## Record-High Net Revenue in the Quarter

*Growth across all segments and hedge operations supporting the Company's operating results*

**Santa Bárbara do Sul, November 13, 2025 – 3tentos (“3tentos” or the “Company”),** Brazil’s most comprehensive agricultural ecosystem, announces its results for the third quarter of 2025 (“3Q25”). Except where stated otherwise, the information in this document is expressed in local currency (R\$ million) and presented on a consolidated basis.

## Highlights

- **Net Operating Revenue (NOR)** of R\$4,994.9 million in 3Q25 (+42.9%) with growth throughout all segments.
- **Adjusted Gross Profit<sup>1</sup>** of R\$677.4 million in 3Q25 (+11.6%) with an adjusted gross margin of 13.6% (-3.8 p.p.).
- **Adjusted EBITDA<sup>1</sup>** of R\$166.3 million in 3Q25 (-51.4%) with adjusted EBITDA margin of 3.3% (-6.5 p.p.).
- **Net Income** of R\$203.0 million in 3Q25 (-36.2%) with net margin of 4.1% (-5.0 p.p.).
- **ROE** of 19.8% and **ROIC** of 10.5% in 3Q25.

<sup>1</sup> Adjusted Gross Profit and Adjusted EBITDA exclude the effects from the Fair Value Adjustment (“FVA”) of -R\$132.3 million in 3Q25 and R\$23.4 million in 3Q24.

## Message from Management

3tentos closed yet another quarter with solid growth — the 27<sup>th</sup> consecutive — demonstrating its resilience in a commodity-based sector marked by price volatility. This performance reinforces the Company's ability to deliver consistent results, anchored in an integrated operating model and long-standing relationships with rural producers.

In agribusiness, a long-term vision is essential, and 3tentos has built its trajectory through partnerships that transcend generations. Our commercial team works side by side with farmers, seeking the best agricultural practices to enhance productivity and sustainability.

Among the recent strategic advances, we highlight: (i) the promotion of the canola value chain in Rio Grande do Sul, encompassing everything from Ag Input sales to industrial processing; (ii) the entry into the ethanol and DDGs market, with operations set to begin in early 2026 following the completion of 3tentos' first industrial plant in the Vale do Araguaia region (MT); (iii) the expansion of grain origination offices in key logistics hubs such as Uberlândia (MG), Rio Verde (GO), and Redenção (PA); and (iv) the port terminal in Miritituba (PA), designed to optimize logistics and enhance export competitiveness.

In recent months, we were honored with several awards that recognize the dedication of the entire 3tentos team:

- 1<sup>st</sup> place in the Agribusiness category and ESG Excellence Award, granted by *Exame* magazine;
- 2<sup>nd</sup> place nationwide in Agribusiness, according to *Valor 1000* (*Valor Econômico*);
- 6<sup>th</sup> position among the 100 largest companies in Rio Grande do Sul and 20th overall in the *500 Largest in the South* ranking by *Grupo Amanhã*;
- Recognition as the Best Agribusiness Company in the TOP 30 by *Veja* magazine; alongside other distinctions that reflect our ongoing commitment to excellence and innovation.

We maintain full confidence in the sector and in our future plans. Following the expansion strategy announced at the beginning of 2024, we will continue to invest in new opportunities to strengthen our business model and contribute to the advancement of Brazilian agribusiness.

Sincerely,

**João Marcelo Dumoncel**  
CEO and Founder

## Operational and Financial Performance by Segment

### Net Operating Revenue in 3Q25

Figures in R\$ thousand

Net Revenue Quarterly				Net Revenue 9M			
Per Segment	3Q25	3Q24	Var. %	Per Segment	9M25	9M24	Var. %
Ag Inputs	1,079,840	757,478	42.6%	Ag Inputs	2,097,463	1,595,288	31.5%
Grain	1,709,250	885,409	93.0%	Grain	4,007,734	2,342,210	71.1%
Industry	2,205,789	1,853,673	19.0%	Industry	5,951,667	5,034,753	18.2%
<b>Total</b>	<b>4,994,879</b>	<b>3,496,560</b>	<b>42.9%</b>	<b>Total</b>	<b>12,056,864</b>	<b>8,972,251</b>	<b>34.4%</b>

Net Operating Revenue (NOR) grew 42.9% in the quarter, with contributions from all segments. The Ag Inputs segment delivered strong performance driven by geographic expansion in Rio Grande do Sul (RS) and Mato Grosso (MT), as well as increased market share in more mature regions. This growth reflects solid performance in both RS and MT, supported by the start of planting for the 2025/26 crop season.

The Grains segment once again recorded all-time high Net Revenue for the quarter, supported by strong trading volumes of soybeans and corn, mainly as a result of Mato Grosso's record harvest. In the Industry segment, growth was driven by increased production capacity throughout the year, boosting sales volumes of soybean meal and biodiesel.

### Adjusted Gross Profit in 3Q25

Figures in R\$ thousand

Adjusted Gross Profit Quarterly						Adjusted Gross Profit 9M					
Per Segment	3Q25	Margin	3Q24	Margin	Var.	9M25	Margin	9M24	Margin	Var.	
Ag Inputs	197,717	18.3%	114,089	15.1%	73.3%	382,516	18.2%	267,365	16.8%	43.1%	
Grain	203,879	11.9%	112,637	12.7%	81.0%	416,854	10.4%	224,916	9.6%	85.3%	
Industry	275,768	12.5%	380,460	20.5%	(27.5%)	1,089,406	18.3%	943,840	18.7%	15.4%	
Total	677,364	13.6%	607,186	17.4%	11.6%	1,888,776	15.7%	1,436,121	16.0%	31.5%	

Adjusted Gross Profit reached R\$677.4 million in 3Q25, representing 11.6% growth compared to 3Q24, with an adjusted gross margin of 13.6% (-3.8 p.p.). One of the advantages of our business model can be seen in Adjusted Gross Profit: the improvement in the Ag Inputs segment dynamics, along with higher Grains volumes — supported by the strong performance of our origination team leveraging Mato Grosso's record soybean and corn harvest — helped offset margin pressure in the Industrial segment. It is also important to consider the positive impact of hedge operations to fully understand the operating margin (as shown in the EBITDA table below).

Further analysis of each segment will be provided later in this document.

# Ag Inputs

## Operational Performance 3Q25

Net Revenue  
**R\$1,079.8 million**  
+42.6%

Adjusted Gross Profit  
**R\$197.7 million**  
+73.3%

### Volume

Thousand tons or kg/l

The Ag Inputs segment recorded higher volumes across all products, both in the quarter and year to date. This growth is related to market share gains in recently entered regions, supported by the opening of new stores in both Rio Grande do Sul (RS) and Mato Grosso (MT). Despite a more restrictive credit environment, we are observing stable or even expanding soybean acreage for the 2025/26 crop in Brazil.

The agribusiness sector has proven resilient, particularly in Rio Grande do Sul, where producers have faced four consecutive soybean harvests with some degree of yield loss. Thanks to 3tentos' extensive reach in serving farmers and its broad portfolio of products and services, the Company has continued to grow volumes in the state, sustaining the segment's overall growth.

## Net Revenue

Figures in R\$ thousand

Net Revenue Quarterly				Net Revenue 9M			
Per Product	3Q25	3Q24	Gr. %	Per Product	9M25	9M24	Gr. %
Seeds	149,244	86,822	71.9%	Seeds	210,330	137,563	52.9%
Fertilizers	660,952	472,563	39.9%	Fertilizers	1,091,220	711,881	53.3%
Crop Protection	269,644	198,093	36.1%	Crop Protection	795,913	745,844	6.7%
<b>Total</b>	<b>1,079,840</b>	<b>757,478</b>	<b>42.6%</b>	<b>Total</b>	<b>2,097,463</b>	<b>1,595,288</b>	<b>31.5%</b>

Net Operating Revenue from the Ag Inputs Segment in 3Q25 was R\$1,079.8 million, increase of 42.6% compared to the same quarter of the previous year. The increase in volume and the recovery in prices contributed to the growth in net operating revenue both in the quarter and year to date.

Mato Grosso's share of total Ag Inputs NOR in 9M25 was 34%.

## Adjusted Gross Profit and Margin

Figures in R\$ million, %

Adjusted Gross Profit for the Ag Inputs segment grew 73.3% in 3Q25, totaling R\$197.7 million, with an adjusted gross margin of 18.3% (+3.2 percentage points). Considering a more balanced market environment, we are gradually recovering the historical margins in the Ag Inputs segment.

From this year onward, we have already observed a more favorable scenario in the segment, which keeps us optimistic about the outlook for next year.

# Grains

## Operational Performance 3Q25

Net Revenue  
**R\$1,709.3 million**  
+93,0%

Adjusted Gross Profit  
**R\$203.9 million**  
+81,0%

### Volume

Thousand tons (Grains: +88% 3Q25 x 3Q24, +58% 9M25 x 9M24)

The Grains segment delivered strong performance in the third quarter, driven by soybean and corn operations. Growth was in line with our operational guidance, which had already anticipated significant volumes for both crops this year.

The expansion of our retail network through the opening of stores in recent years has enabled greater participation in the grain market. Specifically in 2025, Mato Grosso's record soybean and corn harvests contributed to a substantial increase in volumes during the quarter.

## Três Tentos Agroindustrial S.A.

### Net Revenue

Figures in R\$ thousand

Net Revenue Quarterly			
Per Product	3Q25	3Q24	Gr. %
Soybean	1,188,981	635,978	87.0%
Corn	456,898	199,842	128.6%
Wheat and Others	63,371	49,589	27.8%
<b>Total</b>	<b>1,709,250</b>	<b>885,409</b>	<b>93.0%</b>

Net Revenue 9M			
Per Product	9M25	9M24	Gr. %
Soybean	2,828,762	1,631,446	73.4%
Corn	657,480	363,765	80.7%
Wheat and Others	521,491	346,999	50.3%
<b>Total</b>	<b>4,007,734</b>	<b>2,342,210</b>	<b>71.1%</b>

Net Operating Revenue for the Grains Segment in 3Q25 was R\$1,709.3 million, 93.0% increase compared to the same quarter last year. This performance was driven by the strong increase in soybean and corn volumes, resulting in yet another record-high Net Revenue for the quarter.

Year to date (9M25), the segment has already exceeded the total Net Revenue for 2024, which amounted to R\$3,257.4 million.

Mato Grosso's share of total grains NOR in 9M25 was 48%.

### Adjusted Gross Profit and Margin

Figures in R\$ million, %

Adjusted Gross Profit for the Grains Segment grew 81.0%, totaling R\$203.9 million in 3Q25, with an adjusted gross margin of 11.9% (-0.8 p.p). The increase is explained by higher volumes and margin stability within the segment.

# Industry

## Operational Performance 3Q25

**R\$2,205.8 million**  
+19.0%

Adjusted Gross Profit  
**R\$275,8 million**  
-27.5%

### Volume

(thousand tons and thousand m³) (Industry: +47% 3Q25 x 3Q24, +22% 9M25 x 9M24)

2024

2025

#### Biodiesel

#### Meal and Others

The Industrial segment recorded growth driven by increased production capacity at the Company's plants in Vera (MT), expanded in 4Q24, and Cruz Alta (RS), expanded in 1Q25. Additionally, in 3Q25, the Company commercialized a portion of soybean meal produced in the previous quarter. At the end of the quarter, the Vera (MT) plant underwent a temporary shutdown for capacity expansion, increasing its soybean processing capacity from 3,000 tons/day to 4,800 tons/day.

Below we show the volume of soybeans processed quarterly. In this quarter, we recorded the highest soybean processing volume in our RS plants, while Vera (MT) posted a decline compared to 2Q25, due to the temporary shutdown for expansion.

Soybean Crushing in Ijuí/RS, Cruz Alta/RS and Vera/MT Industrial Plants  
(figures in thousand tons)

## Net Revenue

Figures in R\$ thousand

Net Revenue Quarterly			
Per Product	3Q25	3Q24	Gr. %
Biodiesel	1,023,551	837,135	22.3%
Soybean Meal and Others	1,182,238	1,016,538	16.3%
<b>Total</b>	<b>2,205,789</b>	<b>1,853,673</b>	<b>19.0%</b>

Net Revenue 9M			
Per Product	9M25	9M24	Gr. %
Biodiesel	2,924,377	2,187,777	33.7%
Meal and Others	3,027,290	2,846,976	6.3%
<b>Total</b>	<b>5,951,667</b>	<b>5,034,753</b>	<b>18.2%</b>

Net Operating Revenue (NOR) for the Industry Segment was R\$2,205.8 million in 3Q25, a 19.0% increase over the same quarter of the previous year. This performance was driven by higher biodiesel and soybean meal volumes, resulting from the increased production capacity at the Company's plants. Price dynamics remained downward for soybean meal; however, with stronger biodiesel demand in Brazil, we observed price increases for the biofuel.

Mato Grosso's share of the Industry Segment's total NOR in 9M25 was 50%.

## Adjusted Gross Profit and Margin

Figures in R\$ million, %

The Adjusted Gross Profit of the Industry Segment decreased 27.5%, totaling R\$275.8 million in 3Q25, with an adjusted gross margin of 12.5% (-8.0 p.p.). The downward price dynamics for soybean meal, combined with the sustained soybean prices supported by stronger export premiums in Brazil, have put pressure on margins.

However, it is important to note the hedge operations carried out by 3tentos, which had a positive effect and are recognized under financial results. This effect is illustrated in the EBITDA table below.

Três Tentos Agroindustrial S.A.

The crushing margin, excluding the hedge effect, declined in 3Q25, reflecting the drop in soybean meal prices and the sustained level of soybean prices.

## Financial Performance

### Selling, General and Administrative Expenses

In thousand of reais, except for percentage	3Q25	VA%	3Q24	VA%	HA%	9M25	VA%	9M24	VA%	HA%
Net operating revenue	4,994,879	100.0%	3,496,560	100.0%	42.9%	12,056,864	100.0%	8,972,251	100.0%	34.4%
SG&A	(541,330)	(10.8%)	(289,352)	(8.3%)	87.1%	(1,338,505)	(11.1%)	(941,815)	(10.5%)	42.1%
Selling expenses	(478,607)	(9.6%)	(269,855)	(7.7%)	77.4%	(1,213,736)	(10.1%)	(871,593)	(9.7%)	39.3%
Administrative expenses	(40,828)	(0.8%)	(24,640)	(0.7%)	65.7%	(95,341)	(0.8%)	(65,571)	(0.7%)	45.4%
Other oper. Income/expen	(21,895)	(0.4%)	5,143	0.1%	(525.7%)	(29,428)	(0.2%)	(4,651)	(0.1%)	532.7%

Selling, General and Administrative Expenses (SG&A) totaled R\$541.3 million in 3Q25, an increase of 87.1% compared to the same quarter of the previous year. If we analyze them as a percentage of Net Operating Revenue, they represented 10.8%, 2.5 p.p. higher compared to 3Q24. The variation in expenses is mainly explained by the following factors:

Figures in % over Net Operating Revenue	3Q25	3Q24	Var	2Q25	Var	9M25	9M24	Var
SG&A	(10.8%)	(8.3%)	2.5	(11.9%)	(1.1)	(11.1%)	(10.5%)	0.6
Logistics	(7.9%)	(4.1%)	3.8	(8.6%)	(0.7)	(7.8%)	(6.5%)	1.3
Personnel	(1.5%)	(1.9%)	(0.4)	(1.7%)	(0.2)	(1.7%)	(2.0%)	(0.3)
Other expenses	(1.4%)	(2.3%)	(0.9)	(1.6%)	(0.2)	(1.6%)	(2.0%)	(0.9)

Expenses increased mainly due to the higher volume of grains and soybean meal exported, which grew by approximately 70% in 3Q25 vs. 3Q24. When analyzing expenses as a percentage of Net Operating Revenue, the combination of higher unit freight costs and lower unit prices for soybean meal led to an increase in this ratio.

## Volume of Grains and Meal

Thousand of tons

The volume of grains and soybean meal traded in 3Q25 grew 74.5% compared to the same period of the previous year. With record soybean and corn harvests in Mato Grosso (MT), we were able to maximize our static storage capacity and significantly increase grain origination. We also recorded a notable increase in soybean meal volumes, supported by the industrial capacity expansions carried out since the end of the previous year. Additionally, the origination offices located in Uberlândia (MG), Rio Verde (GO), and Redenção (PA) are already contributing to the Company's results.

# Três Tentos Agroindustrial S.A.

## Adjusted EBITDA

The Adjusted EBITDA, which disregards the effect of FVA (Fair Value Adjustment), totaled R\$165.5 million in 3Q25, representing a 51.6% decrease compared to 3Q24. The Adjusted EBITDA margin reached 3.3%, a 6.5 p.p. decline versus the same period of the previous year. This result reflects the margin pressure in the Industry segment; however, it is important to consider the impact of hedge operations, as shown in the table below, which provides a clearer understanding of the operational performance.

Adjusted EBITDA Composition (R\$ million)

With the goal of providing a comprehensive view of Adjusted EBITDA, including the results from settled futures contracts, we present the table below. It is important to note that this presentation aims to reflect the Company's overall operational performance, as we understand that hedge operations are an integral part of our commercial activities in the sale of grains and industrial products.

In thousands of reais, except for percentage	3Q25			9M25

## Três Tentos Agroindustrial S.A.

### Net Financial Results

The net financial result was positive at R\$249.2 million in 3Q25. This result was mainly impacted by the effect of derivative settlements. Additionally, there was a capitalization of borrowing costs related to loans and financing, which reduced financial expenses.

### Net Income

The Company's Net Income was R\$203.0 million in 3Q25, a decreased of 36.2% compared to 3Q24. The Adjusted Net Income, which excludes the effect of operational and financial FVA, reached R\$276.6 million in 3Q25, representing a 40.8% increase vs. 3Q24.

In 9M25, 3tentos reported Net Income of R\$726.3 million, an increase of 17.1% compared to the same period of the previous year.

## Três Tentos Agroindustrial S.A.

### Cash, Cash Equivalents and Debt

The Company ended 3Q25 with net debt of R\$1,579.6 million, an increase of R\$1,354.9 million compared to 4Q24. This variation is mainly related to investments in: (i) the new ethanol plant; and (ii) the modernization of soybean processing facilities.

## Três Tentos Agroindustrial S.A.

### TentosCap

TentosCap's credit portfolio reached R\$333.2 million at the end of the third quarter of 2025, representing a 97.4% increase compared to the same period of the previous year. This result highlights the Company's strengthened presence in the financial sector and its growing integration within the 3tentos ecosystem.

With a focus on rural producers, TentosCap continues to expand and enhance its portfolio of financial products and services. Highlights include working capital credit lines, rural credit operations aimed at marketing and production financing, and the Prazo Safra Credit Card, which offers greater flexibility and efficiency in farm financial planning.

Reinforcing its commitment to providing innovative and strategic financial solutions for agribusiness, TentosCap launched the CPR credit line in U.S. dollars, designed to offer greater protection, predictability, and access to competitive financing for rural producers.

### Expansion of Operations

#### Ag Inputs and Grains Segments

Throughout 2025, we opened two new stores — in São Vicente do Sul (RS) and Água Boa (MT). Both locations are fully staffed with commercial teams and already in operation.

We now have a total of 72 stores (59 in RS and 13 in MT) serving rural producers through the sale of agricultural inputs (seeds, fertilizers, and crop protection products) and grain origination (soybean, corn, and wheat). Our commercial team consists of 208 consultants (160 in RS and 48 in MT).

Region	Area Covered (million ha)
RS	9.1
MT	12.8

### Capital Market

3tentos shares are traded on B3 under the ticker TTEN3 and closed the last trading session of September 2025 at R\$14.01, corresponding to a market capitalization of R\$7.0 billion. The shares have appreciated 2.0% year-to-date.

#### Shares' Performance (TTEN3)

The Company's shares had an average daily trading volume of 1.084 million shares in 3Q25, compared to 1.016 million shares in 3Q24. The average daily trading value reached R\$15.2 million in 3Q25, up from R\$11.6 million in 3Q24.

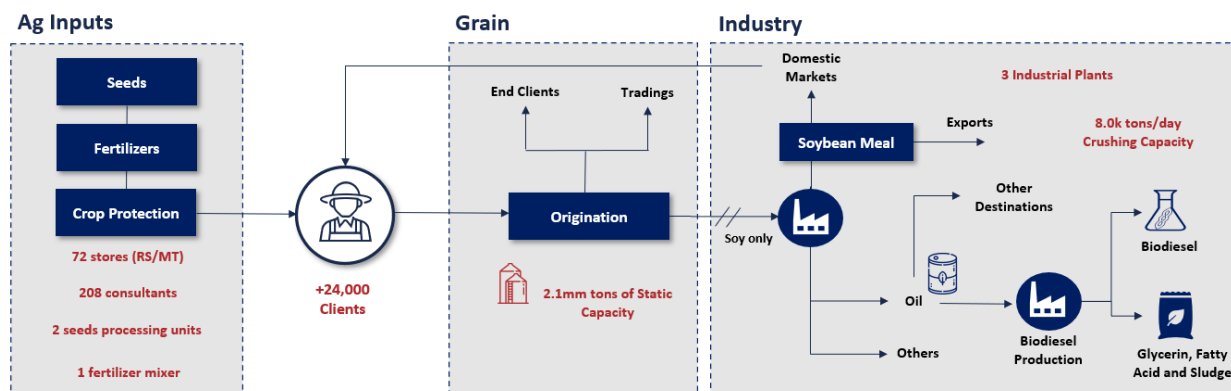

### About 3tentos

3tentos, Brazil's most comprehensive agricultural ecosystem, is a family-owned company with 30 years of operations that offers vertically integrated and oriented solutions to farmers and a wide range of retail products across the ag. inputs, grain, and industrial segments. The Company's business model is based on building long-term relationships with farmers, currently managing a portfolio of approximately 24,000 partner rural producers. In addition to supplying agricultural inputs and acquiring production, 3tentos also provides training, consulting, and technical services to producers, adding value through technical sales and helping them achieve higher productivity and profitability in their crops.

We operate mainly in three business segments:

- **Agricultural input retailing ("Ag Inputs")**, which offers a broad portfolio of agricultural products designed to meet all the needs of rural producers through the sale of various types of seeds, fertilizers, and crop protection products for soybean, corn, wheat, and rice.
- **Grain origination and trading ("Grains")**, through which the Company purchases and sells grains from farmers, with a total static storage capacity of over 2.1 million tons of soybean, corn, and wheat.
- **Grain processing ("Industry")**, with three plants located in Ijuí and Cruz Alta (Rio Grande do Sul), and Vera (Mato Grosso), where the Company processes soybean into soybean meal — a key component of animal feed for poultry, swine, and cattle farming — as well as soybean oil and biodiesel.

The following flowchart of our business model shows the synergies in the ecosystem, which are based on (i) a large network of stores, (ii) sales of Ag Inputs to rural producers, (iii) technical consulting for crop management, (iv) purchase of grains from rural producers, (v) grain processing and (vi) developing lasting relationships with clients based on credibility and trust.

### Seasonal effects on the Company's results

#### Ag Inputs Segment

The historical seasonality of 3tentos' net revenue in the Ag Inputs segment is shown below considering the cycles of the Company's various crops, which is subject to variations in different years.

	Ag Inputs Seasonality				
	1Q	2Q	3Q	4Q	FY
<b>2022</b>	14.7%	14.4%	30.2%	40.7%	100.0%
<b>2023</b>	17.5%	13.4%	28.9%	40.3%	100.0%
<b>2024</b>	21.3%	8.4%	26.9%	43.4%	100.0%
<b>Average</b>	<b>17.8%</b>	<b>12.0%</b>	<b>28.6%</b>	<b>41.5%</b>	<b>100.0%</b>

#### Grains Segment

Regarding the seasonality of the Grains segment, although the Company operates with grains in its three crops, historically the second and third quarters are the strongest for grain trading, with the table below showing the variation in each quarter's contribution to revenue from the segment in the last three years:

	Grain Seasonality				
	1Q	2Q	3Q	4Q	FY
<b>2022</b>	24.4%	21.7%	31.9%	22.0%	100.0%
<b>2023</b>	26.0%	32.4%	22.1%	19.4%	100.0%
<b>2024</b>	17.2%	27.6%	27.2%	28.1%	100.0%
<b>Average</b>	<b>22.5%</b>	<b>27.2%</b>	<b>27.1%</b>	<b>23.2%</b>	<b>100.0%</b>

#### Industrial Segment

The seasonality of the Industry segment is less affected by harvests, with more stability over the quarters and the first quarter historically the weakest of the year. However, the historical figures in the table below shows how the seasonality of revenue is affected by the growing production volumes due to the expansion in capacity.

	Industry Seasonality				
	1Q	2Q	3Q	4Q	FY
<b>2022</b>	19.0%	28.0%	25.4%	27.6%	100.0%
<b>2023</b>	19.2%	18.1%	27.3%	35.4%	100.0%
<b>2024</b>	22.5%	24.6%	27.5%	25.4%	100.0%
<b>Average</b>	<b>20.2%</b>	<b>23.6%</b>	<b>26.7%</b>	<b>29.5%</b>	<b>100.0%</b>

## Relationship with the Independent Auditors

In compliance with Resolution No. 162/22 issued by the Brazilian Securities and Exchange Commission ("CVM"), we hereby inform that KPMG Auditores Independentes Ltda. has been engaged to provide the following services:

(i) Independent audit of the financial statements of the Company prepared in accordance with the accounting practices adopted in Brazil and with International Financial Reporting Standards (IFRS), related to the fiscal year to end on December 31, 2025, and review of the interim financial statements of the Company presented through Quarterly Information Reports (ITR), prepared in accordance with CPC 21 and IAS 34, related to the periods ended on March 31, June 30, and September 30, 2025.

The Company has adopted as a fundamental principle of preservation of the independence of the auditors, ensuring that they do not audit their own services and that they do not participate in the management of the Company.

As for other services provided by independent auditors, the Company obtains prior approval from its Audit Committee to avoid any conflict of interests or loss of independence or objectiveness of its independent auditors.

### Main characteristics of the subsidiaries and associated companies:

- **3T International S.A.:** Located in Montevideo, Uruguay, it is a trading company whose main activity is to carry out trading operations involving agricultural commodities. The subsidiary concentrates the commodity export operations of the Group.
- **Asas do Araguaia Locações Aéreas Ltda.:** Located in Sorriso, Mato Grosso, its core business is the lease of unmanned aircraft and provision of air travel services to the Company. It was incorporated between Mates Locações Aéreas Ltda., a subsidiary of the group, and Construtao Engenharia Ltda. It is controlled and managed by Construtao Engenharia Ltda.

# Três Tentos Agroindustrial S.A.

Notes to the interim financial statements

September 30, 2025

(In thousands of reais, except when otherwise stated)

- **Mates Locações Aéreas Ltda.:** Located in Santa Bárbara do Sul, its core business is the lease of unmanned aircraft and provision of air travel services to the Company and its related parties.
- **Tentos Corretora de Seguros Ltda.:** Located in Ijuí, its core business is insurance brokerage, supplementary pension plan and health plans.
- **Tentos Holding Financeira de Participações Ltda.:** Located in Ijuí, its main corporate purpose is to hold interest in financial institutions. It is currently the direct parent company of Tentos S.A. Crédito, Financiamento e Investimento, which it acquired in 2023.
- **Tentos Participações Ltda.:** Located in Santa Bárbara do Sul in the state of Rio Grande do Sul, it is a holding company, whose main corporate purpose is to hold interest in non-financial institutions. It has three direct subsidiaries: Tentos Promotora de Vendas Ltda., Mates Locações Aéreas Ltda. and Tentos Corretora de Seguros Ltda.
- **Tentos Promotora de Vendas Ltda.:** Located in Ijuí, Rio Grande do Sul, its main corporate purpose is sales promotion.
- **Tentos S.A. Crédito, Financiamento e Investimento.:** Also known as “TentosCap,” it is located in Ijuí. It is a financial institution regulated by the Central Bank of Brazil, whose main purpose is to provide credit services such as credit card, financing and others, primarily to rural producers that are clients and suppliers of the Group.
- **Via Maris Navegação e Portos S.A.:** Located in the district of Miritituba, in the city of Itaituba, state of Pará, the company will provide logistics and storage solutions in Brazil's North Arc. The company will operate facilities for the storage of grains and meal, as well as transshipment for loading of river barges.

## 2. Presentation and summary of key accounting practices

### 2.1. Basis for preparation, measurement and presentation of the financial statements

#### Statement of conformity

The separate and consolidated interim financial statements of the Company were prepared and are presented in accordance with CPC 21 (R1) – Interim Statements, issued by the Accounting Pronouncement Committee (CPC) and approved by the Securities and Exchange Commission of Brazil (CVM), corresponding to the international standard IAS 34 – Interim Financial Reporting, issued by the International Accounting Standards Board (IASB).

# Três Tentos Agroindustrial S.A.

Notes to the interim financial statements

September 30, 2025

(In thousands of reais, except when otherwise stated)

The individual and consolidated interim financial statements were prepared by the Company to provide its stakeholders with relevant information on the period and should be analyzed in conjunction with the annual individual and consolidated financial statements for the fiscal year ended December 31, 2024.

In the preparation of these separate and consolidated interim financial statements, the Company observed the same accounting policies and calculation methods applied to the financial statements of December 31, 2024. Therefore, to avoid redundancy in the presentation of the separate and consolidated interim financial statements of September 30, 2025, the accounting policies were not fully provided or not detailed as thoroughly as in the notes accompanying the annual financial statements.

On November 13, 2025, Board of Directors authorized the conclusion of the separate and consolidated interim financial statements.

## Measurement base

The individual and consolidated interim financial statements were prepared based on historical cost, with the items presented on Note 8 – Fair value, adjusted to fair value through profit or loss:

## **2.2. Basis for consolidation**

The Company's financial statements reflect the assets, liabilities and transactions of the Parent Company and its subsidiaries. Balances and transactions between companies of the group that include unrealized profits are eliminated in the consolidation process. The list of investees, including subsidiaries, affiliates and joint ventures, is described in Note 1.

## **2.3. Functional currency and reporting currency**

These individual and consolidated interim financial statements are presented in Brazilian real (R\$), which is the Company's functional currency and the reporting currency. All balances were rounded up to the nearest thousand, unless stated otherwise.

The items included in the individual and consolidated interim financial statements of each Group company are measured using the currency of the main economic environment where the company operates ("functional currency"). Uruguay's functional currency is the U.S. dollar and is the Company's only subsidiary that does not use local currency.

The functional currency of each entity is listed below:

# Três Tentos Agroindustrial S.A.

Notes to the interim financial statements

September 30, 2025

(In thousands of reais, except when otherwise stated)

Company	Country	Functional currency
3T International S.A.	Uruguay	USD

Tentos Participações Ltda.	Brazil	BRL
Tentos Promotora de Vendas Ltda.	Brazil	BRL
Tentos S.A. Crédito, Financiamento e Investimento	Brazil	BRL
Via Maris Navegação e Portos S.A.	Brazil	BRL

## 2.4. Main accounting standards issued or recently amended

On January 1, 2025, regulations issued in Brazil and abroad came into force, the main ones being:

- Absence of convertibility (amendments to CPC 02 / IAS 21, issued by the IASB, with a technical pronouncement issued by the CPC (amendments to CPC 02 (R2)) and approved by the CVM, regarding the absence of interchangeability, which defines criteria for: evaluating when a currency is not convertible into another; estimating the spot exchange rate in these cases and disclosing the associated impacts and risks. The initial application of this regulation did not cause a material impact on the consolidated and individual interim financial information as of September 30, 2025; and

- Technical Guidance OCPC 10 – Carbon Credits (tCO<sub>2</sub>e), emission allowances and decarbonization credit (CBIO) deals with the basic requirements for recognition, measurement and disclosure. The application of this technical guidance is described in Note 7.1.

Applicable for future periods:

- IFRS S1 and S2 (CBPS 1 and CBPS 2) – CVM Resolution 193/2023 requires the disclosure of information on risks and opportunities related to sustainability and climate, with the first mandatory report under these standards corresponding to the year to end on December 31, 2026. The Company is including requirements for identifying, measuring and reporting this information, as well as assessing its potential impacts.

- IFRS 18 (CPC 51) – Presentation and Disclosure of Financial Statements: Establishes new requirements for the presentation and disclosure of the income statement, requires disclosure of performance measures defined by Management, and includes new requirements for the aggregation and disaggregation of information in the financial statements. IFRS 18 will be effective as of January 1, 2027, and the Company is evaluating the impacts arising from this standard on the presentation and disclosure of its Financial Statements.

Other accounting standards issued or recently amended:

# Três Tentos Agroindustrial S.A.

Notes to the interim financial statements

September 30, 2025

(In thousands of reais, except when otherwise stated)

Other accounting standards, amendments, interpretations and guidance issued recently have had no material impact on these financial statements. The Company has not adopted in advance any rule that is not yet in force.

### 3. Judgments, estimates and significant accounting assumptions

The preparation of the Company's separate and consolidated interim financial statements requires the Management to make judgments and estimates and adopt assumptions affecting the amounts presented for revenues, expenses, assets and liabilities, and their respective disclosures, as well as the disclosures of contingent liabilities.

Estimates and assumptions are revised continually. Revised estimates are recognized prospectively.

In the process of applying the Company's accounting policies, the Management made the following judgments that have a more significant effect on amounts recognized in the financial statements:

#### (a) Judgments

Information on judgments made in the application of accounting policies with material effects on the amounts recognized in the individual and consolidated interim financial statements is included in the following notes:

- *Provision for losses from trade accounts receivable (Note 5)*

Provisions for losses from financial assets are based on assumptions regarding the risk of default and on the rates of expected losses. The Company's policy is to analyze and provision for receivables past due over 90 days and to provision for losses from all outstanding receivables from such debtor. Judgment aspects are used to decide whether to maintain the provision in cases when the debt is renegotiated or the commitment is formalized by the client. Such judgments include the reasons that led the client fail to pay (e.g., weather factors that led to a crop shortfall), the historical relationship with the client, the intent to pay and evidence available that the amount will be received.

# Três Tentos Agroindustrial S.A.

Notes to the interim financial statements

September 30, 2025

(In thousands of reais, except when otherwise stated)

- *Provision for tax, civil and labor risks (Note 17)*

The Company's provisions are accrued for all contingencies related to lawsuits and administrative proceedings for which it is probable that an outflow of resources will be required to settle the contingency/obligation and they can be reasonably estimated. Assessment of the probability of loss includes the assessment of the available evidence, the hierarchy of laws, available precedents, most recent court decisions and their relevance for the legal system, as well as the opinion of external counsels. Provisions are revised and adjusted to take into account changes in circumstances, such as the applicable statute of limitations, findings of tax inspections or additional exposures identified based on new matters or court decisions. The Company, based on the nature of the lawsuits in which it is involved, and supported by the opinion of its legal counsels, discloses its contingent liabilities for which loss is expected as possible. For these lawsuits, no provisions are accrued for possible losses, in accordance with CPC 25 (IAS 37) - Provisions, Contingent Liabilities and Contingent Assets.

## **(b) Uncertainties regarding assumptions and estimates**

The individual and consolidated interim financial statements were prepared using various sources for determining accounting estimates. The accounting estimates involved in the preparation of financial statements were supported by objective and subjective factors, based on Management's judgment, to determine the appropriate amount to be registered in the individual and consolidated financial statements.

The settlement of transactions involving these estimates may result in amounts that differ significantly from those registered in the individual and consolidated financial statements due to the probabilistic treatment inherent to the estimation process. The Company revises its estimates periodically.

The main assumptions related to sources of estimation uncertainty on the reporting date, involving material risk of causing a significant adjustment in the book value of assets and liabilities, include:

- *Inventories and purchase and sale commitments of commodities and derivative instruments (Notes 5, 7, 8, 13 and 15, respectively)*

The Company determines the value of accounts receivable linked to the receipt of commodities, as well as its inventories for commodities, seeds, carbon credits, and accounts payable to commodity suppliers to be determined based on fair value on the reporting date, with the changes in fair value registered as a corresponding entry to cost of goods and products sold in the income statement.

Marketable commodities are freely traded in active markets and can be sold without significant additional processing. Management estimates market value based on prices quoted on exchanges, adjusted to reflect differences in local markets.

## Três Tentos Agroindustrial S.A.

Notes to the interim financial statements

September 30, 2025

(In thousands of reais, except when otherwise stated)

As part of its price risk management, mainly for commercial purposes, the Company contracts derivative instruments, represented by commodity forward buy and sell contracts and exchange-traded futures contracts (CBOT), which are also measured at fair value, with their variations registered as a corresponding entry to cost of goods and products sold in the income statement.

Management books the fair value of accounts receivable from rural producer certificates and from forward purchase and sale contracts that are settled with physical delivery, since it is a practice of the Company for similar contracts, with the purpose of negotiating and obtaining margins in its commercial commodity operations.

### *- Discount rate applied to the measurement of lease liabilities (Note 10)*

To measure right-of-use assets, the Company calculates the initial value of the lease liabilities at present value based on the discount rates, which vary depending on the term of the agreements. The discount rates are calculated considering the “average weighted CDI/Pre curve,” plus the Company’s credit risk and a risk spread of the underlying asset. Material judgments are made involving the date of the interest curves used for calculating and determining the Company’s credit risk.

### *- Share-based payments (Note 20)*

The fair value of options granted by the Company under stock option plans is measured upon grant, based on certain assumptions. These assumptions require the determination of more appropriate data for the evaluation model, including the expected life of the option, volatility and dividend yield and the corresponding assumptions.

The recognition of cost with the stock option plan was measured based on the fair value of the shares granted using the Binomial model, as detailed in Note 20.

### *- Income taxes (Note 26)*

There are uncertainties related to the interpretation of complex tax regulations, including those related to the government subsidies used by the Company, and to the value and timing of future taxable results. Given the broad aspect of tax legislation, as well as the long-term nature and complexity of existing contractual instruments, differences between actual results and the assumptions adopted, or future changes in these assumptions, may require future adjustments in the tax assets and liabilities already registered.

In determining current and deferred income tax, the Company takes into consideration the impact of uncertainties related to the tax positions taken. The Company believes that the provision for income tax is adequate based on the assessment of various sources, including interpretations of tax laws and the opinion of its legal advisors.

The Company records provisions, based on reasonable estimates, for possible consequences from audits conducted by the tax authorities of the jurisdictions in which it operates. The amount of these provisions is based on several factors, such as experience in previous audits and interpretations

# Três Tentos Agroindustrial S.A.

Notes to the interim financial statements

September 30, 2025

(In thousands of reais, except when otherwise stated)

that differ from tax regulations by the taxable entity and the responsible tax authority. Such interpretation differences could arise in a wide variety of subjects, depending on current conditions in the Company's respective jurisdiction.

As disclosed in Note 27, the Company revised its strategy of using the subsidy after amendments to the laws in force with effect from January 1, 2024 and relies on support from its legal advisors. Accordingly, based on information available in the market and on the opinion of its legal advisors, the Company believes that the chances of a favorable outcome are probable, in case of any challenge and discussion regarding the amounts excluded in IRPJ and CSLL calculation with tax authorities. In this context, to comply with the applicable accounting practices, notably CPC 32/IAS 12 Income taxes and related interpretations (ICPC 22/ IFRIC 23), there is no provision for such losses.

As disclosed in Note 26, the Company has deferred tax assets arising from tax losses, negative base of social contribution tax and temporary differences. Significant judgment by Management is required to determine the amount of deferred tax assets that can be recognized, based on the probable term and level of future taxable profits, as well as future tax planning strategies. Significant assumptions are made while planning the budget for future years and defining the future tax base considering the uncertainties involved in tax aspects for the following years. The prices of commodities traded and acquired by the Company, as well as amendments to the legislation and adoption of benefits and tax incentives, could significantly change the projection.

The assumptions for measuring taxable income are based mainly on the Company's budget for the next years. Lastly, comparisons of historical average balances help to define the future expected profit in terms of interference of seasonality in the Company's result.

## *- Measurement at fair value of financial instruments (Notes 8 and 15)*

When the fair value of financial assets and liabilities registered in the balance statement cannot be measured based on prices quoted in active markets, fair value is measured based on valuation techniques, including the discounted cash flow model. Inputs considered in these models are obtained from observable markets, when possible. In situations in which these inputs cannot be obtained from observable markets, a level of judgment is necessary to establish the respective fair values. Associated judgments include assessment of liquidity risk, credit risk and volatility. Changes in assumptions related to these factors could affect the fair value of financial instruments. Note 14 provides more details and disclosures about the topic.

## **(c) Seasonality**

Other accounting standards, amendments, interpretations and guidance issued recently have had no material impact on these financial statements. The Company has not adopted in advance any rule that is not yet in force.

## Três Tentos Agroindustrial S.A.

Notes to the interim financial statements

September 30, 2025

(In thousands of reais, except when otherwise stated)

The exclusive investment fund Hat Trick RF CP is a fixed-income fund of private and public credits under the management, administration and custody of Banco BTG Pactual. There is no grace period for redemptions (i.e., D+0).

Since August 3, 2021, the fund is exclusively for the Company's benefit. Accordingly, in accordance with CVM Resolution 175, each of the fund's assets was registered based on their characteristics, observing their liquidity and maturity term, which translates into availability for redemption. At the time, the fund was created to segregate the proceeds raised in the IPO and maintain its purchasing power for making the investments provided for in the Company's investment plan. The Company currently uses the fund to invest funds from its operational activity.

The investment fund does not have significant financial obligations. The financial obligations are limited to asset management fees, custody fees, audit fees and expenses. On September 30, 2025, the return on the fund's investments corresponds to 101.34% of the monthly CDI in the last 12 months (104.05% on December 31, 2024).

### 5. Trade receivables

	Parent Company		Consolidated	
	9/30/2025	12/31/2024	9/30/2025	12/31/2024

Rural credit certificates (CPR) are originated from the sale of products to clients upon receipt of payment in grains. These accounts receivable are recorded at fair value, as described in Note 8. The sale of inputs for receipt in agricultural commodities is part of Company's grain origination strategy for executing its trading operations in agricultural commodities.

On September 30, 2025 and December 31, 2024, the balances of trade receivables by maturity was as follows:

## Três Tentos Agroindustrial S.A.

Notes to the interim financial statements

September 30, 2025

(In thousands of reais, except when otherwise stated)

	Parent Company		Consolidated	
	9/30/2025	12/31/2024	9/30/2025	12/31/2024

## Três Tentos Agroindustrial S.A.

Notes to the interim financial statements

September 30, 2025

(In thousands of reais, except when otherwise stated)

### 6. Income tax, social contribution and recoverable taxes

#### 6.1 Income tax and social contribution

	Parent Company		Consolidated	
	9/30/2025	12/31/2024	9/30/2025	12/31/2024
Corporate income tax (IRPJ)	134,483	152,147	136,696	152,371
Social contribution (CSLL)	37,742	36,173	37,903	36,173
<b>Total</b>	<b>172,225</b>	<b>188,320</b>	<b>174,599</b>	<b>188,544</b>
Current	62,969	41,716	65,343	41,940
Non-current	109,256	146,604	109,256	146,604

Recoverable balances of income and social contribution taxes refer basically to the carry forward of unused tax credits arising from benefits of governmental subsidies for investment as shown in Note 27. The Company uses these credits to offset taxes payable or requests cash reimbursements.

#### 6.2 Recoverable taxes

	Parent Company		Consolidated	
	9/30/2025	12/31/2024	9/30/2025	12/31/2024
Social Integration Program (PIS)	158,621	91,878	158,621	91,878
Social security contribution (COFINS)	225,082	90,074	225,082	90,074
Retentions	139	138	139	138
Value-added tax (ICMS)	59,037	55,613	59,037	55,613
FETHAB	400	398	400	398
<b>Total</b>	<b>443,279</b>	<b>238,101</b>	<b>443,279</b>	<b>238,101</b>
Current	334,095	167,400	334,095	167,400
Non-current	109,184	70,701	109,184	70,701

Recoverable balances of PIS and COFINS taxes refer basically to presumed credits calculated on sales by the operation involving the extraction of soybean meal, degummed soybean oil and soybean hulls, as well as biodiesel production. The Company uses these credits to offset taxes payable or requests cash reimbursements.

In the second quarter of 2025, the Company recognized extemporaneous credits through the reduction of rates, in connection with the Social Seal, amounting to R\$65,637, related to PIS and COFINS paid on the sale of biodiesel in the period between 2020 and 2024, with this benefit being adopted in 2025. The amount was recorded in the results of the period, in the cost of goods sold and in current assets, under recoverable taxes, according to the expectation of short-term

# Três Tentos Agroindustrial S.A.

## Notes to the interim financial statements

September 30, 2025

(In thousands of reais, except when otherwise stated)

compensation. The Management's assessment took into account, among other factors, the feasibility of offsetting against payable tax liabilities and compliance with applicable tax legislation.

As of May 1, 2023, the one-stage taxation regime governed by agreement 199/2022 made it impossible for biodiesel industries to assess ICMS credit. Therefore, it became incompatible with the general tax calculation regime of other branches. Therefore, the Company accumulated an ICMS credit balance of R\$58,410 for the other branches in the period from May 1, 2023 to September 30, 2025.

## 7. Inventories

Inventories and advances are broken down as follows:

	Parent Company		Consolidated	
	9/30/2025	12/31/2024	9/30/2025	12/31/2024
Amendments and fertilizers	140,740	32,068	140,740	32,068
Chemicals	607,198	541,721	607,198	541,721
Biodiesel	53,680	110,971	53,680	110,971
Other	83,072	101,295	83,072	101,295
<b>Total registered at cost of acquisition/production</b>	<b>884,690</b>	<b>786,055</b>	<b>884,690</b>	<b>786,055</b>
Grains	1,161,843	587,004	1,161,843	587,004
Seeds	200,844	85,101	200,844	85,101
Oil and meal	251,392	324,271	251,392	324,271
Carbon credits (Note 7.1)	1,422	-	1,422	-
<b>Total registered at fair value (Note 8)</b>	<b>1,615,501</b>	<b>996,376</b>	<b>1,615,501</b>	<b>996,376</b>
<b>Total inventories</b>	<b>2,500,191</b>	<b>1,782,431</b>	<b>2,500,191</b>	<b>1,782,431</b>
Advances to suppliers - inventories (*)	323,923	138,557	323,923	138,557
Advances to suppliers - other	3,883	3,743	4,062	3,934
<b>Total advances</b>	<b>327,806</b>	<b>142,300</b>	<b>327,985</b>	<b>142,491</b>

(\*) The advances to suppliers (inventories) pertain to inventory purchases from suppliers of agricultural inputs, such as crop protection products and fertilizers. Such advances were made based on previously negotiated commercial conditions involving aspects such as price, contracted volume and delivery deadlines. On the reporting date, such products were still in the process of being received, which is why the amounts remain recorded as advances to suppliers, under current assets. The Company made reclassifications between the Inventories and Advances line items. These reclassifications do not affect the total balances of asset groups or previously reported results, serving solely to reorganize and enhance the clarity of financial disclosures.

The price quotes used to determine the value of commodities and other inventories on the reporting date were obtained through independent public sources, as follows:

(\*) In thousands of bags of 40kg each.

(\*\*\*) In thousand tons.

(\*\*\*\*) Decarbonization credits (CBIO).

A sensitivity analysis of commodity and other inventories is shown in Note 21 – Risk management, considering the Company's risk and hedge management model.

## 7.1 Carbon credits

The Company is one of Brazil's leading biofuel producers, specializing in the production of biodiesel from soybeans. The biodiesel produced by the Company represents a more sustainable alternative compared to fossil fuels, since its combustion results in significantly lower emissions of carbon dioxide (CO<sub>2</sub>), thus contributing to the mitigation of environmental impacts related to the greenhouse effect.

Due to its environmental benefits, biodiesel is eligible for carbon credit certification — an instrument to encourage the reduction of emissions. In this context, the Company participates in the National Biofuels Program (RenovaBio), a Brazilian policy aimed at expanding biofuel production in Brazil based on predictability, environmental sustainability and energy efficiency.

Established by Law 13,576/2017, RenovaBio is certified for the issuance of carbon credits, in accordance with ANP Resolution 758/2018 and regulations of the Ministry of Mines and Energy (MME). One unit of decarbonization credit (CBIO) represents one ton of carbon dioxide equivalent (tCO<sub>2</sub>e) avoided.

## Três Tentos Agroindustrial S.A.

Notes to the interim financial statements

September 30, 2025

(In thousands of reais, except when otherwise stated)

The carbon credits are intended for sale and were classified by the Company as inventories, initially recognized at the cost of generation and subsequently adjusted to fair value, according to the guidelines established in OCPC 10 – Carbon Credits. These credits are traded in the voluntary market, through the B3 – Brasil Bolsa Balcão platform. The changes in carbon credits in the period ended September 30, 2025 and year ended December 31, 2024 are shown below:

	Parent Company and Consolidated	
	Quantity*	Value

The sensitivity analysis of assets and liabilities measured at fair value is shown in Note 15 – Financial instruments, considering the risk management model and hedge of exposures to the prices of commodities and other inventories traded and acquired by the Company.

# Três Tentos Agroindustrial S.A.

## Notes to the interim financial statements

September 30, 2025

(In thousands of reais, except when otherwise stated)

Type	Fair value hierarchy	Note	Evaluation technique	Significant unobservable inputs	Relationship between significant unobservable inputs and fair value measurement
<b>Operational Fair Value</b>					
Commodity inventories	Level 2	Note 7, Note 24	The fair value of commodity inventories (grains, meal, and oil) is determined by the difference between the recorded cost price of the inventory and the market price on the reporting date, adjusted for port costs, premiums, and logistic costs.	Port costs, premium, and logistic costs	Positive premium: increases the basis, raising fair value. Negative premium, port cost and logistic cost: increases the basis, reducing fair value.
Seeds inventory	Level 3	Note 7, Note 24	The fair value of seed inventories is determined by the difference between the recorded cost price of the inventory and the market price on the reporting date.	Market price on the reporting date	Increases the basis, raising fair value.
Carbon credits	Level 2	Note 7, Note 24	The fair value of carbon credits is determined by the difference between the cost price registered for the inventory and the market price (traded on B3) on the baseline date.	Not applicable	Not applicable
Rural Producer Certificates (CPR)	Level 2	Note 5, Note 15, Note 24	The fair value of CPRs is determined based on the difference between the forward price of the commodity and the market price on the expiration of the contract deducted on the baseline date, adjusted by port costs, premium and logistic costs. The resulting amount is deducted at present value according to the DI rate, adjusted for the PTAX rate on the same date.	Port costs, premium, and logistic costs	Positive premium: increases the basis, raising fair value. Negative premium, port cost and logistic cost: increases the basis, reducing fair value.
Suppliers of commodities to be determined	Level 2	Note 13, Note 15, Note 24	The fair value of suppliers of commodities to be determined is determined based on the difference between the commodity acquisition cost and the domestic price on the baseline date, adjusted by port costs, premium and logistic costs. The resulting amount is deducted at present value according to the DI rate, adjusted for the PTAX rate on the same date.	Port costs, premium, and logistic costs	Positive premium: increases the basis, raising fair value. Negative premium, port cost and logistic cost: increases the basis, reducing fair value.
Forward commodity contracts	Level 2	Note 15, Note 24	The fair value of forward commodities contracts is determined based on the difference between the forward price of the commodity and the market price on the expiration of the contract deducted on the baseline date. The resulting amount is deducted at fair value according to the DI rate, adjusted for the PTAX rate on the same date.	Port costs, premium, and logistic costs	Positive premium: increases the basis, raising fair value. Negative premium, port cost and logistic cost: increases the basis, reducing fair value.
<b>Financial Fair Value</b>					
Swap operations	Level 2	Note 15, Note 25	Fair value is calculated based on the present value of the estimated future cash flows. The estimates of future cash flows for floating-rate instruments are derived from quoted swap rates, futures prices, and available interbank loan interest rates.	Not applicable	Not applicable
Commodity hedge operations	Level 2	Note 15, Note 25	The fair value of commodity hedge operations is determined based on market variation, with positive or negative adjustments. While analyzing the changes in the values of each commodity in a given year, the current price is assessed against the accounting balance registered on the base date of the agreement.	Not applicable	Not applicable
Option operations	Level 2	Note 15, Note 25	The fair value of options is determined based on the difference between the forward exchange rate and the future rate. The resulting amount is deducted at present value according to the DI rate.	Not applicable	Not applicable
NDF transactions	Level 2	Note 15, Note 25	The fair value of NDF derivative instruments is determined by the difference between the forward exchange rate and the future rate. The resulting amount is deducted at present value according to the DI rate.	Not applicable	Not applicable

### 10. Right of use and liabilities payable

In accordance with CPC 06 (R2)/IFRS 16, leases refer to the right to control the use of an asset identified for a year in exchange for compensation.

The Company recognized a right-of-use asset and a lease liability on the lease initial date. Right-of-use assets are measured initially by their cost, which comprises the initial value of the lease liability, then subsequently depreciated under the straight-line method, from the initial date to the end of the lease term. In addition, right-of-use assets are adjusted for certain remeasurements of lease liabilities. Lease liabilities are measured initially at present value of lease payments, deducted based on the Company's incremental borrowing rate.

The measurement of right-of-use assets corresponds to the initial value of lease liabilities at present value by deduction rates ranging from 7.84% to 12.05% p.a. These rates are calculated considering the "weighted CDI/Pre curve," plus the Company's credit risk and a risk spread of the underlying asset. Depreciation is calculated under the straight-line method according to the remaining term of agreements with an average term of seven years.

The Company maintains assets and liabilities resulting from leases of commercial stores, warehouses and offices located in the states of Rio Grande do Sul, Mato Grosso, São Paulo, Goiás and Minas Gerais, as well as leases of farms for the cultivation of eucalyptus in Mato Grosso.

The changes in right-of-use assets in the period ended September 30, 2025 are shown below:

	Parent Company	Consolidated
<b>Balance on 12/31/2024</b>	<b>16,351</b>	<b>21,949</b>
New contracts	14,781	15,205
Remeasurement of contracts	4,660	3,899
(-) Amortization of right-of-use asset	(4,730)	(5,629)
<b>Balance on 9/30/2025</b>	<b>31,062</b>	<b>35,424</b>
<b>Balance on 12/31/2023</b>	<b>10,674</b>	<b>18,106</b>

## Três Tentos Agroindustrial S.A.

Notes to the interim financial statements

September 30, 2025

(In thousands of reais, except when otherwise stated)

a) Property, plant and equipment in progress

Property, plant and equipment in progress at September 30, 2025 mainly refers to expansions of the Company's units, with new warehouses for grain and inputs, as well as expansion of industrial plants. The Company continued the refurbishment and expansion of the oil extraction plant in Ijuí and Cruz Alta, Rio Grande do Sul, with all these projects expected to be concluded in 2026. Improvements and expansion of the current operational structure of the plant in Vera, Mato Grosso, are advancing on schedule and expected to be concluded in 2025, while construction is advancing on the new commercial branches in the states of Rio Grande do Sul and Mato Grosso, as well as a new corn ethanol plant in Porto Alegre do Norte (Mato Grosso).

During the third quarter of 2025, the Company concluded a stage of the construction of the plants in Vera (Mato Grosso), Cruz Alta and Ijuí (Rio Grande do Sul). Also, stores are being built in Rio Grande do Sul and Mato Grosso.

The weighted average interest rate used to determine the amount of non-specific borrowing costs to be capitalized as part of construction-in-progress assets was 15.05% p.a. for the period from January to September 2025 (12.60% p.a. for January to September 2024).

b) Guarantees

On the reporting dates, items of property, plant and equipment were offered to third parties as guarantees for loans and financing, linked to their own financing, as shown in Note 14.

c) Impairment of property, plant and equipment

Impairment of property, plant and equipment is analyzed constantly by the Management. In the period ended September 30, 2025, the Management did not identify any indication of impairment of property, plant and equipment.

<b>Balance on 9/30/2025</b>	<b>4,777</b>	<b>74,433</b>	<b>79,210</b>	<b>6,292</b>	<b>74,433</b>	<b>80,725</b>
Balance on 12/31/2024	3,971	50,111	54,082	5,142	50,111	55,253

#### a) Intangible assets in progress

On September 30, 2025, intangible assets in progress mainly refer to the project for implementation of the new ERP software (SAP).

## Três Tentos Agroindustrial S.A.

Notes to the interim financial statements

September 30, 2025

(In thousands of reais, except when otherwise stated)

### b) Impairment of intangible assets

The recoverable amount of the Company's intangible assets is continuously assessed by the Management. For the period ended September 30, 2025, the Management found no indicators suggesting that its intangible assets may be impaired.

## 13. Trade payables

Suppliers of goods and services are represented as follows:

	Parent Company		Consolidated	
	9/30/2025	12/31/2024	9/30/2025	12/31/2024
Trade payables in domestic market	1,553,603	959,544	1,637,278	987,111
Trade payables in export market	53,685	62,436	53,685	62,436
Commodity suppliers to be determined (Note 8)	1,001,313	1,023,698	1,001,313	1,023,698
<b>Total - current</b>	<b>2,608,601</b>	<b>2,045,678</b>	<b>2,692,276</b>	<b>2,073,245</b>
Trade payables in domestic market	476	26	476	26
<b>Total - non-current</b>	<b>476</b>	<b>26</b>	<b>476</b>	<b>26</b>

The operation of commodity suppliers to be determined refers to the Company's obligation with rural producers who already have delivered agricultural products but have not yet defined the date price will be determined and, consequently, the final amount of the operation. As such, payment of the obligation is linked to the market value of the commodity delivered until the date on which the price is determined, and can be realized at any moment, by decision of the rural producer, being valued at fair value, as described in Note 8. Since there is no specific term, and considering that the moment of price determination is at the rural producer's discretion, the total balance of these operations is classified under current liabilities.

The Company's guarantees for loans, financing and debentures are broken down as follows:

	Parent Company	
	9/30/2025	12/31/2024
Secured fiduciary sale – immovable property	<b>438,147</b>	269,240
Guarantees (*)	<b>163,101</b>	430,141
Inventories	<b>1,599,561</b>	493,509
<b>Total</b>	<b>2,200,809</b>	1,192,890

(\*) The guarantees are pledged by the controlling shareholders of the Company, without any remuneration.

On September 30, 2025, in addition to the balances from Parent Company, there are balances of loans and financing in Consolidated, related to the financial institution controlled by the Company. Therefore, considering the specific characteristics of these operations, such Parent Company balances do not have guarantees.

The amounts registered under long-term liabilities as of September 30, 2025 and December 31, 2024 present the following maturity schedule:

	Parent Company		Consolidated	
	9/30/2025	12/31/2024	9/30/2025	12/31/2024
Up to 1 year	<b>1,612,925</b>	758,016	<b>1,923,309</b>	921,068
2 to 3 years	<b>1,344,978</b>	443,837	<b>1,344,979</b>	455,643
3 to 5 years	<b>667,366</b>	684,236	<b>667,365</b>	684,236

	<b>3,785,435</b>	1,892,021	<b>4,095,819</b>	2,066,879

The loans and financing agreements of the Company have covenants typical to these kinds of operations. If such covenants are not observed, the respective operations may be terminated early.

## Três Tentos Agroindustrial S.A.

Notes to the interim financial statements

September 30, 2025

(In thousands of reais, except when otherwise stated)

These contractual clauses, among other conditions, expressly prohibit any change to the Company's capital stock, merger, spin-off, consolidation, transfer or assignment, directly or indirectly, of its controlling interest without previous and express agreement of the creditor financial institutions. Further, under these clauses, the Company must not have any legitimate protests and pending or imminent lawsuits or actions (or lawsuits or actions on the verge of being filed) that, if ruled against the Company, could have adverse effect on its financial condition or its capacity to comply with contractual obligations. In addition, the transfer or assignment of rights and obligations under the agreements must be approved by the creditor financial institutions.

In addition, during the term of a specific agreement, the Company's Net Financial Debt/EBITDA ratio must be of up to 3.00. Compliance with such covenant is analyzed quarterly for debentures, loans and financing.

On September 30, 2025, the Company is in compliance with all clauses related to loans, financing and debentures.

### **Debentures:**

On April 05, 2024, the Company informed the market of the public distribution Offering, with automatic registration, of its first issue of unsecured, non-convertible debentures in a single series, in the initial amount of R\$500,000, with the possibility of an additional lot of up to 25% of the total issue amount. The rating attributed to the issue by Standard & Poor's Rating do Brasil Ltda. was "AA – stable."

The settlement period for this contract runs until 2029, when the principal amount will be fully paid. Until then, the interest will be paid annually. The average interest rate of the contract is 17.31% per year.

## 15. Financial instruments

The Company classifies its financial assets as follows: measured at fair value through profit or loss and at amortized cost. Such classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at the time of initial recognition. The Company's operations expose it to risks related to its financial instruments, which are market risk, credit risk and liquidity risk, with these risks mitigated by Management to minimize and estimate possible adverse effects on the Company's financial performance.

The operations executed by the Company through financial instruments are as follows:

	Parent Company		Consolidated	
	9/30/2025	12/31/2024	9/30/2025	12/31/2024

Loans, financing and debentures	4,095,820	2,066,879	4,057,255	1,942,608

**Accounts receivable – CPR / Commodity suppliers to be determined** – Result directly from the Company's transactions, booked at fair value on the transaction date, with this fair value subsequently pegged to the variation in the prices of the commodities (soybean, corn and wheat).

**Loans and financing** – Transactions carried out with financial institutions, booked using the amortized cost method in accordance with the contractual conditions. The fair value is calculated based on the closing price of these bonds disclosed officially by financial institutions on September 30, 2025.

**Lease liabilities** - Recognition of lease liabilities is related to the net future rent payments adjusted to present value, considering the incremental discount rate used by the Company.

**Other financial assets** – Balances resulting from other transactions with third parties and that will be converted into cash, in addition to balances resulting from transactions with related parties. The fair values of other financial assets do not differ significantly from their book value.

**Other liabilities** – Balances resulting from other transactions and that will be settled in cash. For other liabilities, the book value approximates the fair value.

# Três Tentos Agroindustrial S.A.

Notes to the interim financial statements

September 30, 2025

(In thousands of reais, except when otherwise stated)

**Derivative instruments (commodity futures contracts (CBOT) and swaps on loans)** – The Company is exposed to market risks related mainly to variations in exchange rates and commodity prices. The Company maintains operations in financial instruments to hedge its exposure to such risks.

**Forward contracts – commodities** – The amounts classified as forward commodity contracts refer to the fair value of future operations to buy or sell commodities based on forward contracts with rural producers and clients.

## 16. Tax installment payments

The balance of tax installment payments is related to outstanding ICMS and PIS/COFINS taxes paid in installments to tax authorities. The outstanding balances will be amortized in 52 monthly installments.

## 18. Shareholders' equity

### Capital stock

On September 30, 2025, the Company's subscribed and paid-in capital stock amounts to R\$1,568,275 (R\$1,565,587 on December 31, 2024), divided into 499,497,647 common shares (498,297,647 shares on December 31, 2024), all of which are registered, book-entry, and have no par value. These amounts do not include share issue costs. Changes in the capital and paid-in shares are presented below.

	Number of shares	Capital stock subscribed and paid in	(-) Issue costs and tax effects	Total capital stock
Balance on December 31, 2024	498,297,647	1,565,587	(46,925)	1,518,662
BoD Meeting June 9 – Capital increase	1,200,000	2,688	-	2,688
Balance on September 30, 2025	499,497,647	1,568,275	(46,925)	1,521,350
Balance on December 31, 2023	498,297,647	1,565,587	(46,925)	1,518,662
Balance on September 30, 2024	498,297,647	1,565,587	(46,925)	1,518,662

In connection with its IPO process held in 2021 and new tender offer of shares for primary distribution, pursuant to Technical Pronouncement CPC 08 (R1), the Company incurred transaction costs with the issuance of shares, net of tax effects, in the aggregate amount of (R\$46,925), which was deducted from the capital stock.

### Equity valuation adjustments

Refers to adjustments due to adoption of the cost attributed to property, plant and equipment on the transition date, net of the respective deferred taxes, amounting to R\$347 at September 30, 2025 (R\$1,058 at December 31, 2024).

In addition, equity valuation adjustment also includes the effects of accrued translation adjustments with exchange rate differences resulting from the conversion of financial statements including transactions abroad. The accumulated conversion adjustment of the subsidiary located abroad totaled R\$99 on September 30, 2025 (R\$9,958 on December 31, 2024).

### Capital reserve

The capital reserve was established due to the implementation of the Company's stock option plan, as per Note 20. The balance in the capital reserve is R\$43,547 in the period ended September 30, 2025 (R\$40,594 at December 31, 2024).

(In thousands of reais, except when otherwise stated)

## Capital transaction with partners (reflex)

Capital transaction with partners: In the fiscal year ended December 31, 2023, the Company's subsidiary Tentos Holding Financeira de Participações Ltda. acquired Tentos S.A. Crédito, Financiamento e Investimento, a transaction that reflected R\$2,041 in the Parent Company, since the amount paid by the Company was higher than its Shareholders' Equity on the transaction date. In 2024, there was an adjustment to the shareholders' equity of the subsidiary Tentos S.A. Crédito, Financiamento e Investimento, leading to an adjustment to the share in the investment made by the Parent Company in Tentos Holding Financeira de Participações Ltda., in the total amount of R\$928. The total reflected amount of these transactions on September 30, 2025 is (R\$2,565) ((R\$2,969) on December 31, 2024).

## Shares in treasury

The Board of Directors meeting held on April 12, 2023, approved the acquisition of common shares issued by the Company ("Share Buyback Program") to hold said shares in treasury. Two million shares could be acquired within an 18-month period (between April 13, 2023 and October 13, 2024).

On December 16, 2024, the Board of Directors approved the acquisition of common shares issued by the Company ("Share Buyback Program") to hold said shares in treasury. Under the program, up to 2,000,000 million shares may be acquired between December 17, 2024 and June 17, 2026, with a period of up to 18 months for repurchase. As of September 30, 2025, 337,200 shares related to the approved program were acquired. All shares were acquired until March 12, 2025, at an average price of R\$12.80.

Below is the breakdown of treasury shares on September 30, 2025 and September 30, 2024:

	Value	No. of shares (‘000)
<b>Balance on December 31, 2024</b>	(1,166)	(110)
BoD Meeting Dec. 16 – Acquisition	<b>(3,152)</b>	<b>(227)</b>
Exercised under the stock option plan	<b>4,098</b>	<b>320</b>
<b>Balance on September 30, 2025</b>	<b>(220)</b>	<b>(17)</b>
<b>Balance on December 31, 2023</b>	(1,474)	(135)
BoD Meeting Apr. 12 – Acquisition	(19,991)	(1,865)

### Profit reserve

#### *Reserve for tax incentives - Presumed ICMS Credit*

Refers to the tax incentive for presumed ICMS tax credits provided for in Decree 37,699/97, as described in Note 27. On May 18, 2021, the petition for writ of mandamus that recognized the special tax regime for other tax benefits enjoyed by the Company became final and unappealable. The decision is based on the grounds that the levy of federal tax on ICMS tax benefit would be a violation of the federative principle (article 150, VI, "a" of the Federal Constitution), i.e., the court recognized permanently that no tax levy must be imposed on these incentives. On December 31, 2022, the Company reversed such reserve based on the court decision that ensures no tax should be levied on incentives permanently. Therefore, no reserve is required for such purpose.

#### *Legal reserve*

The legal reserve is accrued annually at the ratio of 5% of net income assessed for each fiscal year, reducing the portion referring to the subsidy for investments, pursuant to article 193 of Federal law 6,404/76, up to limit of 20% of the capital stock.

On December 31, 2024, a legal reserve of R\$27,443 was accrued, based on the net income remaining after accrual of tax incentive reserves.

#### *Investment reserve*

The purpose of the investment reserve is to fund expansion of the activities of the Company and/or its subsidiaries and affiliate companies, including via subscription to capital increases or creation of new projects. Such reserve complies with the limits established in the Bylaws of the Company.

On December 31, 2024, an investment reserve of R\$426,477 was accrued, based on the net income remaining after accrual of tax incentive reserves, legal reserve and allocation to minimum mandatory dividend and proposed additional dividends.

### Dividends

Under the Bylaws, the minimum mandatory dividend corresponds to 5% of net income for the fiscal year, after making the legally mandated allocations to the reserves.

On December 31, 2024, R\$26,071 was allocated as minimum mandatory dividend. Additionally, the Company proposed the allocation of R\$68,875, approved at the Annual Shareholders Meeting.

The breakdown of dividends, as well as the allocation of net income from the fiscal year ended December 31, 2024, is presented below:

<b>Total dividend</b>		<b>94,946</b>
<b>Balance of investment reserve</b>		<b>426,477</b>

## 19. Earnings per share

In accordance with CPC 41 – Earnings per share (IAS 33), the table below presents the reconciliation of net income for the year with the amounts used to calculate basic and diluted earnings per share.

The Company has a category of potentially dilutive common shares related to our stock option plans. For these stock option plans, a calculation is made to determine the number of shares that could have been acquired at fair value, based on the monetary value of the subscription rights linked to the stock option plans.

The number of shares calculated, as described above, is compared to the number of shares issued, assuming the year of the stock option plans.

### Parent Company

## 20. Share-based payments

At the Extraordinary Shareholders Meeting held on February 19, 2021, the Company's shareholders approved a stock option plan limited to ten million shares (10,000,000), representing potential dilution of up to 2.5% of the Company's capital stock. The dilution corresponds to the percentage represented by the number of shares underlying the options divided by the total number of shares issued by the Company.

The Company approved four stock option plans between 2021 and 2025, divided into diverse grants. Each program has specific vesting rules, as well as deadlines and values for exercise and average fair value. At September 30, 2025, the Company has 260,000 shares available for grant.

The Company recognizes the cost with the stock option plans based on the fair value of the options granted, considering the fair value on the date of the grant. The model used for determining the fair value of the options is the Binomial. One of the assumptions of this model is estimation of the fair value of the underlying common shares of the Company on the grant date. Other assumptions include estimating the expected volatility in the share price, the expected period of the option, the risk-free interest rate over the expected period of the option, the exercise price and expectations with regard to dividends.

When options were granted under the first program, the Company did not have historical data for the market prices of its common shares because its shares were not publicly traded. Therefore, with the support of advisors specializing in valuation, a fair value was determined for the underlying common shares based on an economic-financial valuation of the Company adopting an income-based approach using the Discounted Cash Flow method.

An income-based approach involves applying an adequate discount rate that is adjusted to reflect the risks of projected cash flows based on the capital structure and on projected revenue and costs. We used observable data for a group of comparable companies to support the development of our volatility assumption.

When options were granted under the following programs, the Company adopted criteria for calculating the fair value of options. Said criteria were the price of the Company's shares (which

## Três Tentos Agroindustrial S.A.

### Notes to the interim financial statements

September 30, 2025

(In thousands of reais, except when otherwise stated)

currently are publicly traded) on the grant date, the strike price, the vesting periods and dividend yield defined in contract, the risk-free interest rate (Future DI) and the projected rate for adjustment of the strike price (IPCA index) set by the market. The volatility was based on the historical share price of a peer group, since historical data for the Company's share price is still small.

If factors and assumptions change, the future cost of the stock option plans could differ significantly from the one currently registered. Higher volatility and longer periods than those expected result in higher expenses with the stock option plan than that determined on the grant date.

The stock option expenses recognized in the profit or loss for the period ended September 30, 2025 was R\$2,827 (R\$4,377 at September 30, 2024). The amount recognized in shareholders' equity on September 30, 2025 amounted to R\$43,547 (R\$40,594 at December 31, 2024). The effects of the exercise of these stock options on shareholder's equity are detailed on Note 18.

The table below presents information on the model used for each program in force on September 30, 2025:

	1st Program	2nd Program	3rd Program	4th Program 1st grant	4th Program 2nd grant
Total stock options in the plan	-	-	-	1,510,000	1,510,000

## Três Tentos Agroindustrial S.A.

Notes to the interim financial statements

September 30, 2025

(In thousands of reais, except when otherwise stated)

The vesting periods as of the grant date are as follows:

Vesting periods as of grant	% of options released for exercise	Maximum number of shares
As from 3/1/2025	1%	20
As from 3/1/2026	91%	2,400
As from 3/1/2027	6%	170
As from 3/1/2028	2%	60

Between March 24, 2022 and September 2024, members of management and employees participating in the Stock Option Plans of the Company exercised options for common shares without par value. Until September 30, 2025, no options pertaining to 2025 were exercised. The changes in options granted in the programs are presented below:

Plan	Year of Grant	Number of Shares		
		Balance on 12/31/2024	Exercised	Balance on 9/30/2025
First Program	2021	2,400	(1,200)	1,200
Second Program	2022	630	-	630
Third Program	2022	80	(40)	40
Fourth Program	2023	1,120	(280)	780
		<b>4,230</b>	<b>(1,520)</b>	<b>2,650</b>

The number and weighted average strike price of the exercise of stock options under the stock option program are shown below:

	Weighted average strike price	Number of options	Weighted average strike price	Number of options
	9/30/2025	9/30/2025	12/31/2024	12/31/2024
Outstanding on January 1	R\$4.68	4,230	R\$3.20	5,570
Granted in the year	-	-	R\$9.08	550
Exercised during the year	R\$3.67	(1,520)	R\$4.32	(1,890)
Cancelled during the year	R\$9.08	(60)	-	-
Outstanding	R\$5.39	2,650	R\$4.68	4,230
Exercisable	R\$9.08	20	-	-

On September 30, 2025 and September 30, 2024, the outstanding stock options had a strike price in the range from R\$1.75 to R\$9.08.

## 21. Risk management

### General considerations on financial risk management

The Company maintains transactions with financial instruments whose risks are managed using financial position strategies and systems to control exposure limits. These risks include market risk (related to commodity price, other inventories, exchange rate and interest rate), credit risk and liquidity risk.

The overall risk management, which is established by the Company's internal policies, focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company's financial performance. The Company uses derivative instruments to hedge against certain risk exposures. The following table summarizes the nature and extent of risks arising from financial instruments and how the Company manages its exposure.

Risk	Exposure	Methodology used to measure impact	Management
Market risk – commodity and other inventories price volatility	Inventories and operations pegged to agricultural commodities	Sensitivity analysis	Inventories, CPR, commodity suppliers to be determined, future and forward contracts
Market risk – exchange rate volatility	Financial assets and liabilities in foreign currency	Sensitivity analysis	Swap operations on loans and net exposure analysis
Market risk – interest rate volatility	Cash equivalents and loans with variable rates	Sensitivity analysis	Net exposure analysis
Credit risk	Cash and cash equivalents, accounts receivable from clients, derivative instruments	Analysis of maturities and creditworthiness	Diversification of financial institutions and monitoring of credit limits/ratings
Liquidity risk	Loans and other liabilities	Projections of cash flows	Credit facilities available

### a) Market risk

#### (i) Commodity price risk

Agricultural commodity prices and availability are subject to variations due to factors such as changes in meteorological conditions, pests, crops, government programs and policies, competitors, changes in global demand due to population growth and changes in living standards and global production of similar and competing crops.

The Company manages its commodity price exposure through exchange-traded futures contracts, rural producer certificate (CPR) transactions, commodity suppliers to be determined, as well as forward contracts for buying and selling commodities at fixed prices to reduce price risk arising from fluctuations in the market prices of agricultural commodities.

The results of these strategies could be significantly impacted by factors such as volatility in the relationship between long and short positions in commodities, contractual default by counterparties and volatility in freight markets.

## Três Tentos Agroindustrial S.A.

Notes to the interim financial statements

September 30, 2025

(In thousands of reais, except when otherwise stated)

A summary follows of the Company's commodity and other inventories exposures as of September 30, 2025 and December 31, 2024, as well as the instruments contracted by Management to reduce physical exposures (in thousands of 60kg bags), except for Carbon Credits, presented in thousands of units of CBIO.

	Parent Company and Consolidated						Parent Company and Consolidated		
	9/30/2025						12/31/2024		
	Soybean	Corn	Wheat	Canola	Sorghum	CBIO	Soybean	Corn	Wheat
Inventories	5,508	7,043	120	-	-	36	2,180	143	3,556
Accounts Receivable - CPR	3,682	1,177	502	283	-	-	3,339	2,341	5
Forward commodity contracts - buy	25,255	12,036	231	278	53	-	11,621	5,448	2,126
Forward commodity contracts - sell	(17,553)	(14,238)	(174)	-	-	-	(10,059)	(1,179)	(4,145)
Commodity suppliers to be determined	(7,910)	(412)	(198)	(12)	-	-	(7,073)	(424)	(1,474)
Net exposure to price variation	8,982	5,606	481	549	53	36	8	6,329	68

Commodity suppliers to be determined do not have a determined term to fix the price. Therefore, the Company hedges its exposure under the Risk Management Policy, maintaining the balance to be determined hedged by assets, such as inventory of grains, oil, biodiesel and meal. The Company also maintains a financial flow that is compatible with its exposure.

### (ii) Exchange Rate Risk

The Company is exposed to exchange rate risk due to exposures to foreign currencies, basically pegged to the U.S. dollar. Management established a policy determining that the Company manages its exchange rate risk involving its functional currency. Exchange rate risk occurs when future sale transactions and assets or liabilities are recorded in a currency other than the Company's functional currency.

The Company uses derivative instruments to hedge against exchange rate variation and periodically monitors the net foreign currency exposure of its operations. The table below presents the Company's net exposure in thousands of U.S. dollar:

Financial instrument	Parent Company		Consolidated	
	9/30/2025	12/31/2024	9/30/2025	12/31/2024
	USD '000	USD '000	USD '000	USD '000

## (iii) Interest Rate Risk

The Company's main interest rate risk stems from cash equivalents, loans and related parties with variable rates, which exposes the Company to cash flow risks associated with interest rates. The variable rates to which the Company has principal exposure are the Interbank Deposit Certificates (CDI) and the Broad Consumer Price Index (IPCA).

## *Interest rate risk sensitivity analysis*

The sensitivity analysis presented below was determined based on the exposure to interest rates for the most relevant indices at the end of each period. This scenario reflects the expectations of the Company's Management regarding how this risk factor could impact pre-tax profit or loss.

	13,606			176		352		(176)		(352)

### b) Credit Risk

Credit risk stems from cash and cash equivalents, contractual cash flows from financial assets measured at amortized cost, at fair value through profit or loss, favorable derivative instruments, deposits in banks and other financial institutions, as well as credit exposures with clients, including outstanding accounts receivable.

Credit risk is managed based on a corporate approach. Clients are classified by the credit analysis department, which assesses the client's credit worthiness, considering its financial position, historical performance and other factors. Individual risk limits are determined based on internal or external classifications based on the limits determined by the Company. The use of credit limits is regularly monitored, and management does not expect any delinquency-related losses from these counterparties exceeding the amount already provisioned.

## Três Tentos Agroindustrial S.A.

Notes to the interim financial statements

September 30, 2025

(In thousands of reais, except when otherwise stated)

### Trade accounts receivable

The Company adopts the simplified approach of CPC 48 (IFRS 9) to measure expected credit losses, taking into account a provision for expected losses over the useful life of all trade accounts receivable.

As such, credit losses are calculated taking into account the individual risk factor of each client past due, in addition to historical losses, and then allocates the provisions required to cover potential losses, based on Management's opinion. Accounts receivable from clients are written off when there is no reasonable expectation of recovery. The ageing of receivable balances is shown in Note 5.

### Cash and cash equivalents, and financial investments

The credit risk of banks, financial investments with immediate liquidity and financial investments is managed by the Company based on its Risk Management Policy. For cash and cash equivalents and financial investments, the Company only invests with prime banks with low credit risk, based on the evaluation of credit-rating agencies.

#### c) Liquidity risk

Liquidity risk is the risk that the Company will encounter challenges in meeting the obligations associated with its financial liabilities that are settled via cash payments or other financial assets.

Management monitors the continuous projections of the Company's liquidity requirements to ensure that it holds sufficient cash to meet its operational needs. It also maintains a sufficient cushion in its overdraft credit facilities, which are available at any moment, so that it does not breach the limits or covenants (when applicable) of any of its credit lines. These projections take into account the Company's liability management plans, compliance with covenants, compliance with internal equity ratio targets and, if applicable, external or legal regulatory requirements, e.g., currency restrictions.

The Company manages liquidity risk by maintaining adequate reserves, bank credit facilities, loans and financing, continuously monitoring budgeted and actual cash flow and honoring the maturity profiles of financial assets and liabilities.

The following table analyzes the Company's non-derivative financial liabilities that are settled on a net basis, by maturity date, corresponding to the period remaining between the reporting date and the contractual maturity date. Derivative financial liabilities are included in the analysis if their contractual maturity dates are essential for a reasonable understanding of cash flows. The amounts shown in the table are the projected balances considering the contractual conditions of each financial liability and their contractual disbursement period.

The Company conducts capital management to ensure that it is able to maintain normal operations, while simultaneously maximizing returns for shareholders by optimizing the debt/equity ratio. The Company's general strategy remains unchanged for the current period.

The Company monitors capital based on the financial leverage ratio. Such index equals net debt expressed as a percentage of total capital. Meanwhile, net debt (net cash) corresponds to total loans (including short- and long-term loans), subtracted from the amount of cash, cash equivalents and financial investments. Total capital is calculated by adding shareholders' equity, as shown in the balance sheet, and net debt.

The Company's Management reviews the capital structure annually. As part of such review, Management considers the cost of capital and the risks associated with each class of capital.

The Company's financial leverage indicators are shown below:

Own capital (c/d)	40.12%	46.63%	37.98%	45.51%

## 22. Revenues

The Company generates revenues mainly through the sale of agricultural inputs (seeds, fertilizers, crop protection), sale of commodities (wheat, corn, soybeans and other grains), and processing of soybeans, which results in the production and sale of degummed soybean oil and soybean meal—which are considered derived industrial commodities—and biodiesel. In its consolidated result, the Company also recognizes revenues from financial intermediation operations carried out by the Group's financial institution.

A reconciliation of gross revenues for tax purposes and revenues presented in the statement of income is shown below:

## 24. Segment information

The Company defines its operating segments as Ag. Inputs, Grains, and Industry, considering that this is the manner in which performance is analyzed by the Board of Directors and the Executive Board. Results are assessed based on performance segregated by segment up to gross profit, a metric that is also used as a reference for operational decision-making and for comparability with other entities operating in the same industries.

The assets and liabilities of the Company are managed jointly for all segments and are not assessed separately by segment by the Management.

The operational segments presented below are organized in accordance with the internal reports of the segments:

- (i) Agricultural inputs: the marketing of fertilizers, plant-protection products, foliar fertilizers and soybean, corn and wheat seeds. The result of this segment is determined by the revenue from sales of these products, measured as of the moment the Company transfers to the client control of the products sold.
- (ii) Soybean, corn and wheat grains: operations involving the physical receipt, standardization and trading of grain acquired from third parties, as well as grain originating from operations involving rural producer certificates (CPR). The result of this segment is determined by the revenue from operations to buy and sell agricultural commodities, including the variation in financial instruments linked to the trading of these commodities, as well as in the related nonmonetary assets.
- (iii) Industry: operations involving the processing of soybean to produce meal and biodiesel.

## Três Tentos Agroindustrial S.A.

Notes to the interim financial statements

September 30, 2025

(In thousands of reais, except when otherwise stated)

Deferred income tax and social contribution at September 30, 2025 and December 31, 2024 refer to:

	Parent Company		Consolidated	
	9/30/2025	12/31/2024	9/30/2025	12/31/2024
Provision for litigation	1,370	2,266	1,370	2,266
Provision for expected losses from trade accounts receivable	21,531	11,509	22,820	12,315
Fair value adjustment of derivative instruments	(93,422)	64,882	(93,422)	64,882
Fair value adjustment of inventories	(24,807)	(61,755)	(24,807)	(61,755)
Difference in depreciation rates	(58,068)	(44,251)	(58,068)	(44,251)
Property, plant and equipment - deemed cost	(118)	(360)	(118)	(360)
Other temporary differences	617	419	734	434
Tax loss carryforward and negative social contribution base	138,234	181,924	138,234	181,924
Provision for profit sharing	-	11,934	-	11,934
Lease CPC 06	41	470	41	470
Provision for tax on income earned abroad (TBU)	991	-	991	-
<b>Deferred taxes, net</b>	<b>(13,631)</b>	<b>167,038</b>	<b>(12,225)</b>	<b>167,859</b>

The recoverability of the balance of deferred tax assets is reviewed at the end of each year, and when it no longer is possible to generate the future taxable income for recovering the entire asset or part of it, it is written off. The estimates of the realization of deferred taxes involves the uncertainties of other estimates.

The realization of deferred assets on temporary differences occurs as temporary differences are realized depending on the nature of each balance. The highest temporary difference registered refers to the fair value adjustment of commodities and other inventories, which is realized in assets as the inventory is transformed and sold and in liabilities as prices are determined.

On September 30, 2025, we revised the expected realization of the deferred asset recognized on income tax loss and the negative social contribution base according to the expected growth of the Company in the coming years. The remaining amount of R\$138,234, booked as deferred tax on September 30, 2025, is expected to be offset with future taxable income, as per the Company's projections, in the following periods:

Up to one year	89,027
From one to five years	49,207
<b>Total</b>	<b>138,234</b>

## Três Tentos Agroindustrial S.A.

Notes to the interim financial statements

(In thousands of reais, except when otherwise stated)

### 27. Government subsidies

The government subsidies received by the Company correspond to:

#### *State tax incentive - Presumed ICMS tax credit*

The Company assesses presumed ICMS tax credits on its sales operations in the state of Rio Grande do Sul, pursuant to Decree 37,699/97, which are calculated based on 66.67% of the tax levied on sales of biodiesel. Said credit was granted in Mato Grosso, as per Decree 2,212/2024, and regulated by Condeprodemat Resolution 041/2019, calculated based on 75% of the tax levied on biodiesel sales, 70% of the tax levied on interstate sales of byproducts from biodiesel production, 41.67% of the tax levied on interstate sales of degummed soybean oil and 50% of the tax levied on interstate sales of meal and soybean hull.

The amounts calculated as tax incentive are deducted from the line ICMS payable as a corresponding entry to net income, in the line sales taxes. To use the credit granted in Mato Grosso, the Company contributes 6% of it to FUNDES and 1% to FUNDEB.

On May 18, 2021, the Company received a final and unappealable judgement granting its action for a Writ of Mandamus which claimed that amounts related to presumed ICMS tax credits are not part of the calculation base of income tax (IRPJ) and social contribution (CSLL), based on the grounds that the levy of federal tax on ICMS tax incentives violates the federative principle.

#### *Federal tax incentive - Presumed PIS and COFINS tax credits*

The Company assesses presumed PIS and COFINS tax credits, in accordance with Federal Law 12,865, of October 10, 2013, that are available to companies that process soybean, which are calculated based on the sales revenue from each product. Presumed PIS and COFINS tax credits are classified as subsidy for funding.

The amounts assessed as incentives are recorded in the line PIS and COFINS recoverable as a corresponding entry to profit and loss, in the line sales taxes.

The table below breaks down the tax incentives recognized in the result for the nine-month periods ended September 30, 2025 and September 30, 2024.

Incentives	7/1/2025 to 9/30/2025	1/1/2025 to 9/30/2025	7/1/2024 to 9/30/2024	1/1/2024 to 9/30/2024
Presumed ICMS credit on meal and biodiesel	84,314	250,330	76,358	212,121
Total state tax incentives	84,314	250,330	76,358	212,121
Effect of the exclusion on income tax/social contribution - 34% (Note 26)	28,667	85,112	25,962	72,121
Presumed PIS/COFINS credits on soybean processing	64,256	165,958	51,435	142,208
Total federal tax incentives	64,256	165,958	51,435	142,208
Total	148,570	416,288	127,793	354,329

## 28. Related parties

### Sale of investment

In November 2014, the Company sold its equity interest of 25% in 4 Ventos Agroindustrial S.A. to its parent company Sinuelo Participações Ltda., for R\$40,000. The transaction was carried out on an arm's length basis. The installments will be paid in 10 years, with annual inflation adjustment by the IPCA index. The outstanding balance at the end of reporting periods is presented based on the adjusted amount and classified in accordance with the due date.

The balance receivable at September 30, 2025 for this operation is R\$10,269 (R\$9,909 at December 31, 2024). The effect from the adjustment for IPCA inflation in the last nine months on the result is R\$360 (R\$454 at September 30, 2024). Positive balances are classified under Receivables from related parties, in the balance sheet.

### Reimbursement of expenses

These are routine operations primarily resulting from the shared use of spaces, tools, or services between companies of the group. Such amounts are formalized through the issuance of a debit note. The amounts are booked in the Company's result according to their nature, and the rights and liabilities arising from these transactions are recorded in the Company's accounts receivable and accounts payable, respectively.

### Transactions involving core activities

The transactions carried out by the Company with related parties involving core activities are conducted under agreed conditions, adhering to the Company's standard payment terms and customary timelines. The negotiated amounts adhere to the price lists used by the Company or the market value, as applicable.

Transactions involving core activities are divided as follows:

- Transactions of sale of ag. inputs and purchase of grains: carried out with the related parties João Osório Dumoncel and Luiz Osório Dumoncel - Parceria Agrícola Dumoncel (shareholders) and with other members of management who are directors of the Company. The amounts are booked in the Company's result as revenue and cost, with the rights and liabilities arising from these transactions recorded as accounts receivable and accounts payable, respectively.
- Export of commodities: carried out with 3T International S.A. The amounts are booked as revenue, with the rights resulting from these transactions recorded as accounts receivable.
- Provision of financial services: carried out between the companies Tentos Corretora de Seguros Ltda. Tentos S.A. Crédito, Financiamento e Investimento and Tentos Promotora de Vendas Ltda. The amounts are booked in the Company's result, with the rights and liabilities arising from these transactions recorded as accounts receivable and accounts payable, respectively.
- Provision of air transportation services: carried out with Mates Locações Aéreas Ltda. The amounts are booked in the Company's result, with the liabilities resulting from these transactions recorded as accounts payable.

### 30. Events After the Reporting Period

i) Issuance of Agribusiness Receivables Certificate (CRA):

The Company carried out the issuance of CRA through the application for registration of distribution, with the Securities and Exchange Commission of Brazil (CVM), pursuant to article 26, VIII, item “b,” of CVM Resolution 160, of July 13, 2022, of the public offering for the distribution of agribusiness receivables certificates, all registered and book-entry, in up to three “CRA” series, to be issued by Opea Securitizadora S.A. “Securitization company,” backed by rural producer certificates with financial settlement (CPR-F) issued by the Company. The total amount of the issuance is R\$500,000 on the date of issuance of the CRA. The amount was effectively settled in the Company's current account on October 22, 2025, in the sum of R\$484,111, net of issuance expenses.

## Três Tentos Agroindustrial S.A.

Notes to the interim financial statements

September 30, 2025

(In thousands of reais, except when otherwise stated)

### ii) Issuance of Investment Fund in Agroindustrial Production Chains (FIAGRO):

On October 16, 2025, the Board of Directors authorized the execution of the "Third Amendment to the Commitment Agreement for the Assignment and Acquisition of Credit Rights and Other Covenants," to be entered into between the Company, Tentos S.A. Crédito, Financiamento e Investimento, Três Tentos Fiagro Responsabilidade Limitada, Oliveira Trust Distribuidora de Títulos e Valores Mobiliários S.A. and Opea Gestora de Recursos Ltda., whose object is the commitment to the assignment of credit rights owned by the Company and/or TentosCap to the Fund, according to the Fund's cash availability. The Board also authorized the execution of the "Agreement for the Structuring, Coordination and Public Distribution of Senior Quotas under the Firm Placement Guarantee Regime Issued by Três Tentos FIAGRO Responsabilidade Limitada," to be entered into between the Company, Tentos S.A. Crédito, Financiamento e Investimento, Três Tentos Fiagro Responsabilidade Limitada, Oliveira Trust Distribuidora de Títulos e Valores Mobiliários S.A., Opea Gestora de Recursos Ltda., and Itaú BBA Assessoria Financeira S.A., through which Itaú BBA was engaged for the primary public offering of quotas issued by the Fund. On October 28, 2025, the Company assigned receivables in the face amount of R\$308,943 and present value of R\$280,713.

### iii) Partnership with Ipiranga – fuel distribution hub in Vera (MT):

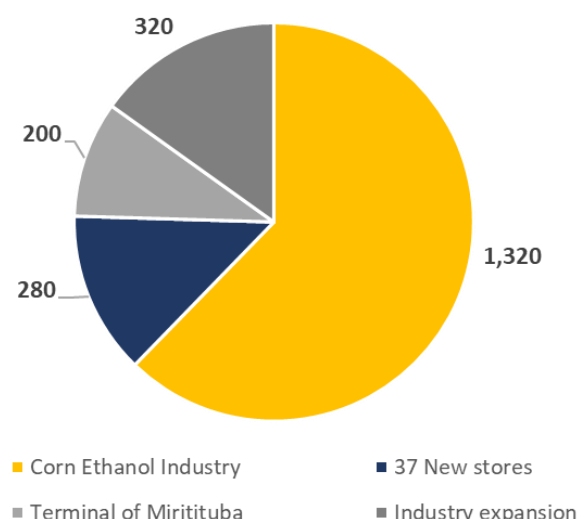

In October 2025, the Company entered into a partnership with Ipiranga to establish a fuel distribution hub within the Vera (MT) complex, utilizing land granted under a long-term, loan-for-use agreement. The facility will be connected to the biodiesel plant by a pipeline roughly one kilometer long, with an estimated annual capacity of 360 million liters. The project aims to optimize the logistics chain by reducing biodiesel transportation costs, with commissioning scheduled for 2027.

**3.2 In the event that the issuer has disclosed, during the last 3 fiscal years, projections on the evolution of its indicators:**

**a. inform which ones are being replaced by new projections included in the form and which ones are being repeated in the form**

On January 15, 2024, the Company announced its New Growth Cycle plan with an initial investment of approximately R\$ 2.0 billion over the next 7 years (2024-2030), which was adjusted to R\$ 2.120 billion in the material fact notice of November 11, 2024.

**CAPEX Distribution (millions)**

**Disbursement schedule**

On November 13, 2025, a material fact was released with an update regarding investments and disbursement schedules. The investment in the Corn Ethanol plant increased from R\$1.160 million to R\$1.320 million, due to technological improvements and increased infrastructure, already indicating future expansion. The investment in industrial expansions increased from R\$260 million to R\$320 million, due to the increase in soybean processing capacity at the Cruz Alta/RS industrial plant, from 3,600 tons/day to 4,000 tons/day. Additionally, this update on industrial expansions includes investments for adapting the Ijuí/RS plant to process canola. Investments in Expansion Avenues, which were initially projected at R\$220 million, were distributed among the projects mentioned above.

By 2030, the Company projects to have 4 industrial plants, 3 of which will be soybean processing industrial plants with a total capacity of 10,800 tons of soybeans per day.

The soybean processing industrial plants will have the capacity to produce 7,300 tons of soybean meal per day and 2,000 tons of soybean oil per day.

The other projections remained unchanged.

***b. regarding projections relating to periods that have already passed, compare the projected data with the actual performance of the indicators, clearly indicating the reasons that led to deviations in the projections***

**“STORE OPENINGS”:**

Below, we provide the projection of the evolution of the number of stores, coverage area and static capacity according to version 3 of the reference form dated 11/11/2024 (material fact of 11/11/2024).

***TABLE: Evolution of the number of stores, coverage area and static capacity – Source: Material Fact of 11/11/2024***

	2024	2030
Number of stores	70	100
Coverage area (millions ha)	21.5	
Static Capacity (thousand ton)	1,700	

**Company’s Notes:** During the disclosure of the financial statements and the 3Q25 earnings release dated 11/13/2025 and in the reference form version 5 of the same date, all expectations for the year 2024 were achieved, and the forecasts for 2030 were maintained.

**“GRAIN ORIENTATION”:**

Below, we provide the projection of the evolution of grain origination according to version 3 of the reference form dated 11/11/2024 (material fact of 11/11/2024).

**TABLE: Evolution of grain origination – Source: Material Fact of 11/11/2024**

<b>Mato Grosso</b>	<b>800</b>	<b>1,290</b>	<b>2,965</b>
Soybeans	600	980	1,625
Corn/Sorghum	200	310	1,340
<b>Total</b>	<b>2,820</b>	<b>3,980</b>	<b>6,145</b>
Soybeans	2,100	3,100	4,105
Corn/Sorghum	320	430	1,460
Wheat	400	450	500
Canola			80

**Company’s Notes:** During the disclosure of the financial statements and the 3Q25 earnings release dated 11/13/2025 and in the reference form version 5 of the same date, in 2024, wheat origination was slightly below expectations due to the 2023 crop failure in RS. The remaining volumes according to the soybean and corn crops for 2024 were achieved. Forecasts for 2025 were maintained.

**“SOYBEAN COMPLEX – VALUES IN THOUSANDS OF TONS”:**

Below, we provide the projection of the evolution of the soybean complex according to version 3 of the reference form dated 11/11/2024 (material fact of 11/11/2024).

***Evolution of the soybean complex – Source: Material Fact of 11/11/2024***

Values in thousand ton	2023	2024	2025
<b>Soybean origination (A)</b>	<b>2,100</b>	<b>3,100</b>	<b>4,105</b>
Rio Grande do Sul	1,500	2,120	2,480
Mato Grosso	600	980	1,625
<b>Quantity of Processed Soybean (B)</b>	<b>1,570</b>	<b>2,200</b>	<b>2,560</b>
Rio Grande do Sul	1,120	1,300	1,560
Mato Grosso	450	900	1,000
<b>Soybean Trading (A – B)</b>	<b>530</b>	<b>900</b>	<b>1,545</b>

**Company's Notes:** During the disclosure of the financial statements and the 3Q25 earnings release dated 11/13/2025 and in the reference form version 5 of the same date, in 2024, the volumes of soybean origination and soybean trading were achieved, however, the volume of soybean processed was slightly lower, due to the preventive maintenance shutdown of the Vera/MT industry. Forecasts for 2025 were maintained.

**“SOYBEAN COMPLEX – SOYBEAN MEAL + OIL AND/OR BIODIESEL”:**

Below, we provide the projection of the evolution of the soybean complex according to version 3 of the reference form dated 11/11/2024 (material fact of 11/11/2024).

***TABLE: Evolution of the soybean complex – Soybean meal and/or Biodiesel – Source: Material Fact of 11/11/2024***

	2023	2024	2025
<b>Soybean meal (thousand ton)</b>	<b>1,178</b>	<b>1,530</b>	<b>1,865</b>
Rio Grande do Sul	840	890	1,155
Mato Grosso	338	640	710
<b>Soybean oil and/or Biodiesel<sup>2</sup></b>	<b>353</b>	<b>560</b>	<b>680</b>
Rio Grande do Sul	252	290	390
Mato Grosso	101	270	300

**Company’s Notes:** During the disclosure of the financial statements and the 3Q25 earnings release dated 11/13/2025 and in the aforementioned reference form version 5 of the same date, in 2024, all estimates were achieved. Forecasts for 2025 were maintained.

**c. regarding projections relating to periods still in progress, inform whether the projections remain valid on the date of delivery of the form and, where applicable, explain why they were abandoned or replaced**

All projections of the material fact and version 5 of the reference form, both dated 11/13/2024, there has been an update to the New Growth Cycle projects, as per item 3.1 above.

<sup>2</sup> Quantity of soybean oil (in thousand tons) and quantity of Biodiesel (in thousand m<sup>3</sup>).

To the Shareholders, Directors and Members of Management of  
**Três Tentos Agroindustrial S.A.**  
Santa Bárbara do Sul - RS

**Introduction**

We have reviewed the separate and consolidated interim financial statements of Três Tentos Agroindustrial S.A. (“Company”) for the quarter ended September 30, 2025, which comprise the balance sheet of September 30, 2025 and the respective statements of income and comprehensive income, for the three- and six-month periods then ended, and of changes in shareholders’ equity and cash flows for the nine-month period then ended, as well as the accompanying notes.

The Company management is responsible for preparation of the separate and consolidated interim financial information in accordance with CPC 21(R1) and IAS 34 – Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), as well as for the fair presentation of this information in conformity with the rules issued by the Brazilian Securities and Exchange Commission (CVM) applicable to the preparation of the Quarterly Financial Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

**Scope of review**

We conducted our review in accordance with Brazilian and international standards on review of interim financial information (NBC TR 2410 and ISRE 2410 - Review of Interim Information performed by the Independent Auditor of the Entity). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with audit standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

**Conclusion on the separate and consolidated interim financial information**

Based on our review, nothing has come to our attention that causes us to believe that the separate and consolidated interim financial information included in the quarterly financial information referred to above was not prepared, in all material respects, in accordance with CPC 21(R1) and IAS 34 applicable to the preparation of Quarterly Financial Information (ITR), and presented consistently with the rules issued by the Brazilian Securities and Exchange Commission (CVM).

**Other matters - Statements of value added**

The above-mentioned quarterly financial information includes the statements of value added (SVA), separate and consolidated, for the six-month period ended September 30, 2025, prepared under the responsibility of the Company’s management and presented as supplementary information for IAS 34 purposes. The statements were submitted to review procedures carried out in connection with the review of the quarterly information to conclude if they are reconciled with the interim financial statements and accounting records, as applicable, and if their form and content are in accordance with the criteria defined in Technical Pronouncement CPC 09 – “Statement of Value Added”. Based on our review, nothing has come to our attention that causes us to believe that such statements of value added were not prepared, in all material respects, in accordance with the criteria established in such standard and is consistent with the separate and consolidated interim financial statements taken as a whole.
