,347)         | (2,302)         |

Trisul S.A. (parent company), submitted to the taxable income scheme, did not account for deferred income and social contribution tax assets on tax losses because it has no history of taxable income. We point out that the Company does not expect to generate future taxable income due to the operating activity of the holding company; accordingly, Management has not recognized a provision for the deferred income tax, in accordance with CPC Technical Pronouncement 32 - IAS 12 - Taxes on income.

**15.2. Breakdown of deferred taxes and contributions****Liabilities**

| Description  | Parent company |          | Consolidated  |               |

**16. Creditors from acquired properties**

These represent the obligations arising from the acquisition of plots of land for real estate development, as follows:

| Description  | Parent company |         | Consolidated   |                |
|--------------|----------------|---------|----------------|----------------|
|              | 09/2025        | 12/2024 | 09/2025        | 12/2024        |
| Current      | -              | -       | 73,422         | 34,476         |
| Noncurrent   | -              | -       | 211,275        | 108,215        |
| <b>Total</b> | -              | -       | <b>284,697</b> | <b>142,691</b> |

The breakdown of the noncurrent portion, as at September 30, 2025, per year of maturity is as follows:

| Year of maturity       | Consolidated   |
|------------------------|----------------|
| 2026 (as from October) | 4,156          |
| 2027                   | 18,977         |
| 2028                   | 15,551         |
| 2029                   | 172,591        |
| <b>Total</b>           | <b>211,275</b> |

The financial settlement of the liabilities is distributed as follows:

| Year of maturity          | Consolidated   |
|---------------------------|----------------|
| Disbursements in cash (a) | 36,109         |
| Financial barter (b)      | 248,588        |
| <b>Total</b>              | <b>284,697</b> |

- (a) Creditors from acquired properties are substantially adjusted based on the variation of INCC, Extended Consumer Price Index (IPC-A) or based on IGP-M plus interest, where applicable.
- (b) Financial barter transactions are aimed at property acquisition for the purposes of structuring, development, incorporation, exploring and trade of real estate ventures, usually made by the Company through SPEs and Investment Funds. The agreements provide for the compensation to other shareholders, regarding a percentage of net revenue calculated with the trade of autonomous units of ventures based on each agreement, to be paid as the gross revenue is received, being all agreements on a cash basis.

In case of noncompliance of assumed obligations, the transactions have private instrument of guarantee, which provides for disposal of the Company's share interest in SPEs as private guarantee.

**17. Real estate sale transactions to incur**

As mentioned in Note 3.2, income from real estate transactions is recognized based on incurred cost. Accordingly, the balance of receivables from units sold and not yet completed is partly reflected in the Company's quarterly information, as its accounting record reflects the revenue recognized, net of the installments already received.

**Trisul S.A.**

Notes to the individual and consolidated quarterly information as at September 30, 2025  
(In thousands of Reais, unless otherwise stated)

Gross revenue to be recognized arising from real estate units sold of properties under construction (not completed) and the corresponding commitments of the costs to be incurred regarding units sold and in inventory are not reflected in the quarterly information.

The main balances to be recognized related to ventures launched and under construction are as follows:

|                                                                   | 09/2025          | 12/2024          |
|-------------------------------------------------------------------|------------------|------------------|
| <b>Unrecognized revenue from units sold (a)</b>                   |                  |                  |
| Revenue from contracted sales                                     | 3,270,956        | 2,802,668        |
| Recognized sales revenue, net of contract cancellations           | (2,244,510)      | (1,895,871)      |
|                                                                   | <b>1,026,446</b> | <b>906,797</b>   |
| <b>Unrecognized budgeted cost of units sold (b)</b>               |                  |                  |
| Budgeted cost of units sold                                       | (2,079,042)      | (1,762,739)      |
| Incurred cost, net of contract cancellations                      | 1,413,845        | 1,186,914        |
|                                                                   | <b>(665,197)</b> | <b>(575,825)</b> |
| <b>Unrecognized income from real estate units sold</b>            | <b>361,249</b>   | <b>330,972</b>   |
| <b>Budgeted cost of real estate units in inventory</b>            |                  |                  |
| Total budgeted cost                                               | 3,658,464        | 2,695,349        |
| Incurred cost                                                     | (2,249,520)      | (1,737,764)      |
| Cost to be incurred of units sold                                 | (665,197)        | (575,825)        |
| <b>Unrealized budgeted cost of real estate units in inventory</b> | <b>743,747</b>   | <b>381,760</b>   |

- (a) Gross revenue from the sale of unearned properties does not include discount to present value;  
(b) Cost of unearned sale of property does not include finance charges and provision for guarantee, which are recognized in the statement of profit or loss (cost of real estate sold), in proportion to the real estate units sold, when incurred. The amount of R\$ 324,591 corresponds to the cost to be realized in 12 months (short-term).

## 18. Special Tax Regime (RET)

The Company presents below a table showing the percentage of assets related to the ventures of its controlled companies that are included in structures of equity segregation of real estate development according to Law No. 10.931/04, as at September 30, 2025.

|                                                                                      |               |
|--------------------------------------------------------------------------------------|---------------|
| Total assets included in structures of equity segregation of real estate development | 2,497,482     |
| Total consolidated assets                                                            | 3,497,705     |
| <b>Percentage</b>                                                                    | <b>71.40%</b> |

## 19. Advances from customers

Customers' receipts in amounts higher than those of receivable balances arising from the sale of properties, as described in Note 3.2, are recorded as customers' advances under current liabilities.

In certain land acquisition transactions, the Company conducted barter with units to be built. These barter were recorded at fair value as inventory of land for development against advances from customers, considering the sale value of real estate units given as dation in payment, and recognized in the statement of profit or loss considering the same assumptions used for recognition of sales of real estate units, described in Note 3.2:

| Year of maturity | Consolidated  |
|------------------|---------------|
| 2027             | 2,603         |
| 2028             | 8,183         |
| 2029             | 4,697         |
| <b>Total</b>     | <b>15,483</b> |

## 20. Provisions

### 20.1. Provision for legal claims and administrative proceedings

During the normal course of its business, the Company and its controlled companies are exposed to certain risks, which include tax, labor and civil proceedings under dispute:

The provisions for tax risks are considered sufficient to cover any questioning about the criteria used for calculating federal taxes.

The Company and its controlled companies have recorded the following provisions to cover possible lawsuits:

| Description  | Consolidated  |              |
|--------------|---------------|--------------|
|              | 09/2025       | 12/2024      |
| Civil (a)    | 11,638        | 6,501        |
| Labor (b)    | 1,212         | 1,212        |
| <b>Total</b> | <b>12,850</b> | <b>7,713</b> |

(a) Provision for risks from civil proceedings filed by customers concerning contractual amounts charged and late payments;

(b) Provision for risks related to claims filed by former employees and third parties.

The changes in the provision for contingencies during the period ended September 30, 2025, are summarized below:

|                                         | Consolidated  |
|-----------------------------------------|---------------|
| Balance as at December 31, 2024         | 7,713         |
| Addition/(reversal) of provision        | 14,643        |
| (-) Write-off due to payment            | (9,506)       |
| <b>Balance as at September 30, 2025</b> | <b>12,850</b> |

The Company and its controlled companies have civil, labor and tax proceedings under dispute, whose risk of loss is classified as possible by its legal counsel, and whose total amounts as at September 30, 2025, to approximately R\$ 93,862 (R\$ 74,638 as at December 31, 2024).

**Trisul S.A.**

Notes to the individual and consolidated quarterly information as at September 30, 2025  
(In thousands of Reais, unless otherwise stated)

Additionally, the Company and its controlled companies have court deposits to cover probable and possible claims under discussion in the consolidated amount of R\$ 4.960 (R\$ 4,722 as at December 31, 2024) - (Note 7).

**20.2. Accounts payable**

They represent obligations assumed by the Company, as follows:

| <b>Description</b>                      | <b>Parent company</b> |                | <b>Consolidated</b> |                |
|-----------------------------------------|-----------------------|----------------|---------------------|----------------|

| Right of use of property                | 10,573                | 12,479         | 10,573              | 12,479         |
| Municipal fee of building potential     | -                     | -              | 655                 | 11,030         |
| Provision for warranties <sup>(1)</sup> | -                     | -              | 31,733              | 29,882         |
| Contract termination (cancellation)     | -                     | -              | 8,894               | 11,631         |
| Lawyers' fees                           | 206                   | 204            | 800                 | 676            |
| Home Equity Contracts                   | 4,419                 | 8,336          | 4,419               | 8,336          |
| Other accounts                          | 2                     | 2              | 1,286               | 2,958          |
| <b>Total</b>                            | <b>15,200</b>         | <b>21,021</b>  | <b>58,360</b>       | <b>76,992</b>  |
| Current                                 | 7,960                 | 11,781         | 46,067              | 52,314         |
| Noncurrent                              | 7,240                 | 9,240          | 12,293              | 24,678         |

<sup>(1)</sup>The Company provides warranties for possible technical construction problems which may arise in real estate ventures sold, limited to the contractual period as from the completion of the construction work (normally five years). The provision for warranty on properties sold is recognized with an offsetting entry to cost of real estate sold (profit or loss) as the costs of units sold incur, and it is calculated according to the best estimate to cover the future disbursements of such nature, taking into consideration the history of incurred expenses of this type.

The breakdown of the noncurrent portion, as at September 30, 2025, per year of maturity is as follows:

| <b>Year of maturity</b> | <b>Consolidated</b> |
|-------------------------|---------------------|
| 2026 (as from October)  | 2,388               |
| 2027                    | 4,177               |
| 2028                    | 5,420               |
| 2029                    | 308                 |
| <b>Total</b>            | <b>12,293</b>       |

**21. Equity****21.1. Capital stock**

As at September 30, 2025, and December 31, 2024, the Company's fully subscribed and paid-in and capital stock is R\$ 866,080, represented by 186,617,538 registered, common, book-entry shares without par value.

**21.2. Expenses on issue of shares**

The amount of (R\$ 24,585) refers to transactions costs incurred in the raising of funds resulting from the initial public offering of common shares of the Company, whose process was concluded during September 2019.

**Trisul S.A.**

Notes to the individual and consolidated quarterly information as at September 30, 2025  
(In thousands of Reais, unless otherwise stated)

---

**21.3. Capital reserves**

These are represented by a goodwill reserve as of initial payment of capital of the Company amounting to R\$ 2,420, by the accounting record of the stock option plan amounting to R\$ 3,266, complying with CPC technical pronouncement 10 - IFRS 2 - Share-based payments, approved by CVM Resolution No. 562/08, and by goodwill in the disposal of shares previously held in treasury, amounting to R\$ 6,943, totaling R\$ 12,629.

**21.4. Income reserves and dividends policy**

The statutory reserve is recognized at the rate of 5% of annual net profit, after offsetting accumulated losses, pursuant to article 193 of Law No. 6.404/76 up to the limit of 20% of capital stock.

The right to dividends of not less than 25% is ensured for holders of common shares, calculated based on the net profit for the year and adjusted according to the law.

For the year ended December 31, 2024, it was proposed that minimum dividends of R\$ 40,745 be paid during 2025. In the Annual General Meeting (AGO) held on 04/25/2025, minimum dividends were ratified, and it was proposed that additional dividends of R\$ 13,255 be added, totaling R\$ 54,000, already paid.

Appropriated retained earnings represent remaining income, after the recognition of the statutory reserve and proposed distribution of dividends, which are withheld to cover assumed liabilities and for investments and expansion of the Company.

**21.5. Treasury shares**

At the meeting of the Board of Directors held on September 12, 2024, a new program for the repurchase of the Company's shares was approved, up to the limit of seven million (7,000,000) common, registered, book-entry shares, with no par value, with term of up to eighteen (18) months from the date of approval.

The Repurchase Program intends to maximize value for the Company's shareholders, considering the value of the Company's share price in B3 Stock Exchange. Such shares can be held in treasury or cancelled.

The treasury shares are recognized at cost and deducted from equity. No gain or loss is recognized in the statement of profit or loss upon the purchase, sale, issue or cancellation of the Company's own equity instruments.

As at September 30, 2025, and December 31, 2024, the balance of shares in treasury amounts to R\$ 46,645, represented by 7,000,000 shares.

**26. Management and Board Members' Compensation**

The amounts recorded as compensation of the Company's Management (Note 23) and Board Members are stated below:

| <b>As at September 30, 2025</b>  | <b>Statutory Executive Board</b> | <b>Board of Directors</b> | <b>Total</b> |
|----------------------------------|----------------------------------|---------------------------|--------------|
| Number of members                | 3                                | 6                         |              |
| <b>Fixed annual compensation</b> | 4,139                            | 1,812                     | 5,951        |
| Salaries/management fees         |                                  |                           |              |
|                                  |                                  |                           |              |
| <b>As at September 30, 2024</b>  | <b>Statutory Executive Board</b> | <b>Board of Directors</b> | <b>Total</b> |
| Number of members                | 3                                | 6                         |              |
| <b>Fixed annual compensation</b> |                                  |                           |              |
| Salaries/management fees         | 2,482                            | 1,284                     | 3,766        |

The annual global compensation limit for the Company's Management for the performance of its duties, for calendar year 2025, was established at up to R\$ 8.000, as proposed by the Board of Directors and ratified at the Annual General Meeting held on April 25, 2025.

**27. Profit sharing**

The Company has a profit sharing plan that provides its employees and those of its controlled companies with the entitlement of profit sharing of the Company, linked to the achievement of specific objectives, which are established and agreed at the beginning of each year. As at September 30, 2025, the amount of R\$ 7,404 (Note 14) is provisioned, classified in the group administrative expenses on personnel (R\$ 5,207 as at September 30, 2024).

**28. Financial instruments and risk management**

The Company and its controlled companies are exposed to the following risks:

- Interest risk – interest rate fluctuations and indexes of loans and financing;

**Trisul S.A.**

Notes to the individual and consolidated quarterly information as at September 30, 2025  
(In thousands of Reais, unless otherwise stated)

---

- Credit risk - possibility of loss of cash flow from customer contracts (accounts receivable);
- Liquidity risk - possibility of not being able to honor its obligations;
- Capital management risk - its going concern capacity to provide returns to shareholders and benefits to other stakeholders.

The Company's and its controlled Management companies analyzes that the activities in which financial risks are assumed are governed by appropriate policies and procedures and that financial risks are identified, evaluated and managed in accordance with the Company's and its controlled companies' risk policies and provisions.

The Company and its controlled companies do not engage in any trading of derivatives or other risk assets for speculation purposes.

**a) Interest risk**

This interest risk is related to the possibility of loss due to rate fluctuations or index mismatches of the asset and liability portfolios. The index for the financial investments is CDI. For the accounts receivable from the sale of real estate units, the index used until the delivery of the keys is the fluctuation in INCC, and after that the IGP-M is considered for adjusting the balance until the end of the contract plus market interest.

The liability positions of the Company and its controlled companies are basically represented by loans and financing for real estate and working capital, which bear fixed interest rates plus the CDI variation or Benchmark Rate (TR), and by debentures, which bear fixed interest rates plus the CDI variation. The Company carries out market studies and places itself in order to assume any mismatches between these indicators.

**b) Credit risk**

The Company and its controlled companies maintain bank checking accounts and financial investments of their funds in financial institutions approved by Management according to objective criteria (solidity and analysis of charged fees) for diversification of credit risks.

To manage losses on accounts receivable, the Company and its controlled companies analyze credit, liquidity and financial exposures that may compromise the financial capacity of potential buyers to honor their commitments to acquire the properties. These analyses are based on supporting documentation and internal analysis model.

**c) Liquidity risk**

In the Company and its controlled companies, this risk is minimized by the comparison of terms and amortization flows between issued notes and acquired backing.

The projected cash flow is realized by real estate venture by the Finance and Treasury Departments. Thus, the continuous forecasts of the Company's and its controlled companies' liquidity requirements are monitored and controlled to ensure they have enough cash to meet their operating needs.

**Trisul S.A.**

Notes to the individual and consolidated quarterly information as at September 30, 2025  
(In thousands of Reais, unless otherwise stated)

**d) Sensitivity analysis**

The Company and its controlled companies carried out a sensitivity analysis of the main risks their financial instruments are exposed to, mainly represented by fluctuations on inflation rates (INCC and IGPM) and on interest rate (CDI and TR). Based on the CDI projection (source B3 - BM&FBOVESPA Benchmark Rate) and the projections for INCC (source Itaú BBA), IGPM (Source Focus - Central Bank of Brazil), the Company considered this information for the probable scenario. Increasing and decreasing scenarios of 25% and 50% on Net Assets and Liabilities were calculated. The probable scenario adopted by the Company and its controlled companies corresponds to the projections described above, and the sensitivity analysis is as follows:

| INDEX | 50%<br>decrease | 25%<br>decrease | Probable<br>scenario | 25%<br>increase | 50%<br>increase |
|-------|-----------------|-----------------|----------------------|-----------------|-----------------|
| CDI   | 7.50%           | 11.25%          | 15.00%               | 18.75%          | 22.50%          |

Notes to the individual and consolidated quarterly information as at September 30, 2025  
(In thousands of Reais, unless otherwise stated)

---

The market values informed as at September 30, 2025 and 2024, do not reflect subsequent changes in the economy, such as interest and tax rates and other variables that may affect its determination. Regarding disclosure, the Company follows hierarchy-related requirements that involve the following aspects:

- Definition of fair value is the value for which an asset may be traded, or at which a liability between the parties may be settled, on an arm's length basis;
- Three-level hierarchy for measurement of fair value, according to observable inputs for valuation of an asset or liability as at the measurement date.

The classification into three hierarchy levels for measuring fair value is based on observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions.

These two types of inputs create the fair value hierarchy presented next:

- Level 1 - prices quoted on active markets for identical instruments;
- Level 2 - prices quoted on active markets for similar instruments, prices quoted on markets that are not active for identical or similar instruments, and valuation models for which there are observable inputs; and
- Level 3 – instruments whose relevant inputs are unobservable. The Company's financial assets are broken down below according to the general classification of these instruments into the hierarchy:

|                                                                                            | <b>Hierarchy<br/>level</b> | <b>09/2025</b> | <b>12/2024</b> |
|--------------------------------------------------------------------------------------------|----------------------------|----------------|----------------|
| Assets                                                                                     |                            |                |                |
| Financial assets measured at fair value through profit or loss – Cash and cash equivalents | 2 (a)                      | <u>578,558</u> | <u>449,769</u> |

(a) Fair value through quoted prices of similar financial instruments in non-active markets.

e) Capital management

The Company's purpose in managing its capital are guaranteeing its going concern capacity in order to bring gains to shareholders and benefits to the other interested parties, in addition to keeping an ideal capital structure for reducing costs.

In order to keep or adjust its capital structure, the Company may review its policy on the payment of profits and dividends, return capital to shareholders, or even issue new shares or sell assets in order to reduce indebtedness levels, for example.

In line with other companies in the industry, the Company monitors capital based on indebtedness, which corresponds to net debt divided by equity. Net debt corresponds to total long- and short-term loans and debentures, as shown in the consolidated statement of financial position, less the amount of cash and cash equivalents.

**Trisul S.A.**

Notes to the individual and consolidated quarterly information as at September 30, 2025  
(In thousands of Reais, unless otherwise stated)

The indebtedness as at September 30, 2025 and December 31, 2024, according to the consolidated quarterly information, is summarized as follows:

|                                                          | 09/2025        | 12/2024        |
|----------------------------------------------------------|----------------|----------------|
| Loans and financing – Current and noncurrent (Note 13.1) | 568,698        | 392,431        |
| Debentures - Current and noncurrent (Note 13.2)          | 488,858        | 429,287        |
| Cash and cash equivalents (Note 5)                       | (578,558)      | (449,769)      |
| <b>Net debt</b>                                          | <b>478,998</b> | <b>371,949</b> |
| Total equity                                             | 1,615,943      | 1,488,057      |
| Indebtedness - %                                         | 29.64%         | 25.00%         |

f) Classification of financial instruments

The Company's and its controlled companies' financial instruments are classified as follows:

|                                                      | Parent company |         | 09/2025   | 12/2024 | Classification                    |
|------------------------------------------------------|----------------|---------|-----------|---------|-----------------------------------|
|                                                      | 09/2025        | 12/2024 |           |         |                                   |
| Financial assets                                     |                |         |           |         |                                   |
| Cash and cash equivalents (Note 5)                   | 235,109        | 122,817 | 578,558   | 449,769 | Fair value through profit or loss |
| Accounts receivable (Note 6)                         | 86,637         | 49,622  | 1,153,996 | 939,286 | Amortized cost                    |
| Related-party transactions (Note 9.1)                | 237,717        | 159,640 | 29,034    | 22,451  | Amortized cost                    |
| Sundry credits (Note 7)                              | 9,146          | 8,313   | 41,175    | 37,757  | Amortized cost                    |
| Financial liabilities                                |                |         |           |         |                                   |
| Trade accounts payable                               | 3,254          | 2,399   | 78,094    | 72,137  | Amortized cost                    |
| Loans and financing (Note 13.1)                      | -              | -       | 568,698   | 392,431 | Amortized cost                    |
| Debentures (Note 13.2)                               | 488,858        | 429,287 | 488,858   | 429,287 | Amortized cost                    |
| Related-party transactions (Note 9.1)                | 58,335         | 214,302 | 1,437     | 725     | Amortized cost                    |
| Creditors from acquired properties (Note 16)         | -              | -       | 284,697   | 142,691 | Amortized cost                    |
| Accounts payable (other than provision for warranty) | 15,200         | 21,021  | 26,627    | 47,110  | Amortized cost                    |

The Company and its controlled companies manage the liquidity risk by maintaining reserves and bank credit lines deemed adequate, through continuous monitoring of forecasts and actual cash flow and the combination of the maturities of financial assets and liabilities.

## 29. Insurance

As at September 30, 2025, the Company and its controlled companies maintain the following insurance contracts at amounts considered compatible by Management with the risks involved:

### Engineering (approximate coverage amount (R\$ 1,452,096))

- **Civil liability:** coverage for material and bodily damage caused involuntarily to third parties resulting from the execution of the work, installations and assemblies in the place covered by the insurance;
- **Physical damage to the property (financed construction work):** coverage for damages, losses and material damage resulting from accidents of sudden and unforeseen origin to the property;
- **Insurance for completion of construction work** guarantees the delivery of the construction work to committed buyers;
- **Sales stands:** fire, theft, lightning and explosion.

### Administrative (approximate amount of coverage - R\$ 33,000)

- **Administrative headquarters:** fire, lightning, explosion, robbery, aggravated theft, civil liability and others.

The risk assumptions adopted and their respective coverage, given their type and particularities, are not part of the scope of review of the quarterly information, therefore, independent auditors did not review them.

**Trisul S.A.**

Notes to the individual and consolidated quarterly information as at September 30, 2025  
(In thousands of Reais, unless otherwise stated)

---

**30. Segment reporting**

The Company's management bases its internal management reports for decision-making on the consolidated quarterly information itself, on the same basis as these statements are disclosed, that is, only a segment internally considered as "Real Estate Development".

Due to the sharing of structures and corporate, managerial and operating costs of the Company and its controlled companies, they are not managed as independent segments, and the Company's profit or loss are monitored and evaluated in an integrated manner.

**31. Earnings per share:**

In compliance with technical pronouncement CPC 41 (IAS 33) – Earnings (losses) per share, approved by CVM Resolution No. 636, the Company presents below the information about earnings (losses) per share for the period ended September 30, 2025 and 2024:

**Basic:** The calculation of basic earnings (losses) per share is made by dividing net profit for the period allocated to holders of common shares of the Parent Company by the weighted average number of common shares available during the periods;

**Diluted:** Diluted earnings (losses) per share are calculated by adjusting the weighted average number of outstanding common shares, considering all potential diluted common shares. Potential diluted shares are related to share purchase options. Currently, the Company does not have a stock option plan.

The following table presents the result data and shares used to calculate basic and diluted earnings (loss) per share, which are identical:

|                                                                               | 09/2025 | 09/2024 |
|-------------------------------------------------------------------------------|---------|---------|
| Net profit for the period                                                     | 140,684 | 98,980  |
| Weighted average number of outstanding shares (thousand)<br>(former treasury) | 179,618 | 181,115 |
| Basic and diluted earnings per thousand shares (In Reais)                     | 0.78324 | 0.54650 |

**32. Subsequent event**

At the Company's Board of Directors meeting held on November 13, 2025, it was authorized the complementary distribution of dividends of R\$ 0.556737 by share in the amount of R\$ 100,000.
