## Message from Management

We delivered another year of strong performance, with Net Revenue of R\$12.8 billion, representing growth of 42.5% compared to the previous year. 3tentos, through its ecosystem, continues to add value to the Brazilian agribusiness chain with ag inputs, grains, industries and financial services, in the states of Rio Grande do Sul and Mato Grosso. Our commitment is to offer differentiated solutions for producers, consumers and suppliers.

We maintain a solid and well-structured pace of expansion of commercial and industrial operations, always with the aim of strengthening integration and synergy between businesses. Our entry into the state of Mato Grosso, which began in the second half of 2021, already represents 35% of total Net Revenue, consolidating our presence in the largest agricultural market in the country and contributing to the mitigation of climate risks.

The outlook for 2025 is positive for agriculture, with a record harvest expected in Brazil. 3tentos has achieved a prominent position in the sector, contributing to the flow of Brazilian production to the main global markets, whether in the commercialization of grains (soybean, corn and wheat) or in the export of industrial products, such as soybean meal, oil and glycerin.

In 2024, we began promoting a new crop in Rio Grande do Sul: canola. Our technical and commercial departments are prepared to support producers in Rio Grande do Sul in this new diversification alternative for the winter period, providing ag inputs and originating the grain. Canola will be an important raw material for oil extraction, expanding supply at a strategic time of the year.

We thank all our customers and suppliers for their trust in 3tentos in another year of operation in agribusiness. In 2025, we will complete 30 years of activity, a significant milestone in our trajectory. I want to express special recognition to "Team 3tentos", as I always refer to, for their work, dedication and commitment to offering innovative solutions for Brazilian agribusiness.

Cordially,

**Luiz Osório Dumoncel**  
CEO and Founder

Net Operating Revenue (NOR) reached R\$3,853.5 million in 4Q24, growth of 27.2% compared to 4Q23. The Grains segment showed strong performance, explained by the greater volume of soybeans and wheat sold, reflecting better harvests in RS observed in 2024 compared to 2023. The Ag Inputs segment showed growth, due to the Company's greater participation in coverage areas.

It is important to highlight that NOR reached R\$12,825.8 million in 2024, growth of 42.5% compared to 2023. Contribution from all segments of the Company with volume expansion, mainly in crop protection, soybean trading, soybean meal and biodiesel. Some factors that contributed to this result, (i) better 23/24 soybean harvest in RS compared to the 22/23 harvest, (ii) better industry efficiency, expanding the volumes of soybean meal and biodiesel.

Adjusted Gross Profit reached R\$728.3 million in 4Q24, growth of 46.7% compared to 4Q23, and adjusted gross margin of 18.9% (+2.5 p.p.). Strong performance, with contribution throughout all segments, both in volume and margin growth. In Ag Inputs, we began planting soybeans in RS and MT with the producer maintaining an expansion of the planted area and 3tentos, with its greater participation in the regions covered, boosted volumes, already starting participation in Vale do Araguaia. In Grains, a reflection of the greater volume of soybeans and wheat, in addition to better margins in the sale of wheat in 2024. In Industry, we had a contribution from the greater volume of soybean meal and biodiesel and a better crushing margin.

As observed throughout 2024, the greater volume of products sold and the recovery of margins in all segments, we ended the year with an Adjusted Gross Profit of R\$2,164.4, an increase of 76.0%, and an adjusted gross margin of 16.9% (+3.2pp).

The analyzes in each segment will be detailed later in this document.

The performance of the Ag Input Segment in the fourth quarter is related to the start of soybean planting in Rio Grande do Sul and Mato Grosso. We have 70 stores serving rural producers with a wide portfolio of products and services. We maintained consistent growth in fertilizers and crop protection throughout 2024, on the other hand, seeds were impacted by lower availability on the market due to the worsening in quality, as a result of the rains present during the harvest, of both wheat and soybeans.

The Net Operating Revenue of the Ag Inputs Segment in 4Q24 was R\$1,224.3 million, growth of 19.5% compared to the previous year. This growth is related to the greater volume of fertilizers and crop protection, even with lower prices compared to 4Q23. In relation to seeds, higher prices helped to compensate for part of the lower volume.

In the year, the NOR was R\$2,819.6 million, which initially in the first half of 2024 was a challenging scenario to deliver growth in 2024, taking into account the credit scenario in agriculture, the producer's delay in purchasing Ag Inputs, and lower prices compared to the previous year, 3tentos, with its differentiated performance in the field and increasing exposure in its coverage areas, delivered growth in the segment.

Mato Grosso's share in 2024 was 23% of the total NOR of Inputs.

## Lucro Bruto e Margem

Valores em R\$ milhões, %

Gross Profit from the Ag Input Segment grew by 27.0% in 4Q24, totaling R\$241.0 million with a gross margin of 19.7% (+1.2 p.p.). During the year we presented an increase in the margin (+0.4 p.p.) with a 13.7% growth in gross profit compared to the previous year. The greater volume of fertilizers and crop protection, combined with the recovery in margins, contributed to growth in the quarter and year.

The Grains Segment showed strong performance in 4Q24, mainly in the sale of soybeans and wheat, due to better harvests in RS in 2024 compared to 2023. In corn, we presented a greater concentration in sales during 3Q24.

During the year, we showed growth in all crops. We are actively participating in the field with origination, at the same time, strengthening relationships with the main global buyers of these grains.

Net Operating Revenue from the Grains Segment in 4Q24 was R\$915.2 million, growth of 166.4% compared to the previous year's quarter. In the year, NOR was R\$3,257.4 million, an increase of 84.4% in the annual comparison. Performance is explained by the higher volume of grains sold, both in the quarter and in the year. During the year, the volume of soybeans showed significant growth, in addition to corn and wheat, which also contributed to growth in the segment.

Mato Grosso's share in 2024 was 30% of the total NOR of Grains.

## Gross Profit and Gross Margin

Figures in R\$ million, %

The Grains Segment's Gross Profit grew by 296.6%, totaling R\$118.5 million in 4Q24 and a gross margin of 13.0% (+4.3 p.p.). The growth is related to the increase in volumes, mainly of soybeans and wheat, and the improvement in profitability was contributed by wheat, due to the better quality of the cereal in the 2024 harvest compared to the previous year's harvest.

### Volume

(thousand tons and thousand m<sup>3</sup>) (Industry: -8% 4Q24 x 4Q23; +46% 2024 x 2023)

In the Industry Segment, performance in the fourth quarter was influenced by the better performance of industries in RS (Ijuí/RS and Cruz Alta/RS) and by the performance of the industry in Mato Grosso (Vera/MT), which underwent a 30-day preventive maintenance stoppage during the quarter. During the shutdown, processing capacity expanded, going from 2,600 tons/day to 3,000 tons/day of soybean processing.

It is worth highlighting that, in the annual comparison, the Vera/MT industry began operating in 3Q23.

We show below the volume of soybeans processed quarterly, which can be seen due to the lower processing in 4Q24 due to the 30-day preventive maintenance stoppage of the Vera/MT industry.

The performance of both periods can be explained by the better performance of the industries compared to 4Q23.

Mato Grosso's share in 2024 was 43% of the total Industry NOR.

## Gross Profit and Gross Margin

Figures in R\$ million, %

The Gross Profit of the Industry Segment grew by 33.2%, totaling R\$368.8 million in 4Q24, with a gross margin of 21.5% (+4.8 p.p.). The best soybean origination throughout 2024, in addition to the good demand for industry products, contributed to the growth and profitability of the segment. Unlike 2023, in which the lower supply of soybeans in RS negatively impacted the margin.

## Gross Profit (R\$/ton)

The crushing margin has been showing a consistent increase, combined with better soybean origination throughout 2024.

Selling, General and Administrative Expenses totaled R\$344.4 million in 4Q24, an increase of 15.5% compared to the previous quarter. If we analyze them as a percentage of net operating revenue, they represented 8.9%, 0.9 p.p. lower compared to 4Q23. The variation in expenses is mainly related to the following factors:

| Figures in % over<br>Net Operating Revenue | 4Q24   | 4Q23   | Var   | 3Q24   | Var   | 2024    | 2023   | Var   |

In 4Q24, the dilution of logistics expenses is associated with the gain in operational efficiency and greater participation of Rio Grande do Sul in the volume sold in the quarter. On the other hand, the increase in personnel expenses is related to hiring aimed at expanding commercial and industrial operations. In the annual comparison, we achieved efficiency in personnel expenses and other expenses.

## Volume of Grains and Meal

Thousand of tons

The volume of grains and soybean meal sold in 4Q24 grew by 18.8% compared to the same period of the previous year. In Rio Grande do Sul, we had significant increases in soybeans and wheat, with better harvests compared to the previous harvest. In Mato Grosso, the volume of soybean meal in 4Q24 was impacted by the scheduled maintenance stoppage of the Vera/MT industry, and early commercialization of corn in 3Q24.

## Adjusted EBITDA

Adjusted EBITDA, which disregards the effect of FVA, was R\$410.3 million in 4Q24, growth of 90.4% compared to 4Q23. The Adjusted EBITDA margin of 10.6% increased by 3.5 p.p. compared to the same period of the previous year. In the year, Adjusted EBITDA was R\$973.6 million, an increase of 101.4%, and an improvement of +2.2pp. on the margin. This result is explained by the increase in margins, mainly in the Industry segment, due to gains in operational efficiency, while in the Ag Inputs and Grains segments the improvement was due to the increase in volumes.

## Net Financial Result

The net financial result was negative by R\$186.5 million in 4Q24 and R\$244.3 million in 2024. This result was mainly impacted by the effect of the mark-to-market "MTM" of derivative instruments, a negative net amount of R\$198.8 million in 4Q24 and R\$242.0 million in 2024.

## TentosCap

On December 31, 2024, TentosCap's credit portfolio reached R\$219 million, registering a significant growth of 114% compared to the same period of the previous year. One of the main highlights of the period was the month of November, especially during the week of Black Friday, when more than 100 new credit operations were created, totaling approximately R\$100 million. Part of these amounts were disbursed during the period, while the remainder remains available for future business.

We ended 2024 with a team of 10 financial advisors, strategically distributed between the states of Mato Grosso (4 professionals) and Rio Grande do Sul (6 professionals), aiming to maintain TentosCap's significant growth within the 3tentos ecosystem, consolidating our presence in the market. Furthermore, we maintain our commitment to expansion with a careful approach to risk management, especially in the face of the more restrictive credit scenario.

With this aim, TentosCap continues to improve its offer of products and services aimed at rural producers, providing lines of credit for working capital and the harvest term credit card. A new feature of the card is the introduction of 1% cashback on the amount used on the card, applied to an LCA (a.k.a. Letra de Crédito do Agronegócio) issued by TentosCap, with a yield of 150% of the CDI and exemption from income tax on interest. Furthermore, we expanded our range of solutions by offering agricultural and property insurance, reinforcing our commitment to supporting rural producers with complete and efficient financial solutions.

## Expansion of Operations

### Ag Inputs and Grains Segments

In 2024 we opened 7 new stores, distributed between Rio Grande do Sul and Mato Grosso. In 4Q24, we opened a store in Arroio Grande/RS.

Stores open in 2024 according to the regions:

#### Rio Grande do Sul

- Espumoso/RS (1Q24)
- Santo Antônio das Missões/RS (2Q24)
- Arroio Grande/RS (4Q24)

#### Mato Grosso (BR-163)

- Nova Mutum/MT (2Q24)

#### Mato Grosso (Vale do Araguaia)

- Confresa/MT (2Q24)
- São Félix do Araguaia/MT (2Q24)
- Querência/MT (3Q24)

We have 70 stores (58 in RS and 12 in MT) serving producers in the sale of Ag Inputs (seeds, fertilizers and crop protection) and origination of grains (soybean, corn and wheat) with our team of 196 consultants (152 in RS and 44 in MT).

## About 3tentos

The Company, the most complete agricultural ecosystem in Brazil, is a family company, with 30 years of operation, which offers vertical and integrated solutions for farmers, with a wide range of retail products of agricultural inputs, grains and industry. The business model is based on forging long-term relationships with farmers, with the Company currently managing a portfolio of 24,000 active clients. In addition to supplying agricultural inputs and acquiring production, 3tentos also offers farmers training, consulting and technical services to add value through technical sales and by helping them achieve the highest yields and profits from their crops. We operate mainly in three business segments:

- **Agricultural input retailing ("Ag Inputs")**, which has complete range of agricultural inputs to meet all the needs of rural producers by selling various types of seeds, crop fertilizers and agrochemicals for soybean, corn, wheat and rice.
- **Grain origination and trading ("Grains")**, which involves the purchase and sale of grains from farmers, with static storage capacity of over 1.7 million tons of soybean, corn and wheat.
- **Grain processing ("Industry")**, with three plants located in Ijuí and Cruz Alta (Rio Grande do Sul) and in Vera (Mato Grosso), where the Company processes soybean into soybean meal, which is an important component of animal feed for poultry, swine and cattle farming, soybean oil and biodiesel.

The following flowchart of our business model shows the synergies in the ecosystem, which are based on (i) a large network of stores, (ii) sales of inputs to rural producers, (iii) technical consulting for crop management, (iv) purchase of grains from rural producers, (v) grain processing and (vi) developing lasting relationships with clients based on credibility and trust.

### Relationship with the Independent Auditors

In compliance with Resolution 162/22, issued by the Securities and Exchange Commission of Brazil (CVM), we hereby inform that KPMG Auditores Independentes Ltda. was engaged to provide the following services:

(i) Independent audit of the financial statements of the Company prepared in accordance with the accounting practices adopted in Brazil and with International Financial Reporting Standards (IFRS), related to the fiscal year to end on December 31, 2024, and review of the interim financial statements of the Company presented through Quarterly Information Reports (ITR), prepared in accordance with CPC 21 and IAS 34 related to the periods ended March 31, June 30 and September 30, 2024; and

(ii) Non-audit services related to tax consulting.

The Company has adopted as a fundamental principle of preservation of the independence of the auditors, ensuring that they do not audit their own services and that they do not participate in the management of the Company.

As for other services provided by independent auditors, the Company obtains prior approval from its Audit Committee to avoid any conflict of interests or loss of independence or objectiveness of its independent auditors.
