With the four brands integrated into the portfolio, Zamp's ecosystem generated a gross revenue of R\$2.3 billion in the third quarter of 2025, representing a 50% increase over the same quarter of the previous year. This growth is mainly due to the acquisitions completed at the end of 2024, which incorporated the operations of Subway® and Starbucks® into Zamp's portfolio.

The slight contraction in consolidated gross margin is due to the significant increase in meat costs, especially since the second half of 2024, an impact that has been mitigated by our pricing strategy.

Finally, Adjusted EBITDA reached R\$ 182.3 million in the period, an increase of 34.5% compared to the same quarter of 2024. This performance reflects a solid sales growth and operational leverage gains in restaurants, even in the context of significant investments in corporate structure to support the integration of the acquired brands.

System-wide: sum of gross sales from company-owned and franchised stores, considering the annual total transacted by all brands, excluding cancellations and discounts.

# **FOOTPRINT**

**TOTAL 2,665** 

At the end of the third quarter of 2025, Zamp had 2,665 units, including its own and franchised operations, covering the four brands in its portfolio. Operating throughout Brazil and present in different formats, the Company ensures broad geographic distribution, favoring strategic decisions and more efficient capital allocation.

Mall format includes food court stores, airports, universities, and ghost kitchens; office stores and stores on highways without drive-thru are considered in-line.

# **BURGER KING®**

### **PORTFOLIO**

Burger King® ended the quarter with 966 restaurants, of which 687 company-owned – with the opening of three stores – and 279 franchised – with a net balance of five openings.

### **RESTAURANT SALES**

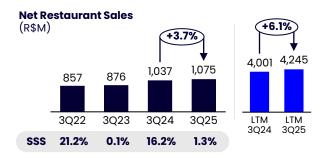

Burger King® ended another quarter with restaurant sales growth, with net revenue of R\$ 1.1 billion, up 4% vs. 3Q24. In the last 12 months, revenue was R\$ 4.2 billion – an increase of 6.1% over the same period last year.

The brand posted SSS of 1.3% in the period, despite compounding over a strong comparable quarter in 2024. Even so, over a two-year period, cumulative SSS was 17.5%.

# **CAMPAIGNS**

Attentive to consumer trends and committed to offering innovative products, Burger King® launched BK Protein Shake, providing a tasty and functional experience for those seeking to maintain a balance between indulgence and convenience. In the children's platform, the quarter featured Superman, Naruto, and Smurfs campaigns.

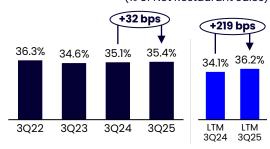

### **GROSS MARGIN**

Burger King® posted a quarter with a gross margin of 64.6%. This is mainly driven by the stabilization of protein price curve, along with the positive effects of the revenue management strategy we have been implementing. Additionally, the quarter included a non-recurring inventory write-down, which impacted margin and, excluding this effect, there was an improvement of 68 bps on a quarterly basis and a deterioration of 119 bps in the 12-month comparison.

# **POPEYES®**

### **PORTFOLIO**

Popeyes® ended the quarter with 89 restaurants – 81 company-owned and 8 franchises. We remain focused on optimizing legacy performance, growing the brand, and improving operational consistency so that we can resume expansion.

### **RESTAURANT SALES**

Popeyes® achieved net sales of R\$ 84 million in the period, a 22.5% increase compared to the same quarter of the previous year. For the last 12 months, revenue of R\$ 317 million represented a 17.2% increase compared to the same period.

The brand ended another quarter of double-digit growth, reaffirming its solid performance and consistency in the market. This result shows the ability to sustain the new level of brand awareness and traffic driven by the assertive "Molhão" campaign.

Continuing the "Molhão" campaign – a strong driver of customer engagement – Popeyes launched two new flavors: Lemon Pepper and Parmesan.

### **GROSS MARGIN**

Inflationary pressure in the protein market also affected the cost of chicken. This led to a slight deterioration in gross margin in the quarter, with an increase of 186 bps in cost of goods sold. However, for the last 12 months, there was a decline of 8 bps, ending the period with a gross margin of 62.3%.

# **STARBUCKS®**

## **Footprint by format**

### **RESTAURANT SALES**

The Company concluded its first year at the helm of Starbucks® in Brazil and continues to achieve significant results. The 110 stores in the current portfolio posted another period of double-digit SSS growth, with an increase of 16.3%. In addition to the turnaround initiatives we had already been adopting – such as inventory normalization, store recovery, and service level reestablishment – the quarter was marked by a complete menu overhaul, introducing new items that are more in line with Brazilian consumer habits.

Net restaurant sales reached R\$ 92.7 million in the quarter, and the gross margin closed at 63.5%. The upward curve in coffee costs, combined with the impact of tariff changes, were the main factors putting pressure on margins. In this scenario, the pricing strategy and product mix were essential to minimize these impacts.

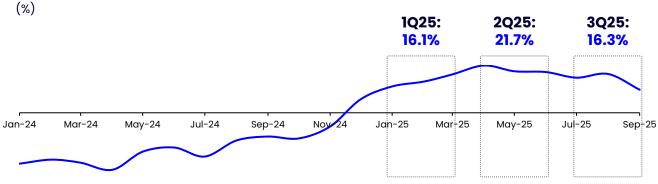

# **CAMPAIGNS**

The quarter was marked by the "Retomar" campaign, an initiative focused on reconnecting the brand with consumers and reinforcing its presence in the country, in a new phase, consolidating a cycle of renewal, growth, and continuity.

In addition, Starbucks® launched another high-impact campaign, this time in partnership with Malu Borges, an influencer known for her authentic style and connection with young audiences. The campaign reinforced the brand's innovative and iconic positioning, generating widespread on social media and strengthening repercussions engagement with consumers, generating while incremental sales through personalized beverages.

# Same Store Sales

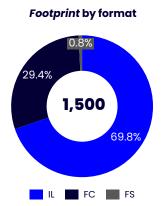

# **SUBWAY®**

### **RESTAURANT SALES**

In line with the priorities already communicated, the Company has made consistent progress in repositioning Subway® in Brazil, which has been positively reflected in its results. SSS maintained it trend of strong growth, reaching double digits in 3Q25, with an increase of approximately 22%. With this performance, Subway® system totaled R\$ 584.6 million in gross sales for the quarter.

The commercial strategy adopted at the beginning of the year continues to prove effective in driving sales, with platforms such as Subway Séries – addressing occasions of indulgence, and "2 SUBs for," aiming at an affordable alternative. Digital channels also played an important role in this result, with growth in both sales and traffic, up 16% and 17%, respectively, year-over-year.

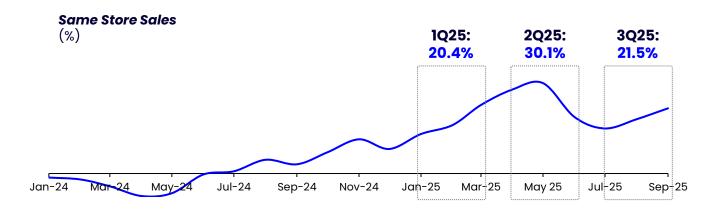

In the third quarter, five restaurants were opened and 12 operations were closed, all under franchisee management, resulting in a total of 1,500 units at the end of the period.

# **CAMPAIGNS**

The Company remains consistent in its strategy of making efficient investments in marketing, increasing sales, and generating value for the franchisee ecosystem. In this sense, we continued with the platforms launched previously. Subway Séries, an indulgence platform, launched three new flavors based on dried meat. Meanwhile, the value-for-money levers – "2 SUBs for," "BoGo Day", and "Dia do 30" – remain important drivers of counter sales.

The Company achieved net operating revenue of R\$ 1.3 billion in the third quarter of 2025, an increase of 16.7% compared to the same period last year. The accumulated result for the last 12 months was R\$ 5.1 billion, an increase of 16.5%.

# Digital Sales from Restaurants

Continuing with its strategy of connecting the physical and digital experiences in our restaurants, Zamp posted another quarter of growth in digital channels, including delivery, app, and self-service kiosks, which accounted for 54.8% of total revenue, totaling R\$719 million in sales – an increase of 22.6% compared to 3Q24.

Delivery channel continues to gain relevance, accounting for 32% of the Company's digital sales, a nominal increase of 29% compared to the same period last year. In addition, kiosks grew 21.2% year-over-year, representing 60% of total digital sales.

During the period, 51% of Burger King's total sales were identified. Our loyalty program – and main driver of our CRM strategy – Clube BK, ended the period with approximately 21.5 million registered users, an increase of almost 0.5 million compared to the previous quarter (2Q25).

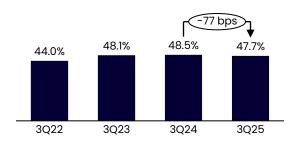

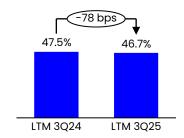

# **SALES EXPENSES**

In 3Q25, restaurant sales expenses, excluding depreciation and amortization and the effects of pre-operating expenses, represented 47.7% of net revenue, a reduction of 77 bps compared to the same period last year.

This reduction is driven by a combination of factors, including:

- A 33 bps reduction in personnel expenses, mainly due To operational leverage and vacancies in our operations.
- A 50 bps reduction in royalties and marketing due to the phasing of use of funds;
- Other reductions in third-party services resulting from greater operational leverage by new brands, which
  have little or no share of delivery in revenues;

In addition, this quarter we reclassified digital channel marketing expenses, contained in take rate expenses with aggregators, which were previously accounted for in third-party services and are now transferred to marketing.

# RELATIONSHIP WITH INDEPENDENT AUDITORS

In compliance with CVM Resolution No. 162/2022, the Company informs that, as of September 30<sup>th</sup>, 2025, the independent auditor PricewaterhouseCoopers Auditores Independentes Ltda. (PwC) has not provided any services in addition to those contracted for external audit services.

The Company adopts as a formal procedure to consult with independent auditors to ensure that the provision of other services does not affect their independence and objectivity necessary for the performance of independent audit services. The Company's policy on contracting independent audit services ensures that there is no conflict of interest, loss of independence, or objectivity.

When hiring these services, the policies adopted by the Company are based on principles that preserve the auditor's independence. These principles consist, in accordance with internationally accepted standards, of:
(a) the auditor should not audit his own work; (b) the auditor should not perform management functions for his client, and (c) the auditor should not legally represent the interests of his clients.

# 1. Operating context

ZAMP S.A. ("ZAMP" or "Company" or "Individual parent company") is publicly-held corporation domiciled in Brazil, with its head office at Rua Lemos Monteiro, 120 - Butantā - São Paulo - SP, listed on B3 S.A. - Brasil, Bolsa, Balcão under the *ticker* "**ZAMP3**". The Company and its subsidiaries (together the "Group") operate stores and restaurants under the "BURGER KING", "POPEYES", "STARBUCKS" and "SUBWAY" brands in Brazil and have as their corporate purpose: (i) the development and operation of stores and restaurants of the aforementioned brands in Brazil; (ii) the provision of advisory and support services to restaurants operating under such brands in Brazil; (iii) the trade, import and export of products related to the aforementioned activities; and (iv) participation in other companies carrying out the aforementioned activities in Brazil, as a partner, quotaholder or shareholder.

The Company has a Level I American Depositary Receipts ("ADR") Program registered with the SEC (Securities and Exchange Commission) from April 2023, backed by registered, book-entry common shares with no par value issued by the Group. Each ADR corresponds to four common shares and is traded on the over-the-counter (OTC) market under the code ZMMPY. In April 2025, the Company voluntarily terminated the ADR program. The termination of the ADR program does not impact the listing of its common shares on the Basic Listing Segment of B3 S.A. – Bolsa, Brasil, Balcão.

The Company's management constantly assesses its ability to sustain its operating activities. On September 30, 2025, the Company had negative working capital (current liabilities exceeding current assets) of R\$154,772 at the Parent Company and R\$149,924 on a consolidated basis. The negative working capital is mainly due to funds used to settle financial and operating obligations, in addition to the reclassification of loans and financing from long-term to short-term, according to match their original maturities. The Company's operating cash generation is higher at year end, driven by seasonal factors. Management continuously monitors capital requirements and has not identified any significant risks regarding the Company's ability to meet its obligations or risks to its operational continuity.

#### Public Offering for the Acquisition of Shares for Conversion of Registration and Exit from B3

On May 25, 2025, the Company was advised by its shareholder, MC BRAZIL F&B Participações S.A. ("MC BRAZIL"), of an intended public tender offer (OPA) with the objective of going private, converting the Company's securities classification as an issuer from category "A" to "B" (under the terms of CVM Resolution No. 80/22) and the consequent delisting from the Basic Segment of R3

On June 6, 2025, a valuation appraisal report was issued, prepared in accordance with §4 of Article 4 of Law 6,404/76 and CVM Resolution No. 85, within the legal deadline to allow minority shareholders to express their opinions by June 21, 2025,; no comments were received.

Following the transaction, the CVM approved the registration of the tender offer on August 7, 2025, which was officially launched on the same date by the Company, at a cash price of R\$3.50 per share, for up to 100% of the outstanding common shares. The public notice and appraisal report are available on the official channels of ZAMP, CVM, B3, and Bradesco BBI.

On September 22, 2025, the tender offer launched by MC BRAZIL was completed, resulting in the acquisition of 22,807,845 shares, equivalent to 5.6% of the share capital and 32.2% of the outstanding shares, at the offered price of R\$3.50 per share. As a result, MC BRAZIL's direct stake, combined with the stake of its controlling shareholder, MIC CAPITAL Partners, is 79.27% of the Company's total share capital. The remaining shareholders have the right to sell their shares to the bidder at the same price as the tender offer adjusted by the IPCA (Extended Consumer Price Index) from September 23 to December 23, 2025.

Notes to the individual and consolidated quarterly financial information nine-month period ended September 30, 2025

(Amounts expressed in thousands of Brazilian reais)

On October 13, 2025, MC BRAZIL and its controlling shareholder, MIC Capital Partners, increased their joint ownership to 85.01% of the Company's share capital, in addition to holding an additional economic exposure of 3.94% through cash-settled derivative instruments.

The Company will continue migrating to category "B" and to exit from the Basic Listing Segment of B3; shareholders and the market will be informed of developments through official channels.

#### a) BURGER KING Operation

The right to operate restaurants under the "BURGER KING" brand was obtained through a *Master* Franchise agreement signed with BURGER KING Corporation ("BKC") on July 9, 2011. The rights to operate the brand are valid for 20 years and may be renewed for an equal period if the parties are interested (Note 20).

# 2. Material accounting policies

# **Basis of preparation**

The individual parent company and consolidated interim financial information was prepared in a manner consistent with the accounting policies described in Note 2 to the annual individual and consolidated financial statements for the year ended December 31, 2024.

Pursuant to CVM Circular Letter 03/2011, the Group's individual parent company and consolidated interim financial information does not include all the notes and disclosures required for a full set of annual individual and consolidated financial statements and, therefore, the respective financial information should be read in conjunction with the annual individual and consolidated financial statements.

The Company's individual and consolidated interim accounting information contained in the Quarterly Information Form (ITR) for the nine-month period ended September 30, 2025 has been prepared in accordance with CPC 21 (R1) - Interim Financial Reporting and IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board - IASB and in accordance with the rules issued by the CVM, applicable to the preparation of Quarterly Information - ITR, and presents all information of significance to the financial statements, which is consistent with the information used by the Company's management in the performance of its duties.

The preparation of interim accounting information requires the use of certain critical accounting estimates and the exercise of judgment by the Company's management. Accounting estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events considered reasonable in the circumstances. These estimates and assumptions may differ from actual results.

The consolidated interim accounting information comprises the accounting information of ZAMP, the direct investees ZAMP II S.A., ZAMP III S.A. and the indirect investee Café Pacífico (Note 1). The financial information used for consolidation refers to the same period as the Company, using consistent accounting policies. All intra-group balances, income and expenses and unrealized gains and losses arising from intra-group transactions are completely eliminated.

The Company's operating results are subject to seasonality effects of the retail industry. These include school holidays (January, July and December) for stores located in shopping malls in the weeks preceding Mother's day (May), Valentine's day (June), Father's day (August), Children's day and Halloween (October), Black Friday (November) and Christmas (December). Therefore, quarterly sales reflect seasonal effects.

CPC 22/NBC TG 22 (R2)/IFRS 8 - Operating Segments requires operating segments to be identified based on internal reports which are regularly reviewed by the chief decision makers for the purpose of allocating resources to segments and assessing their performance. The Group develops its activities and bases its business decisions within a single operating segment being the sale of food and beverages in stores and restaurants operated by the Group and also the provision of services to restaurants and stores. (Note 33).

The Quarterly Information (ITRs) as at September 30, 2025 was approved by the Company's management and authorized for issue in accordance with the resolution of the members of the Board of Directors on November 6, 2025.

#### 3. Business combination

# Acquisition of CAFÉ PACÍFICO (STARBUCKS) stores by ZAMP II

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured by the sum of the consideration transferred, which is valued based on the fair value on the acquisition date.

In each business combination, the acquirer measures any non-controlling interest in the acquiree at the fair value of that interest or at their share of the fair value of the acquiree's net identifiable assets.

The Group evaluates the financial assets and liabilities assumed for their correct classification and designation, in accordance with the terms of the contract, economic circumstances and relevant conditions at the acquisition date.

If the business combination is carried out in stages, the book value on the acquisition date of the stake previously held by the acquirer in the acquiree is remeasured on the acquisition date at fair value through profit or loss.

Management hires external experts to appraise the fair value of the identifiable assets acquired, the liabilities and contingent liabilities assumed and to determine the purchase price allocation (PPA). The assumptions for the determination are based mainly on the market conditions existing on the acquisition date.

On October 8, 2024, the Company acquired a 100% stake in Café Pacífico, through the investee ZAMP II for R\$101,483. As part of its expansion strategy, the Company intends to consolidate its presence in the Brazilian food service market; with the acquisition of Café Pacífico, the Company now has the right to develop the STARBUCKS brand's operations in Brazil, which strengthens its strategy.

The Company prepared a fair value purchase price allocation report pursuant to Technical Pronouncement CPC 46 - Fair Value Measurement (equivalent to IFRS 13). The purchase price allocation report identified capital gains on items of property and equipment, as well as identifying intangible assets from STARBUCKS brand franchising contracts ("Master Agreement"), glove contracts and the assignment of rights to use the brand.

The transaction generated a gain (negative goodwill) of R\$21,304. Before recognizing the gain, the Company and its advisors carried out a thorough review to ensure that all assets acquired and liabilities assumed were properly identified. Management concluded that the measurements adequately reflected all the information available on the acquisition date. The gain on an advantageous purchase is mainly related to the economic and financial position existing on the date of negotiation of the former company holding the rights to the Café Pacífico operating brand. This gain was recorded in the statement of income under "Other operating income (expenses), net", net of the tax effects of R\$17,991. The tax effect was recorded as deferred tax liabilities as a gain on an advantageous purchase only becomes once the investment is sold or written off.

The intangible asset Master Agreement was valued using the Multi-Period Excess Earnings Method (MPEEM), the assignment of rights to use the brand was valued using the Cost Approach and the glove contracts and items of a fixed asset nature were valued using the Market Approach. The MPEEM measures the present value of future income to be generated over the remaining useful life of a given asset, based on the pre-tax cash flows directly attributable to the asset as of the valuation base date. The Cost Approach measures the investment required to reproduce an asset while maintaining the same capacity to generate benefits, based on the principle of substitution, according to which a prudent investor would not pay more for an asset than it would cost to replace it with a comparable one. The Market Approach considers that the fair value of the asset is estimated by comparing it with similar or comparable items that have been sold or listed for sale on the primary or secondary market.

- (i) Updates to financial indices due on lease obligations are recorded in accordance with each contract, impacting the items Interest on Lease Liabilities and Right-of-Use Assets. These updates, when they occur, do not impact the results for the period, affecting only the balance sheet.
- (ii) In compliance with CVM Circular Letter 02/2019, the balances presented in equity accounts are gross of taxes (PIS and COFINS), while the balances presented in income accounts are net of taxes (PIS and COFINS).
- (iii) The effects of adopting CPC 06 (R2)/NBC TG 06 (R3)/IFRS16 reduced occupancy expenses by R\$182,623 on September 30, 2025 (R\$176,583 on September 30, 2024), net of taxes (PIS and COFINS), due to operating leases (fixed rent) no longer being recognized under this heading (Note 25).

Interest rate (per month)

Maturity

(i) In February 2024, the Company raised funds through the 10th issue of non-convertible debentures in three Series, unsecured, subject to private placement, within the scope of the 188th issue of agribusiness receivables certificates (CRA) under regulation CVM No. 160, dated July 13, 2022, as amended, CVM Resolution No. 60, dated December 23, 2021, and other legal and regulatory provisions in force ("Offer"), with a total value of R\$700,000. The maturity is years from the date of issue, on February 14, 2029, with the possibility of early maturity, with restrictive clauses similar to those of the 9th debenture issue. The remuneration rates will be: 1st Series at 115.00% of the DI rate; 2nd Series at a fixed rate of 13.00% p.a.; and 3rd Series at IPCA + 7.30% p.a. The funds raised through the issue are intended to cover expenses incurred in the 24 months prior to the issue and to pay future contractual obligations arising from the purchase of fresh meat from certain suppliers.

Loans and financing in local currency are used to purchase goods for opening new stores, reinvest in existing stores, and for working capital purposes. Non-current amounts have the following original maturities on September 30, 2025, and December 31, 2024:

#### Covenants

The agreements for the loans, financing and debentures contain restrictive clauses (covenants) that restrict the ability to take certain actions, and could trigger early maturity or refinancing in the event of noncompliance. The covenants are monitored annually by the financial institutions and monthly by the Company. To date, the Company is in full compliance.

<sup>(</sup>i) The Company has agreements with financial institutions to benefit suppliers with advance payments. Suppliers who opt for advance payments transfer their right to receive payment to the financial institutions. This allows the supplier to receive an advance net of the fee charged by the financial institution. The Company, continues to pay according to the term agreed with the supplier, without changing the agreed amount, creating an obligation to the financial institutions and eliminating the liability with the initial supplier. The transactions that occurred in the period ended September 30, 2025, with affiliated suppliers had a potential financial value embedded in the average rate of 3.0% per month combined with an average term of 23 days. (2.7% per month with an average term of 36 days in fiscal year 2024).

# 19. Provision for legal claims

The Group is exposed to certain risks, represented in tax, civil, and labor proceedings, which are provided for in the financial statements, as they are considered to represent a probable loss, or, for possible loss risks, when significant, are disclosed in an explanatory note.

The proceedings provisioned and/or disclosed depend on several factors, including the advice of Group's legal counsel, the nature of the proceedings, and historical experience. The amounts provisioned for legal proceedings under discussion in the courts are shown in the table below. Management is not aware of other tax, civil, and labor lawsuits; based on the history of the lawsuits and analysis of the main causes, the measurement of lawsuits with a probability of possible loss was R\$573,775 (R\$483,750 as of December 31, 2024) in the Parent Company and Consolidated, namely:

- (i) The increase in cases of possible labor claim losses mainly refers to atypical cases (Public Ministry of Labor, Unions, and cases involving employees of the Group's headquarters or third parties). As for tax cases, the increase in the possible risk of loss amount is mainly due to accruals for existing cases, in addition to charges and fees on outstanding debt. The cases are under discussion in the courts.
- (ii) In October 2022, the Brazilian Federal Revenue Service (RFB) issued two assessments against the Company, seeking to collect additional PIS, COFINS, IRPJ, and CSLL taxes. The fines totaled R\$322,587 on September 30, 2025 (R\$365,474 on December 31, 2024), and are based on the following: (i) differences in the tax rate applicable to certain revenues (PIS and COFINS); (ii) alleged inappropriate use of credits despite being credits related to typical expenses in the segment and meeting the criteria of necessary and relevant (PIS and COFINS); (iii) alleged inaccuracies in the fulfillment of ancillary obligations, especially arising from credits that were contested (PIS and COFINS); and (iv) disallowed deductibility of royalties for the purposes of calculating IRPJ and CSLL, at a level above the legal limit (IRPJ and CSLL).

# Legal claims - probable risk of loss

The Company is a party to labor lawsuits, mainly from terminations in the normal course of its business. On September 30, 2025, the Company had a provision of R\$64,005 (R\$45,966 on December 31, 2024) in the Parent Company and in the Consolidated Financial Statements for litigation related to these lawsuits. These disputes are assessed based on the average historical loss over the last 18 months compared to the total number of cases pending at the end of the year, excluding cases that are considered one-off and non-routine, for which specific provisions are made using criteria similar to those used for tax and civil assessments.

# 20. Related parties

# 20.1 Franchise Fees, Royalties, and Service Fees

RBI is the Group's franchisor and, therefore, a related party. The Company entered into a *Master* Franchise Agreement and is required to pay franchise fees and *royalties* to RBI (Note 1).

The Franchise Fees and Royalties transactions are carried out under exclusive conditions set forth in the agreements with BKC and PLK, since ZAMP is the representative of the brands in Brazil, and there are no comparable conditions in the market (Note 1).

As a result of the agreements described above, the Company has recorded the following amounts in its accounts payable and receivable for the nine-month period ended September 30, 2025, and for the year ended December 31, 2024:

# 21. Equity

#### Capital

On September 30, 2025, and December 31, 2024, the Company's share capital was R\$1,911,068 and was represented by 406,934,395 common shares, all of which are registered, book-entry shares with no par value.

In accordance with the Bylaws and upon resolution of the Group's Board of Directors, the capital stock may be increased, without prior amendment to the Bylaws, up to a limit of 427,281,115 common shares, including for the purpose of issuing shares to be issued as a result of the possible exercise of subscription rights contained in subscription bonuses issued by the Company.

# **Capital reserve**

The capital reserve reflects a premium on the subscription of shares and the stock option plan, and is partially offset by issuance costs. The reserve may be used to increase capital stock or to absorb accumulated deficits. On September 30, 2025, the capital reserve amounted to R\$711,793 (R\$711,668 on December 31, 2024).

# **Treasury shares**

The shares acquired will be held in treasury for subsequent cancellation, disposal, and/or use as collateral for the exercise of long-term incentive plans approved by the Company.

Up to September 30, 2025, the Company had not transferred shares to the *matching* program. Thus, the Company holds 8,010,152 treasury shares as of September 30, 2025 (8,023,038 as of December 31, 2024).

The following table shows the change in treasury shares to September 30, 2025, and December 31, 2024:

# 22. Earnings (loss) per share

Based on CPC 41/NBC TG 41 (R2)/IAS 33 – Earnings per share, the Company presents its basic and diluted earnings per share. The comparative data for basic and diluted earnings/losses are based on the weighted average number of shares outstanding in the period and all shares with potential dilution outstanding in the period presented, respectively.

Diluted earnings per share are calculated similarly to basic earnings per share, except that shares that are not outstanding are added to include the number of additional shares that would be outstanding if the shares with dilution potential attributable to stock options and redeemable shares of non-controlling shareholders had been issued during the respective periods, using the weighted average share price.

The following table presents the calculation of basic and diluted loss per share:

<sup>(</sup>i) A change was made to the presentation of interest accruals from provisions for labor lawsuits. The interest accruals that were previously classified as operating expenses are now presented as financial expenses, Management concluded that the change is immaterial to prior financial statements since the reclassification does not impact the Company's balance sheet, results for the period, or cash flow. Had this reclassification were applied to the nine-month period ended September 30, 2024, the amount would be R\$11,483 for both the Parent Company and the Consolidated.

#### Uncertainty regarding IRPJ and CSLL treatment

The Company received a tax assessment notice from the Brazilian Federal Revenue Service (RFB) alleging improper deductibility of royalties for IRPJ and CSLL calculation purposes, at an amount above the legal limit (IRPJ and CSLL), for the 2017 fiscal year, in the amount of R\$15,951. The case is awaiting judgment in the administrative sphere. Management, supported by its legal advisors, believes that its position will prevail and for this reason, it has not recorded any IRPJ and CSLL liabilities in relation to this lawsuit.

# 30. Financial risk management objectives and policies

The Group's main financial liabilities relate to loans and financing, debentures, accounts payable to suppliers, and other accounts payable. The main purpose of these financial liabilities is to raise funds for the Group's operations.

Management reviews and establishes policies for managing each of these risks, which are presented below:

#### **Market risk**

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in market prices. Market prices encompass three types of risk: interest rate risk, currency risk, and price risk, which may be related to commodities, stocks, among others.

Management prepared sensitivity analyses of the risks using an interest rates projected for 2025 for the probable scenario. Scenarios II and III were stressed by an additional appreciation of 50% and 25%, respectively, while scenarios IV and V were stressed by an additional devaluation of 25% and 50%, in relation to the probable scenario.

The sensitivity analyses in the following sections refer to the position as of September 30, 2025.

#### Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Group's exposure to the risk of changes in market interest rates mainly relates to the Group's long-term obligations subject to variable interest rates.

The Group manages interest rate risk by maintaining a balanced portfolio of fixed-rate and variable-rate borrowings.

#### Interest rate sensitivity

As of the date of this quarterly information, the profile of interest-bearing financial instruments was as follows:

# **Capital management**

Assets can be financed by equity or debt capital. Equity capital includes capital contributions from shareholders. Debt is a viable option, especially when Management believes that this cost will be lower than the return generated by the acquired asset. Management seeks an efficient capital structure which provides financial strength and flexibility for the business plan.

Capital is managed through leverage ratios, which are defined as net debt divided by the sum of adjusted EBITDA excluding the effects of IFRS 16/CPC 06 (R2)/NBC TG 06 (R3) for the last 12 months, and net debt divided by the sum of net financial debt and total shareholders' equity. Management seeks to maintain this ratio at levels equal to or lower than industry levels. Management includes in net debt loans and financing (including debentures), *swaps*, cash and cash equivalents, current and non-current financial investments, and current and non-current securities.

The capital structure consists of net debt, defined as total loans and financing (including debentures), net of cash and cash equivalents, securities, and other short-term financial assets, and capitalization, which is defined as total shareholders' equity and net debt, all based on the data considered.

The Group is not subject to any externally imposed capital requirements. Total capitalization is defined as total equity plus lease liabilities and net debt as follows:

#### **Hedge Accounting**

The Company applies *hedge accounting* rules for derivative and non-derivative financial instruments that qualify for cash flow *hedge* relationships, in accordance with the provisions of its Risk Policies.

The Company formally designates its *hedge accounting* relationships as provided for in CVM Resolution No 763/16/IFRS9 and in accordance with its Risk Policy.

<sup>(</sup>ii) For the purposes of covenant calculations, the effects of IFRS 16 are eliminated (Note 13).

# 33. Segment information

In accordance with CPC 22/NBC TG 22 (R2)/IFRS 8 – Segment Information, the Group discloses consolidated information by business segment, based on established criteria that best reflect how Management tracks and monitors the Company's business. Segment information is presented based on activities and operations that generate distinct revenues and profits and are subject to different risks and returns.

Currently, the Group segments, monitors, and manages the revenues and results of each brand for which it holds exclusive exploitation and development rights, namely: BURGER KING, POPEYES, STARBUCKS and SUBWAY (Note 1).

The segmentation follows the management structure adopted by the Company's Management, which monitors and evaluates operating results based on internal financial information.

There are no internal transactions between the segments, allowing the results of each segment to be analyzed independently at the operational level. However, expenses, mainly general and administrative expenses, are shared among the segments.

The Company did not identify any significant risks that affect segments.

The operating results by segment for the nine-month period ended September 30, 2025, are shown below:

# Report on review of quarterly information

To the Board of Directors and Shareholders ZAMP S.A.

# Introduction

We have reviewed the accompanying individual parent company and consolidated interim accounting information of ZAMP S.A. ("Company"), included in the Quarterly Information Form (ITR) for the quarter ended September 30, 2025, comprising the balance sheet at that date and the statements of income and comprehensive income (loss) for the quarter and nine-month period then ended, and the statements of changes in equity and cash flows for the nine-month period then ended, and explanatory notes.

Management is responsible for the preparation of the individual parent company and consolidated interim accounting information in accordance with the accounting standard CPC 21, Interim Financial Reporting of the Brazilian Accounting Pronouncements Committee (CPC), and International Accounting Standard (IAS) 34, Interim Financial Reporting issued by the International Accounting Standards Board (IASB), as well as the presentation of this information in accordance with the standards issued by the Brazilian Securities Commission (CVM), applicable to the preparation of the Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim accounting information based on our review.

# Scope of review

We conducted our review in accordance with Brazilian and International Standards on Reviews of Interim Financial Information (NBC TR 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

# Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual parent company and consolidated interim accounting information included in the quarterly information referred to above has not been prepared, in all material respects, in accordance with CPC 21 and IAS 34 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

#### Other matters

# Statements of value added

The quarterly information referred to above includes the individual parent company and consolidated statements of value added for the nine-month period ended September 30, 2025. These statements are the responsibility of the Company's management and are presented as supplementary information under IAS 34. These statements have been subjected to review procedures performed together with the review of the interim accounting information for the purpose of concluding whether they are reconciled with the interim accounting information and accounting records, as applicable, and if their form and content are in accordance with the criteria defined in the accounting standard CPC 09 - "Statement of Value Added". Based on our review, nothing has come to our attention that causes us to believe that these statements of value added have not been properly prepared, in all material respects, in accordance with the criteria established in this accounting standard, and consistent with the individual parent company and consolidated interim accounting information taken as a whole.
